Department of Commerce CA

Board of Studies Meeting

The minutes of the 22nd Board of Studies held on 28.10.2026 at 10.00 am in D1 Block- Room No. 212.

Members Present:

S.NO.	NAME	POSITION
1	Dr.P.Suganya	Chairman
2	Dr.G.Kavitha	University Nominee
3	Dr.M.Prakash	Subject Expert
4	Dr.R.Rupa	Subject Expert
5	Dr.N. Kuppuchamy	Co-Opted Members
6	Dr.A Hazel Verbina	Co-Opted Members
7	Dr. S. Gokilamani	Co-Opted Members
8	Dr.S.Arunpriya	Co-Opted Members
9	Dr.S.Kowsalya	Co-Opted Members
10	Dr.M.Prakash	Member
11	Dr.M.Ashok Kumar	Member
12	Dr.P.Jayasubramanian	Member
13	Dr.C.Eahambaram	Member
14	Dr.L.Priya	Member
15	Dr.C.Radhiya Devi	Member
16	Mrs.N.Revathi	Member
17	Mrs.V.Jayashree	Member
18	Mr.M.Gunasekaran	Member
19	Mrs.P.M.Neetu	Member
20	Mrs.C.Mercy Praba	Member
21	Dr.K.Dhivya	Member
22	Dr.V.M.Tharakarani	Member
23	Ms.S.Durgalakshmi	Member
24	Amitha L	Student Representative
25	Mohanapriya D	Student Representative

The HoD and Chairman of the Board of Studies of Commerce CA, Dr. P. Suganya, welcomed and introduced all the members, expressing appreciation for their continuous support and contributions toward enriching the syllabus and enhancing academic standards.

The agenda items were taken up individually for discussion and the following resolutions were passed:

Item 22.1: ***To review and approve the minutes of the 21st BoS meeting held on 02.04.2026***

The Chairman presented the minutes of the 21st BoS meeting held on 02.04.2026 and requested approval from the board.

Resolution:

Resolved to approve the minutes of the 21st Meeting of BoS held on 02.04.2026.

Item 22.2: ***To consider and approve the Scheme and Syllabi of II semester for the students admitted in UG and PG during the academic year 2026-2027.***

The Chairman presented the II Semester Syllabi for UG and PG students admitted during the academic year 2026-2027 under Regulation 6. Courses have been redesigned to emphasize application-oriented learning based on stakeholder feedback and industry requirements.

New Courses Introduced:

B. Com (CA)		
Course Code	**Course**	**Reason**
26CMU2CP	Computerized Accounting	To enhance accounting proficiency through use of Accounting Software.
M.Com (CA)		
Course Code	**Course**	**Reason**
26CMP2CB	Modern Database Systems	To introduce advanced concepts in NoSQL, distributed, and cloud database architectures for modern data management.
26CMP2CP	Modern Database Systems	Practical component updated to align with modern database framework requirements.
26CMP2DA	Data Intelligence and Mining	To equip students with data analytical skills, business intelligence tools and data mining techniques for decision-making.

Changes Made:

B. Com (CA)		
Course Code	**Course**	**Reason**
26CMU2AA	Human Rights and Women's Rights	To integrate new schemes introduced by Government focusing on women empowerment, legal remedies, safety regulations and gender equity.
M.Com (CA)		
Course Code	**Course**	**Reason**
26CMP2DB	Behavioral Finance	Content reduced to streamline core topics and optimize syllabus workload for the semester.

AECC Offered:

Course Code	Course	Department
26CMU2AA	Human Rights and Women's Rights	To all UG Programme

Courses Removed:

B. Com (CA)		
Course Code	**Course**	**Reason**
25CMU2CP	Financial Analysis using Accounting Software	Removed due to content overlap with other spreadsheet and analytics practical courses.
M.Com (CA)		
Course Code	**Course**	**Reason**
25CMP2CB	Relational Database Management System	Upgraded to Modern Database Systems (26CMP2CB) to cover contemporary NoSQL and distributed database architectures.
25CMP2CP	Core Practical II RDBMS	Replaced by Modern Database Systems Practical (26CMP2CP) to align with updated theoretical database concepts.
25CMP2DA	Information Security	Replaced by Data Intelligence and Mining (26CMP2DA) to provide stronger focus on analytics and business intelligence.

After discussion, the following resolution were passed with the above changes and modifications.

Resolution:

Resolved to approve the above modifications and adopt the scheme and syllabi for UG and PG students admitted in the academic year 2026–27.

Item 22.3: ***To consider and approve the syllabi for IV Semester for students admitted to UG & PG during the academic year 2025-2026.***

The Chairman presented the detailed IV Semester syllabi for students admitted in 2025–2026.

Resolution:

Resolved to approve the existing syllabi for the IV Semester for students admitted in the academic year 2025–26.

Item 22.4: ***To consider and approve the syllabi for VI semester for the students admitted in UG during the academic year 2024-2025.***

The Chairman presented the detailed VI Semester syllabi for students admitted in 2024–2025.

New Courses Introduced:

B. Com (CA)		
Course Code	**Course**	**Reason**
24CMU6CA	PHP and MySQL	Introduced to provide modern backend server-side web development skills and relational database management
24CMU6SP	Programming in PHP and MySQL	Practical lab component introduced for hands-on experience in building dynamic, database-driven web applications.

Courses Removed:

B. Com (CA)		
Course Code	**Course**	**Reason**
235CM1A6CA	Web Designing	Removed and upgraded to PHP and MYSQL (24CMU6CA) to transition from static web design to dynamic web development.
235CM1A6SP	Web Designing	Replaced by Programming in PHP and MYSQL (24CMU6SP) to align practical skills with updated backend programming standards.

Discipline Specific Elective Courses:

The following Discipline Specific Elective Courses are available to our students:

B. Com (CA)		
Course Code	**Course**	**Department**
24CMU6DA	Investment Management	Department of Commerce Computer Applications
24CIU6DA	Enterprise Resource Planning	Department of Commerce Information Technology
24COU6DA	Organizational Behavior	Department of Commerce
24BIU6DA	Retail Marketing	Department of Commerce Banking and Insurance
24CMU6DB	Security Analysis and Portfolio Management	Department of Commerce Computer Applications
24CIU6DB	Fundamentals of Information Security	Department of Commerce Information Technology
24COU6DB	Industrial Relations and Labour Law	Department of Commerce
24BAU6DB	Social Media Marketing	Department of Commerce Business Analytics
M. Com (CA)		
Course Code	**Course**	**Department**
26IBP2DB	Digital Marketing	Department of Commerce International Business
26CMP2DA	Data Intelligence and Mining	Department of Commerce Computer Applications
26CMP2DB	Behavioral Finance	Department of Commerce Computer Applications
25COP4DA	International Marketing	Department of Commerce

25CMP4DA	Big Data Analytics	Department of Commerce Computer Applications
25CMP4DB	FinTech Services	Department of Commerce Computer Applications

Resolution:

Resolved to approve the syllabi and modifications for the VI Semester for students admitted in the academic year 2024–25.

Item 22.5: ***To consider and approve Self-Study courses to earn extra credit for III Semester students admitted in UG and PG during the academic year 2026-2027.***

B.Com (CA)	
Course Code	**Course Name**
25CMUSSA	Business Ethics
25CMUSSB	Cyber Securities and Cyber Law

M.Com (CA)	
Course Code	**Course Name**
25CMPSSA	Disaster Management
25CMPSSB	Cloud Computing

Resolution:

Resolved to approve the Self-Study courses for extra credit for III Semester students admitted in UG and PG during the academic year 2026–27.

Item 22.6: ***To consider and approve Student Skill Development Courses (SSDC) / NPTEL Courses equivalent to the course curriculum.***

The board discussed the Students Skill Development Course (SSDC)/ NPTEL Courses that are equivalent to the courses offered in our curriculum.

NPTEL / SWAYAM Credit Transfer Equivalent Courses:

The board discussed the include courses offered by NPTEL for credit transfer that are equivalent to the courses offered in our curriculum.

Industry Aligned Skill Course

- Master in Accounting, Finance and Taxation (AI Powered)
- Systems, Applications and Products in Data Processing

Resolution:

Resolved to approve the Student Skill Development Courses (SSDC) and NPTEL courses equivalent to the program curriculum.

Item 22.7: ***To approve the panel of examiners for the even semester of the academic year 2026 - 2027.***

The Chairman presented the panel of examiners for question paper setting, scrutiny, conduct of practical's and answer script evaluation for the even semester of 2026–2027.

Resolution:

Resolved to approve the panel of examiners for question paper setting, question paper scrutiny, conduct of practical examinations, and evaluation of answer scripts for the even semester of the academic year 2026–2027.

Item 22.8: ***To consider and approve any other item brought forward by the Chairman and the members of the board.***

The Chairman highlighted and appreciated the accomplishments of students who completed Foundation and Executive levels in Professional Courses. Additionally, special appreciation was extended to 3 faculty members and 38 (UG & PG) students for successfully completing NPTEL courses.

The meeting concluded with a formal vote of thanks proposed by Dr. C. Eahambaram.

Date: 28/10/2026

(Dr.P.Suganya)

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: II
Course Code / Name: 26CMU2CP / Computerized Accounting

S.No.	List of Programs
1	Creation of a Company and alteration of company details.
2	Creation of Groups and Ledgers.
3	Creation of Purchase Vouchers, Sales Voucher, Debit Note and Credit Note.
4	Creation of Payment Vouchers, Receipt Voucher, Contra Voucher and Journal Voucher.
5	Creation of Vouchers using Bill wise details.
6	Prepare Bank Reconciliation Statement.
7	Creation of Unit of Measure, Stock Group, Stock Item and Godown.
8	Calculation of Cost Category and Cost Centre under F11 feature.
9	Preparation of Various financial Reports and Inventory Reports.
10	Calculation of GST (Interstate and Intrastate).
11	Generate E - Way Bill Report.
12	Recording TDS Compliance transactions.

PERCENTAGE OF SYLLABUS REVISED : 100%

- [x] Skill Development
- [x] Entrepreneurial Development
- [x] Employability
- [x] Innovations
- [ ] Intellectual Property Rights
- [ ] Gender Sensitization
- [ ] Social Awareness/ Environment
- [ ] Constitutional Rights/ Human Values/ Ethics

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: II
Course Code / Name: 26CMP2CB / Modern Database Systems

Unit	Content
I	SQL and Relational Databases Database-System Applications - Architecture - Database Languages - Database Design - Structure of Relational Databases - The Relational Algebra - Database Schema - Keys - Relational Query Languages. Overview of the SQL Query Language - SQL Data Definition Language - Data Manipulation Language - Normalization - Functional dependency - 1 NF - 2 NF - 3 NF - Boyce-Code NF - Joins - Types of Joins. Case Study on Banking Transactions and Account Management Using SQL.
II	NoSQL Databases NoSQL – Limitations of Relational Databases – Emergence of NoSQL – Aggregate Data Models – Distribution Models – Single-Server Architecture – Sharding – Replication – Consistency Models – Update, Read, and Relaxed Consistency. Key-Value Databases - Document Databases - Column-Family Stores - Graph Databases. Case Study on Social Media Data Storage Using NoSQL.
III	MongoDB Architecture MongoDB: Definition - JSON structure - Features and architecture - Document database concepts - NoSQL database overview and types - MongoDB data platform - Differences from traditional databases - Documents, collections, rich query language, storage engines - Terminology comparison with SQL databases. MongoDB databases - Relational database - NoSQL database - MongoDB database - MongoDB collections - MongoDB documents - MongoDB Shell - MongoDB clients - Storage Engines in MongoDB - MongoDB locks. Case Study on Product Catalogue Structure in MongoDB.
IV	MongoDB Administration and Data Types Managing and Administering MongoDB - MongoDB administration commands and methods - Drop database command - MongoDB query and write operation commands and methods - MongoDB user authentication and role-based commands and methods. MongoDB Shell Methods. MongoDB connection methods - MongoDB database methods - MongoDB Collection methods - MongoDB cursor methods. Data types - BSON data types - Data types in MongoDB - Binary data types - Null data types. Case Study on Secure Hospital Database Administration.
V	MongoDB CRUD and Advanced Operations MongoDB CRUD operations - MongoDB create operations - MongoDB read operations - MongoDB update operations - MongoDB delete operations - MongoDB bulk write operations. Atomicity in MongoDB - Consistency in MongoDB - Index types in MongoDB - MongoDB Query selectors - Projection in MongoDB - Aggregation - mapReduce() method - MongoDB Compass. Case Study on Online Food Ordering System Using MongoDB Compass.

BoS

22nd

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: II
Course Code / Name: 26CMP2CP / Modern Database Systems

S.No.	List of Programs
1	Create a Student table with Rollno (Number(5), Primary key), Studname Varchar2(15), Gender Varchar2(6), Deptname Varchar2(15), Address Varchar2(50), Percentage Number(4,2) and perform Data Manipulation Language operations: insert, retrieve, update and delete records.
2	Develop a Key-Value store application to store and retrieve data using key-value pairs in a NoSQL database.
3	Design and implement an E-Commerce Product Catalog database using MongoDB. Create appropriate collections and insert sample product data.
4	Perform CRUD operations (Create, Read, Update and Delete) on the Product Catalog collection in MongoDB.
5	Create a MongoDB collection and declare array fields (e.g., product categories, tags). Insert multiple documents with array values.
6	Write a MongoDB query to update multiple documents in a collection using the updateMany() method.
7	Demonstrate MongoDB cursor operations sorting, limiting and counting documents in a collection.
8	Create an index on a field in a MongoDB collection and demonstrate its usage in improving query performance.
9	Implement MongoDB projection operators $, $elemMatch, and $slice to retrieve specific fields or elements from documents.
10	Demonstrate string expression operators $concat, $substrCP, $toUpper and $toLower using MongoDB aggregation queries.
11	Use comparison operators ($eq, $gt, $lte, $in) to filter documents in a MongoDB collection.
12	Develop an aggregation pipeline to perform filtering, grouping, sorting and summarization on a Product Catalog collection.

PERCENTAGE OF SYLLABUS REVISED : 100%

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: II
Course Code / Name: 26CMP2DA / Data Intelligence and Mining

Unit	Content
I	Data Intelligence and Data Mining: Data, Information and Knowledge – Introduction to Data Intelligence – Meaning and Importance of Data Intelligence – Introduction to Data Mining – Need and Importance of Data Mining – Applications of Data Intelligence and Data Mining – Data Mining vs. Data Intelligence- Data Mining Process – Types of Data – Sources of Business Data. Case Study on Data Intelligence and Business Data
II	Data Mining Functionalities and Architecture Functionalities - Prediction-Clustering-Outlier Analysis - Evaluation and Deviation Analysis – Classification of Datamining Systems - Data Mining –Primitives – Architectures of Data mining Systems. Case study on Clustering a Data
III	Data Warehousing and Preprocessing Data Warehousing: Need for Data Warehousing - Need for separate Warehouse - Difference between OTLP and Data warehouse - Benefits of Data warehouse -Limitation - Applications. Data Preprocessing: Need for Preprocessing - Data processing Techniques - Major Task in Data Preprocessing - Data Cleaning -Methods of Handling Missing Data - Data Integration. Case study on Data Preprocessing
IV	Data Interpretation, Visualization and Business Intelligence Data Interpretation – Qualitative and Quantitative Data – Data Collection Methods –Data Visualization – Charts and Graphs – Dashboards – Data Interpretation for Business Decision-Making – Importance of Business Intelligence. Case Study on Data Visualization and Business Intelligence
V	Web Mining Web Mining – Data Mining and the Web – Types of Web Mining – Web Content Mining – Web Structure Mining – Web Usage Mining – Web Data and Web Sources – Web Crawling and Web Scraping: Basic Concepts – Web User Behaviour Analysis – Web Page Analysis – Search Engine Data Mining – Social Media Data Mining – Applications of Web Mining in Business Case Study on Web Mining

	Social Awareness/ Environment		Constitutional Rights/ Human Values/ Ethics

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: VI
Course Code / Name: 24CMU6CA / PHP and MYSQL

Unit	Content
I	Introduction to PHP Creating Development Environment – Creating and Running First PHP – Mixing HTML and PHP – Printing Some Text – Printing Some HTML – More Echo Power – Command-line PHP - Adding Comments to PHP Code – Working with Variables – Storing Data in Variable – Interpolating String - Creating Variable Variables – Creating Constants – Internal Data types
II	Expressions and Control Flow in PHP Expressions: TRUE or FALSE – Literals and Variables. Operators: Operator precedence – Associativity – Relational Operators. Conditionals: The if Statement – The else Statement – The elseif Statement – The switch Statement – The ? Operator. Looping: while Loops – do…while Loops – for Loops – Breaking Out of a Loop – The continue Statement – Implicit and Explicit Casting – PHP Dynamic Linking – Dynamic Linking in Action. Case Study on Conditionals
III	Handling Webpages Creating an HTML Form – Handling an HTML Form – Validating Form Data – Arrays – Including Multiple Files -handling text fields – handling text areas – handling check boxes – handling radio buttons – handling list boxes – handling password controls – handling hidden controls – handling image maps – handling file uploads – handling buttons. Case Study on Creating a Webpages
IV	PHP Browser Handling Power Using PHP server variable - Using HTTP Headers - Getting Browser Type - Redirecting Browsers with HTTP Headers – Dumping a Form's Data All at Once – Handling Form Data with Custom Arrays – Performing data Validation – Checking the User Entered Data - Requiring Numbers – Requiring Text – Persisting User Data
V	Using PHP with MySQL Modifying the Template – Connecting to MySQL database – Executing Simple Queries – Retrieving Query Results – Ensuring Secure SQL – Counting Returned Records– Updating Records with PHP. Case Study on MySQL Database

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: VI
Course Code / Name: 24CMU6SP / Programming in PHP and MYSQL

S.No.	List of Programs
1	Write a PHP program to display student name, register number, course, department and contact details using variables, constants and data types.
2	Develop a PHP program to calculate purchase amount, discount, GST and net payable amount using arithmetic and relational operators.
3	Write a PHP program to calculate Basic Salary, HRA, DA, Gross Salary, PF and Net Salary.
4	Create PHP functions to calculate sales commission based on sales amount and display the salesperson's total sales and commission.
5	Create a PHP form to accept consumer name and units consumed. Calculate the electricity bill using appropriate slab rates and display the bill.
6	Create a PHP form to accept annual income and calculate tax based on predefined tax slabs.
7	Product Inventory Database Create a product table containing: • Product ID • Product Name • Category • Quantity • Price Display products and calculate inventory value.
8	Customer Database Create a customer table and perform: • Insert customer • Search customer • Update customer • Delete customer • Display all customers.
9	Create an array of employee names and demonstrate: • Adding an employee • Modifying an employee • Deleting an employee • Sorting employees • Searching for an employee
10	Write a PHP program to accept a customer's name and perform: • String length • Uppercase/lowercase conversion • String concatenation • Substring extraction

	String comparison
11	Sales Management System Create a PHP–MySQL application to store: • Product • Customer • Quantity • Unit price • Sales date Display the total sales amount for each transaction.
12	Employee Payroll System Develop a PHP–MySQL application to: • Enter employee details • Store salary information • Calculate gross and net salary • Store the results in MySQL • Display employee payroll details.

Syllabus - New course

Faculty: Commerce **Board: Commerce CA**
Semester: III
Course Code / Name: 26CMPSSA / Disaster Management

Unit	Content
I	Disaster Management & Economic Dimensions Definition of Hazard, Vulnerability, Risk, and Disaster; Classification of Disasters (Natural: Earthquakes, Floods, Droughts, Cyclones, Tsunami, Avalanches; Man-made: Industrial Accidents, Radiation/Gas Leaks, Toxic Waste, Oil Spills, Fires, Terrorism).
II	Disaster Impact Earthquakes (Seismic Zones, Intensity), Floods, Droughts, Landslides. Impact Assessment: Socio-Economic and Environmental Consequences; Loss Estimation Models, Structural Vs. Non-Structural Losses. Analysis of Major Indian Disasters Focusing on Economic Losses, Business Disruption And Recovery Costs.
III	Mitigation, Governance & Financial Mechanisms Disaster Management Cycle (Pre-Disaster, During, Post-Disaster Phases); National (NDMA, SDMA) and State Disaster Policies and Legal Provisions. Mitigation Techniques: Structural Retrofitting, Early Warning Systems, Zoning Laws. Financial Risk Transfer: Disaster Financing, Emergency Relief Funds, Catastrophe Bonds, Disaster Insurance, Micro-Insurance and Risk Pooling Strategies.
IV	Technology, Preparedness & Corporate Responsibility Technology in DM: Application of Geographic Information Systems (GIS) and Remote Sensing in Risk Mapping, Spatial Planning and Financial Damage Estimation. Preparedness & Training: Capacity Building, Awareness Generation Programs, Mock Drills and Community-Based Disaster Management. Corporate Governance: Corporate Social Responsibility (CSR) in Disaster Response, Workplace Safety Standards and ESG (Environmental, Social, Governance) Compliance.
V	Business Continuity Planning & Risk Assessment Risk Assessment: Conducting qualitative and quantitative disaster risk assessments for commercial establishments. Business Continuity Planning (BCP): Developing Emergency Response Plans, Asset Protection Strategies, Supply Chain Resilience and Operational Recovery Protocols.
