**Date:** 09/03/2018

**Time:** 10:00 Am

**Speaker of the Session:** Dr. S. Saravanan, HOD – Commerce.

One day workshop organized at the department of commerce on “Applications of Parametric Tests using SPSS and Excel”. The workshop was commenced with the welcome note. He threw light upon the need for Research Methodology Workshop and discussed about the importance of Research in today’s scenario. He laid emphasis on the quality of the research that needs to be done by the academicians and explains appropriate and suitable methodology to be adopted while doing the Research Program. The speaker introduced participants about the basic concepts used to handle SPSS software and briefed upon its utility along with a comparison with MS Excel’s Data. The main objective of the session was to help a research scholar in doing his research work with SPSS. He reiterated that the imperative of organizing such workshop lies in improving the overall quality of research works of the participants. This was followed by a brief feedback session from the participants of the workshop. All participants expressed their satisfaction about the workshop and overall coordination of the faculties of the department as well as the whole program.

#### OBJECTIVE OF THE WORKSHOP

- To expose the students towards the new trends of research.
- To understand basic theoretical and practical implementation of SPSS
- To train the participants on the use of statistical techniques in data analysis in the field of social sciences.
- To provide hands on training for the use of Excel and SPSS for analysis of different types of data.

- To assist students in understanding the various stages of research process.

## CONCLUSION

Students find Data Analysis or Statistical Analysis as an integral part of their contents for discussion/learning. This Workshop is intended to help the students in sharpening their Analytical Skills through SPSS (Statistical Package for the Social Sciences). The program is designed to cover all relevant aspects of Statistical Data Analysis starting from the very basics of Data Preparation, Data Cleaning to Advance Statistical Techniques including the theoretical aspects behind such techniques. This session was completely interactive and the program was ended with a lot of questions and answers.

### **Report on “Workshop on Scientific Writing”**

#### **Description of the event:**

The Department of Clinical Laboratory Technology, organized a state level workshop on scientific writing on 26.02.2018. The work shop focused on scientific writing in the area of diabetes , formulate research studies and Guidelines and ethical considerations in scientific research. Dr. P. R. Muthusamy, Principal, Dr. N. G. P Arts and Science College inaugurated the programme and addressed the gathering by stressing the importance of research and the need to disseminate scientific research. He called the attention of the audience to the prevailing inability of the Indian scientists to effectively communicate science themes to the general public. Dr. Krishnan Swaminathan, Consultant Diabetologist& Endocrinologist, KMCH Hospitals, Coimbatore delivered the first lecture of the day on “Effective ways of interpreting research findings”. His articulate session with examples from the study on incidence of diabetes due to pesticide exposure captured the interest of audience. He motivated the participants to take up basic science research as a career. Dr. P. R. Padma, Professor, Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam University, Coimbatore gave a talk on “How to draft proposals for project funding”. She elaborated on how to formulate research studies, the criteria for funding, the available funding agencies, etc. Her scientific temper enthused the participants to look for external funds for research.

Dr. G. Subhashini, Assistant Professor, Department of Community Medicine, PSG IMS & R, Coimbatore talked on “Guidelines and ethical considerations in scientific research”. During her session, she explained the ethical regulations governing human and animal research, significance of ethics in publishing research. Dr. R.Sakthivel, Professor, Department of Mathematics, Bharathiar University, Coimbatore inspired the participants to take up writing manuscripts and explained on the ways so that the rate of acceptance is high. The participants expressed satisfaction on the vital topic of the workshop. They expressed interest to attend more sessions on the same topic. The programme ended on such a positive note.

#### **Outcome of the Event:**

- Participant got experience on research report writing.
- Participant learnt the interpreting of research findings.
- Participant gained knowledge on how to draft proposals for project funding.

### About the College

Dr. N.G.P. Arts and Science College, a unit of the Koval Medical Center Research and Educational Trust (a non-profitable Voluntary Organization), was established in the year 1997. This institution is committed to provide quality education on par with the global standards. It is located on Kalapatti Road, near Coimbatore Civil Aerodrome in a sprawling, picturesque campus. The College offers 26 Undergraduate courses, 14 Postgraduate courses, M.Phil programmes in 12 disciplines, and Ph.D programmes in 10 disciplines, 5 PG Diploma courses, 7 diploma courses and 5 certificate courses. The College endeavors to offer quality education and enhance employability skills of students through appropriate syllabus, excellent teaching and apt industry exposure. The College has been accredited at the "A" Grade level by the NAAC (National Assessment and Accreditation Council) and has been conferred the Autonomous Status by the University Grants Commission and is affiliated to Bharathiar University. Dr. N. G. P Arts and Science College has been ranked 4<sup>th</sup> at the National Level among Colleges in National Institutional Ranking Framework by Ministry of Human Resource Development, Government of India.

### About the Department

The Department of Clinical Laboratory Technology was started in the year 2005. It offers unique three years Undergraduate Programme and Post Graduate Diploma in Clinical Lab Technology. The vision of the department is to provide high quality education to the students with hands on exposure in state-of-the-art laboratories. The Department caters to the quest for knowledge in clinical diagnostic technology with latest application tools. The Clinical Laboratory Technology programme prepares the students for technical positions in advanced laboratories and related industries. The Department aspires to educate and inspire

the young minds from basic level to the latest innovations in laboratory medicine and intends to develop academic, technical and professional knowledge among the students.

### About the seminar

As scientists, we strive to do high-quality research that will benefit our society. "Nothing in science has any value to society if it is not communicated" – Ann Roe. In science, writing is the most important means of communication. Peer reviewed journals provide a scientifically acclaimed platform to communicate research findings. However, publishing an article in a peer reviewed journal requires that the research is carried out with explicit objectives, appropriate study design, adherence to ethical protocols and correct interpretation of results. In short, a certain degree of expertise in scientific writing is needed to communicate research to the public, especially through peer reviewed scientific journals.

Apart from writing for peer reviewed journals, scientific writing also encompasses writing proposals for funding. Writing for funding is a highly competitive activity, where we need to stand out among hundreds of applicants. Receiving a grant requires strong fundamental understanding of how best to develop a research or study protocol and effective writing. This seminar aspires to equip life science graduates, faculty members and academicians to take up these two challenges of scientific writing and turn them in to success. The aim of the seminar, is to help young life scientists aspiring to start writing science in a coherent and logical manner and improve their chances of obtaining funding/and publishing research in peer reviewed journals. Resource persons of this seminar include leading academicians, scientists and reviewers of reputed journals. ### Resource person Profile:

- Prof Girija Jayaraman** worked from 2001-2004 as Head, Centre for Atmospheric Sciences, Indian Institute of Technology, Delhi, India. And from 1995 to present as Professor, Indian Institute of Technology, Delhi, India. (Joint appointment with Department of Mathematics (1995-1998)). She published 42 articles in high impact factor journals. She got funded projects from Department of Science & Technology, IIT Delhi, Council of scientific and Industrial Research, Department of ocean Development. She published book named Mathematical modelling, (Under graduate text book) Indira Gandhi Open University, 1998. (Author of one volume and editor of three volumes) and Mathematical modelling, (Post graduate text book) Indira Gandhi Open University, 2008. (Editor of two volumes). She delivered Bhatnagar memorial award lecture in the Indian Mathematical Society annual meeting, 2009, she is a Fellow of the National Academy of Sciences, India, 2002 and Sofia Kovalevskaija Guest Professor, University of Kaiserslautern, Germany (1999). She got M.G.Deshpande award for the best academic paper presented in the National conference for fluid mechanics and fluid power, Calcutta, 1997

The Department of Biochemistry at Dr.N.G.P. Arts and Science College- (Dr.NGPASC-Autonomous), Coimbatore conducted a two-day Science Academies Lecture Workshop on “Mathematical Biology” sponsored and supported by three leading academies across the country namely “Indian Academy of Sciences” Bengaluru, “Indian National Science Academy” New Delhi and “The National Academy of Sciences” Allahabad. Nearly 150 participants across the district participated in this programme, which was very unique in its own way as it had participants from Mathematics, Biochemistry, Biotechnology and other disciplines related to basic and life sciences.

The most awaited day after a dedicated team work was inaugurated by lighting kuthuvilakku by eminent personalities viz., Prof.Girija Jayaraman, convener of the lecture workshop and retired professor, Indian Institute of Technology (IIT), Delhi; Prof.Peeyush Chandra, retired professor, Indian Institute of Technology (IIT), Kanpur; Prof.P.Kandaswamy, retired professor, Department of Mathematics, Bharathiyar University, Coimbatore and Dr.P.R.Muthuswamy, Principal, Dr.NGPASC.

Dr.Thavamani D.Palaniswamy, Secretary, Dr.NGPASC, Coimbatore delivered the presidential address during which she emphasized the need for applications of mathematics in identification, control measures and eventually eradication of various emerging diseases. In his felicitation address, Dr.P.R.Muthuswamy, Principal of the college pointed out the influence of mathematics especially in genomic technologies, and highlighted that the mathematics should be integrated in large scale for the betterment of the society. The inaugural address was delivered by Prof.Girija Jayaraman, where she mentioned that the objective of science academies is to motivate students to pursue research, and also explained various student, scholar and teacher centric fellowship/training opportunities offered by science academies.

The technical session-1 started with a thought provoking lecture by Prof.Girija Jayaraman, on the topic “Mathematical and Computational challenges in modeling marine ecology” where she gave an overview on marine diversity. The session-2 was energetically started by Prof.P.Kandaswamy, on the topic “Mathematical Immunology”. The technical sessions went interestingly with discussions.

The technical session-3 was handled by Prof. Peeyush Chandra, on the topic “Population dynamics: single species model” where he discussed its importance. The most challenging and final technical session of the day one went blissfully, where Dr. M. Senthilkumar delivered a lecture on the interesting topic “Epidemic models over complex network” where he detailed how complex network of epidemics can be modeled and ascertained. The most awaited interaction session with the pool of resource persons went on interestingly by the interactions and deliberations made by the participants.

The second day was energetically started by Prof. Peeyush Chandra on the topic “Population dynamics: two species model” where he discussed its importance. Having introduced the concept, Prof. P. Kandaswamy continued to the sixth session and discussed on the “Mathematical modeling in human immunology”. He also motivated the young minds to pursue research by getting inspiration from role models.

The second day and session-7 was enthusiastically started by Dr. M. Senthilkumar on the topic “Epidemic models over multiplex social network”. During his technical sessions, he elaborated its applications. The last lecture of this two day event was given by the convener of lecture workshop, where Prof. Girija Jayaraman elaborated on “Modeling the physical and biological interactions in the north Indian ocean”.

The two day lecture workshop concluded with valedictory session to valedict the resource persons and participants who have patiently and enthusiastically participated in the continuous knowledge gaining and update sessions. The participants are going to take a lot more information gathered to their institutions and will share among their peers and faculty in their places and we are sure that this Science Academies Lecture Workshop on the topic “Mathematical Biology” really fulfilled its purpose.

**Dear Colleagues, Researchers and Students,**

With great pleasure and pride, we invite you for the Science Academies Lecture Workshop on "Mathematical Biology" scheduled for 07<sup>th</sup> & 08<sup>th</sup> December 2017. Prior registration is necessary, and we can offer accommodation for out station participants in the student hostel at nominal cost. The last date for request is 05.12.2017.

**Our Institution**

KMCRET Foundation has given many state of the art medical and educational institutions to Coimbatore in their Nation building endeavor. One of them, Dr.N.G.P. Arts and Science College started in 1997 provides quality education in arts and science subjects. It has state of the art research facilities to cater to the rural Indian students from this part of the country. The college augments human resources through many student centered training programmes. The college has necessary infrastructure and faculty re-accredited with "A" grade by NAAC in 2016, and is granted with 2f, 12B status by UGC, an autonomous status (since 2015).

**Department of Biochemistry**

The department of Biochemistry started in the year 1997 has so far offered 600 undergraduate (UG), 350 postgraduate (PG), 80 M.Phil and 20 Ph.D students. In the year 2014, the department was recognized by DST, FIST for the establishment of research facility. The Department has good academic record with distinguished university ranks, good number of publication and presentations at National/international journals/fora. The Department has received many minor/ major projects support to the tune of Rs. 2 crores from various local and funding agencies such as UGC, DST, ICMR and TNSCST.

**Department of Mathematics with Computer Applications**

The Mathematics department was established in the year 1997. The department has instituted UG programme in Mathematics with Computer Applications in 2003, followed by PG programme in Mathematics in 2006, and recently M.Phil course in 2011. Since inception, the department has produced distinguished university ranks. The department motto is to incite development oriented performance, and inculcate good research culture among students. The department has dedicated team of experienced faculty to enrich student's knowledge level. The department has received financial support from various funding agencies to organize conferences/seminars/workshops. The department organized workshops on mathematical modeling and Scilab to promote interdisciplinary research among students and staff.

**Science Academies**

Indian Academy of Sciences (IASc), Bangalore founded by Sir C.V.Raman in 1945, aims at promoting progress in pure and applied sciences. Its major activities include recognition of scientific talents, publication of scientific articles in their journals and special volumes, and overall improvement of scientific education in scientific atmosphere in the country. As part of their science education programmes, several Science Academies viz. Indian Academy of Sciences (IASc), Bangalore, Indian National Science Academy (INSA), New Delhi and the National Academy of Sciences (NASI), Allahabad organize workshops and training programmes for improvement of science education in Universities and colleges throughout the country.

The Biochemistry and Mathematics with CA departments at Dr.N.G.P. Arts and Science College, Coimbatore on behalf of these academies hosts two days lecture workshop on "Mathematical Biology" from 07<sup>th</sup> - 08<sup>th</sup> December 2017. This lecture workshop is meant to inspire the younger generations of teachers and students to undertake research in modern and frontier areas of Mathematical and Biological sciences.

**About the Lecture Workshop**

Mathematical Biology is an interdisciplinary research field where mathematical tools are employed to study biological systems. This biomathematics discipline provides a mathematical representation, treatment a model to better understand biological process. It bridges research areas in mathematics and biology. Therefore, it has both theoretical and practical applications in biological, biomedical and biotechnological research. Due to the wide diversity of specific knowledge involved, bio-mathematical research is often done in collaboration between mathematicians and biologists. The development of new core mathematics discipline that is inspired by biology has been increasing rapidly. More and more mathematicians, acquainted with biological problems. The aim of this workshop is to portray current state of the art mathematical modeling of biological phenomena. Considering subject's breadth and depth, the lecture workshop focuses on several important topics.

**Participants/Target Audience**

Faculty, UG and PG students, and Research scholars from Mathematical and Life Sciences are eligible to attend.

**Number of Participants**

As the number of participants is limited to 150, selections are purely on First-come-First-Served basis.

**Registration and further details**

There is no registration fee to attend this lecture workshop. Tea and lunch will be provided to the participants. Those who wish to participate in the lecture workshop should send the filled registration form or before 05<sup>th</sup> December 2017.

Intimation of the acceptance will be communicated through e-mail.  
No TA/DA will be paid to participants.

Sub: Lecture Workshop on "Mathematical Biology" at Dr N.G.P. Arts and Science College, Coimbatore during 07-08 December 2017.

Dear Dr Balasubramanian,

This has reference to the letter forwarding a proposal and budget for organizing a two-day Lecture Workshop at Dr N.G.P. Arts and Science College, Coimbatore. The Joint Science Education Panel of the three Academies will be happy to sponsor and support the Lecture Workshop. We note that Prof. Girija Jayaraman (Former Professor, IIT Delhi) will be the convener and you will be the Coordinator.

(a) Your budget of Rs.1,36,750/- for 150 participants has been approved by the Science Education Panel. As per the guidelines, the ideal number of participants in a Lecture Workshop should be between 100 and 125 and in any case should not exceed 150, to maximize interaction between participants and resource persons. Please note that we have to adhere to our guidelines and the approved amount is strictly following the budget heads in the guideline.

(b) Please note that only the names of Convener and Coordinator of the Workshop should be included in brochure/invitation etc. Names of members of the management, organizing committees, patrons etc should be strictly avoided.

(c) Please ensure that the expenditure on individual items does not exceed the sanctioned BUDGET HEAD. If the actual expenditure exceeds the sanctioned budget, THE HOST INSTITUTION SHOULD TAKE CARE OF THE DIFFERENCE.

(d) Lecture Workshops are sponsored and supported by the three National Science Academies – IASc, INSA and NASI. The names of INDIAN ACADEMY OF SCIENCES (BENGALURU), INDIAN NATIONAL SCIENCE ACADEMY (NEW DELHI) and THE NATIONAL ACADEMY OF SCIENCES, INDIA (ALLAHABAD) should therefore be mentioned in all publicity material such as programme sheet, invitation cards, etc.

(e) It may be noted that no formal certificates should be issued to participants. A letter of attendance signed by Coordinator may be issued to those who need it.

(f) The Workshop should be called Science Academies' Lecture Workshop on "Mathematical Biology".

(g) You should send us three copies of the printed programme cards once it is printed.

(h) We can advance money by electronic transfer on a specific request from you.

## Workshop on “Computational Methods for Fluid Dynamics”

### Preamble:

The objective of CFD is to model the continuous fluids with Partial Differential Equations (PDEs) and discretize PDEs into an algebra problem (Taylor series), solve it, validate it and achieve simulation-based design. Dr. M. Sankar School of Engineering, Presidency University, Bengaluru. Dr. E. Natarajan Indian Institute of Space Science and Technology, Thiruvananthapuram and Dr. B. Rushi Kumar School of Advanced Studies, VIT University, Vellore were acted as resource persons.

### Research Areas

Dr. M. Sankar is Professor of Mathematics and Deputy Dean – Ph.D. Program of Presidency University. He has 18 years of teaching and research experience. His research area is Heat and Mass Transfer, Nanofluids and CFD. He has published 40 research papers in leading International Journals and 3 book chapters in Springer Book Series and has 371 Citations (<https://scholar.google.co.in/citations?hl=en&user=Au9g4EcAAAAJ>). Dr. Sankar has also received Post-Doctoral Fellowship from the World Class University (WCU) project of Kyungpook National University (KNU), Daegu, South Korea for a period of Two Years. He has guided 06 PhD students and 06 MPhil students. He has delivered 30 Invited talks in National and International Conferences in India and Abroad. Also, he has visited Arizona State University, USA, University of Malaya, KL, Malaysia, UNIST, Ulsan, South Korea and KNU, Daegu, South Korea in connection with research collaborations. Dr. Sankar is Referee to 25 Journals from Elsevier, Springer, Taylor and Francis, Nature and Hindawi Publishers. Recently, he has received a Research Grant of 20 Lakhs from Vision Group of Science and Technology, Government of Karnataka.

### Description about the program:

Computational Methods for Fluid Dynamics (CMFD) is the area of engineering that deals with the numerical simulation and analysis of fluid flows encountered by an engineer (mechanical, automobile, aeronautical, civil, environmental and so on) frequently. The aim of this workshop will give the analytical and numerical techniques for solving Fluid Dynamics problem for Researchers and young Faculties. The expert in CFMD will give the brief introduction about the mentioned topic and provide the hands on training.

### Topics Covered

- Introduction to Fluid Dynamics
- Introduction to heat transfer
- Introduction to Boundary layer
- Finite Difference Method
- Finite Element Method
- Homotopy Analysis Method

### Outcome of the Event:

The outcomes of the workshop are as following:

- Participants got familiar for solving boundary layer problems using. Finite element and finite difference method.
- Basic concept of boundary layer theory
- The procedure for homotopy analysis method

Dear Sir/Madam

We take great pleasure in informing you that the Department of Mathematics, Dr. N. G. P. Arts and Science College, Coimbatore is organizing a Three-Day National Workshop on "Computational Methods for Fluid Dynamics" during 23<sup>rd</sup> to 25<sup>th</sup> November 2017. We cordially invite the members of the Faculty, Research Scholars and Students of your esteemed institution to participate in this Workshop.

## ABOUT THE COLLEGE

Dr. N. G. P. Arts and Science College is an institution of Kovai Medical Center Research and Educational Trust (KMCRET). It was established in 1997 and governed by Dr. Nalla G. Palaniswami, Chairman and Dr. Thavamani D. Palaniswami, Secretary. Our objective is to provide proper education, training and research facilities to the students of our nation. The institution has grown in all its splendor and grace with the great enthusiasm and support of the Management.

## ABOUT THE DEPARTMENT

The Department of Mathematics was established in the year 1997. The Under Graduate programme was instituted in 2003, the Post Graduate programme was instituted in 2006 and was later upgraded for M.Phil course in the year 2011. The department has produced some distinguished university ranks. The department inculcates good research culture and motivates the students for product development in order to meet out the expectations of the current scenario with their best performance. We have a dedicated team of experienced faculty to enrich the knowledge capacity of the students.

## ABOUT THE WORKSHOP

Computational Methods for Fluid Dynamics (CMFD) is the area of engineering that deals with the numerical simulation and analysis of fluid flows encountered by an engineer (mechanical, automobile, aeronautical, civil, environmental and so on) frequently. The aim of this workshop will give the analytical and numerical techniques for solving Fluid Dynamics problem for Researchers and young Faculties. ## REGISTRATION FEE: Rs 700 /-

The Registration Fee covers the workshop kit, refreshment and lunch during the workshop days only. The number of participants is limited to 50. Those who are interested can register their details in the prescribed format on or before 02/11/2017. The selected participants are intimated through E.Mail. The selected participants must pay the prescribed fees within 10 days from the intimation of their selection.

## LOCATION:

The institution is located in Kalapatti road near Coimbatore Civil Aerodrome, about 2.5 km from SITRA, falling at Dr. N.G.P Nagar.

## ACCOMMODATION:

Paid accommodation will be arranged to all the registered outstation participants on the first come first serve basis (on request). For details contact the Convener.

SUBJECT: National Workshop on Computational Methods for Fluid Dynamics during Nov 23-25, 2017 at Dr N G P Arts & Science College, Coimbatore

Dear

With reference to your application on the above subject, we are happy to inform you that Director General, CSIR has been pleased to **sanction** a grant of Rs.15000/- (Rupees Fifteen Thousand Only) subject to the following conditions:

1. The grant received from CSIR should be duly acknowledged by email along with a certificate that the grant would be specifically utilized for the purpose for which it has been **sanctioned**.
2. The grant may be reimbursed within three months from the date of Conference / Seminar/ Workshop etc is over by filling-in the Grant-in-Aid Bill Form in duplicate duly signed and rubber-stamped by the concerned officials, indicating clearly the designation of the official along with Audited Statement of expenditure for release of grant (Current Proforma for Grant-in-aid bill and Audited Statement of expenditure are available on our website URL <http://itsirfdrdp.res.in/sy/htm> ). If any Utilization Certificates of Previous Grant for symposia (as per Col.No. 18 of the Application Performa ) not submitted till date, please attach copies of Utilization Certificates also. All the pages of above documents should be self attested by the organizer.
3. Invitation cards should be sent to the Director General, CSIR and Head, HRDG. CSIR may nominate three scientists for the above event and registration fee should not be charged from them. In case of nomination, the Head, HRDG or the undersigned would issue a **letter** with a copy to the nominee(s).
4. Softcopy (preferably in CD/ DVD in PDF format) of the full paper proceedings of above event should be sent to the undersigned.
5. An overall activity report by the Convener / Organizing Secretary should be made available by email to us with regard to outcome of the gathering, the recommendations and plan of action for future. The names, addresses & email IDs of the participants / delegates should also be sent immediately after the event by email.

Yours sincerely,

### **Report on “Workshop on Applications of PCR In Disease Diagnosis”**

#### **Description of the event:**

The PCR Techniques is very important to the diagnosis different type of disease. Hands on training on Polymerase Chain reaction and demonstration on RT -PCR was given as a part of the workshop was given by Dr. E. Nithya.

- Dr. E. Nithya, trained the students on how to use the PCR in disease diagnosis.
- Students learned the primers are complimentary to the sequences flanking the unique region
- The understanding of pathogenesis and identify infectious causes were discussed.
- Issues related to operation of PCR were also discussed.
- Student's doubts on PCR and its application was elucidated by the resource person

#### **Outcome of the Event:**

- Students got experience on how to use the PCR in disease diagnosis.
- Participant learnt the primers are complimentary to the sequences.
- Understanding of pathogenesis and identify infectious causes were learned by the students.

### Report on “Recent trends in Computer Technology”

**Nature of the Event:** Seminar

**Title of the Event:** Recent trends in Computer Technology

#### Category:

Research Methodology	Intellectual Property Rights	Skill development	Entrepreneur development
✓			

**Date of the event:** 16-09-2017

#### Name and Designation (with institution address) of Resource Person:

Dr.K.Khumaravel, Head-Dept. of Computer Science of our college served as a Resource Person. Updating ourselves in the field of computing technology is very essential in this digitalized world. In this regard we organized a Guest Lecture on Recent trends in Computer Technology on 16-9-2017.

#### Participant's Profile:

A total of 170 Students from UG (B.Sc. Physics) were participated in the Seminar.

#### Description about the program:

- Students tend to rely mostly on Social Networking sites like Facebook, Instagram and Twitter, where it is more prone to malevolence; this guest lecture intended to give complete knowledge for the students in its unreliability.
- Due to minimal storage systems in Mail, people tend to depend largely on cloud storage for data keeping, the Guest Lecture helped students to get some clarity on information wars.

### Report on “Science Academies Lecture Workshop on DNA Technologies in Revisiting Biology”

**Name of the Event:** Science Academies Lecture Workshop

**Title:** Science Academies Lecture Workshop on DNA Technologies in Revisiting Biology

**Date:** 27.07.2017 to 29.07.2017

**Category:**

Research Methodology	Intellectual Property Rights	Skill development	Entrepreneur development

#### Preamble:

DNA technology has revolutionized modern science. As technological advances lead to a better understanding of DNA, new DNA-based technologies will emerge. Recent advances in DNA technology including cloning, PCR, recombinant DNA technology, DNA fingerprinting, gene therapy, DNA microarray technology, and DNA profiling have already begun to shape medicine, forensic sciences, environmental sciences, and national security. DNA technology is a relatively new area of research with enormous controversy. It will likely continue to be a large part of public debate and have an impact on every aspect of medical diagnostics, therapeutics, forensics, and genetic profiling.

#### Participant's Profile:

A total of 150 Students from both UG and PG students from life science departments were participated in the lecture workshop.

### Resource person Profile:

- **Prof. Ramasamy Pitchappan**, a Fellow of the National Academy of Medical Sciences and a Fellow of the Indian Academy of Sciences is a pioneer in Immunology of Infectious diseases, Transplantation Immunology and Human Genomics in India. He served as the Co-ordinator, School of Biological sciences (2005-6) and Professor of Immunology (1986-2006) at Madurai Kamaraj University. During this period, he also served as Director, Educational Media research centre, and organized many Science Exhibitions in collaboration with All India Radio and Science Congress. He undertook many International Collaborations with The European commission, The Wellcome Trust – University of Oxford, ISERM - France, all studying Mycobacterioses. Post-retirement from MKU in 2006-13 he undertook a global “The Genographic project” funded by National Geographic, IBM and Ted Wait Family foundation, USA, tracing the migration of man through the globe. This centre was one of the twelve centres around the world and only one from India dedicated for this study. Pitchappan also served as the Director - Research at Chettinad Academy of Research and Education, Chennai, from 2010 to 2016 Feb: Here he established a state of the art research facilities for Human Genomics, Microbial Genomics, Nano and Biotechnology - thus interfacing bio-medical research evaluating disease risks and environmental pollution monitoring. Pitchappan has synthesized the available evidences and proposed 'Lotus & Cactus' Model a, invoking immunogenome in infectious disease susceptibility in tribal populations of India, and Indian Council of Medical Research has empanelled him as Adjunct Professor, attached with RMRC-ICMR, Port Blair, Andaman Nicobar Islands, India. Of late he has been invited by Govt Tamil Nadu, Dept Archaeology to be the advisor to their aDNA programme. And he has been appointed as the Honorary Visiting Professor, by his alma mater, Madurai Kamaraj university to coordinate the aDNA lab and its programme with Govt. Tamil Nadu.
- **DR.P.R.Padma**, is a Professor Department of Biochemistry, Biotechnology and Bioinformatics in Avinashilingam University for Women Coimbatore. She completed Ph.D. in Biochemistry and served as a Junior Research Fellowship (CSIR-JRF) at the Cancer Research Institute (CRI), Tata Memorial Centre, Mumbai – 1988 – Thesis Highly commended – under the guidance of (Late) Dr.S.V.Bhide, Head, Carcinogenesis Division, CRI, Mumbai. Her thesis title: “Mutagenicity and Carcinogenicity of N’-nitrosomornicotine (NNN) and 4-(methylnitros-amino)-1-(3-pyridyl)-1-butanone (NNK) and their mechanism of action”. She published more than 85 research articles in reputed national and international journals. She was Elected Secretary of the South Zone of the Indian Association of Biomedical Scientists in 2013. Her thrust area of research are Antioxidants and

- Dr. R. Sathishkumar joined the Department of Biotechnology, Bharathiar University in the year 2005 as Assistant Professor. His expertise includes Plant Molecular Biology and Genetic Engineering. He completed his B.Sc., M.Sc., and M.Phil. in Botany from Loyola College, Madras Christian College and Pondicherry University respectively. Dr. Sathish holds a Ph.D from Department of Plant Sciences, School of Biological Sciences, Madurai Kamaraj University, Madurai. During his Ph.D, he was awarded DAAD short-term fellowship to work at Max Planck Institute for Molecular Plant Physiology, Golm, Germany. Later, he joined as a Post-Doctoral Researcher in Department of Botany, University of Hong Kong, Hong Kong, where he worked on Plant Molecular Biology and Genetic Engineering for 6 years and 3 months. At Bharathiar University he has established the full-fledged “Plant Genetic Engineering Laboratory”. In 2007, Dr. Sathish was awarded research fellowship by UK-India Education and Research Initiative (UKIERI) to work with World-renowned scientist Prof. Julian Ma, as Academic Visitor at St. George’s University of London, UK in the area of Plant Molecular Pharming. He has a US patent and published several publications in reputed journals and book chapters. He is serving as an Editorial board member and Reviewer in many of the leading Journals. Dr. Sathish is a recipient of various awards like DST-JRF, CSIR-SRF, RA, DAAD and UKIERI fellowships. He was an invited speaker at the 3<sup>rd</sup> and 5<sup>th</sup> International Conference on Barcode of Life held at Mexico and China respectively. The lab is supported by both National and International funding agencies like, TNSCST, DST, DBT, UGC, DRDO, ICMR and UKIERI to a tune of 1.5 Crore. Till date, lab has produced 5 Ph.Ds and 14 M.Phil’s and currently he is guiding 8 Ph.D and 3 M.Phil Scholars. He has International collaborations with various leading Institutions- St. George’s, University of London, London, UK, University of Evora, Portugal and University of Guelph, Canada. This has paved way for many student exchanges to these institutes. Recently, Himalaya Drug Company in Bengaluru has signed a MoU with his lab to DNA Barcode the medicinal plants.
- Dr. K. Veluthambi is currently a UGC-BSR Faculty Fellow, Dept. of Plant Biotechnology, School of Biotechnology, Madurai Kamaraj University, Madurai, India. He completed his Ph.D. in 1981 at the Indian Institute of Science, Bangalore under the guidance of Professor R. Maheshwari. He worked as a Postdoctoral Fellow in the United States during 1981-1988. During this period, he carried out research in the National Institutes of Health (Bethesda), Washington State University (Pullman) and Purdue University (West Lafayette). Dr.

Veluthambi is an Elected Fellow of the Indian Academy of Sciences (Bangalore), Indian National Science Academy (New Delhi), National Academy of Sciences – India (Allahabad) and an Elected Member of Guha Research Conference. He has so far guided 18 Ph.D. students and published papers in reputed journals such as Science, PNAS, Nature Biotechnology, Plant Physiology, Plant Molecular Biology, Journal of Bacteriology, Journal of Virology and Molecular Plant Microbe Interactions.

- Prof Paturu Kondaiah, Ph.D (Genetics), is the Professor & Chairperson, Department of Molecular Reproduction, Development and Genetics, Indian Institute of Science, Bangalore. He was the Research Fellow, Institute of Genetics, Osmania University, Hyderabad, India Visiting Fellow/Visiting Associate, Laboratory of Chemoprevention, National Cancer Institute, NIH, Bethesda MD, USA. Is the Faculty (currently Professor), Department of Molecular Reproduction, Development and Genetics, Indian Institute of Science, Bangalore, India. He is the Chairperson, Dept. of MRDG, IISc, Bangalore. Member, Review Committee on Genetic Manipulation, Department of Biotechnology, (GOI) India. Member, Committee to evaluate COE proposals in cancer biology, DST. he was the Member, Board of Studies in life sciences, University of Hyderabad. Is the Member, DST-PAC for Fast track Young Scientist's proposals. He is the Chairman, Review Committee on Genetic Manipulation, Department of Biotechnology, (GOI) India. He is immensely interested in cancer biology and Molecular principles of Dosha prakriti. He has over 100 peer reviewed research publications. Currently, his laboratory is focused on the regulation of gene expression particularly by growth factors and hormones in disease processes. Using micro arrays, the differential regulation of genes by TGF-beta in normal and tumor cells has been demonstrated and mechanism of regulation of some of the TGF-beta targets such as S100A2 has been deduced. S100A2 gene is involved in tumorigenesis and experiments conducted in his laboratory revealed its pro tumorigenic role especially for invasion and growth of the tumors. TGF-beta regulates several pro tumorigenic genes in transformed cells and not in normal cells. This differential expression of genes may require oncogenic transformation and MAPK pathway activation. It is not clear as to which pathway triggered by oncogenic transformation is responsible for pro tumorigenic actions of TGF-beta. TGF-beta and its family members Activins are involved in the tumor invasion/metastasis. The precise mechanisms are being studied in his laboratory.

### Description about the program:

The Department of Biochemistry, Dr. N.G.P. Arts and Science College (Autonomous), Coimbatore conducted a two-day Science academies Lecture Workshop on “DNA Technologies in Revisiting Biology” sponsored and supported by three leading academies across the country namely Indian Academy of Sciences Bangalore, Indian National Science Academy New Delhi, The National Academy of Science Allahabad.

#### Organized By

The Department of Biochemistry at Dr.N.G.P. Arts and Science College- (Dr.NGPASC-Autonomous), Coimbatore conducted a three day Science Academies Lecture Workshop on “DNA Technologies in Revisiting Biology” sponsored and supported by three leading academies across the country namely “Indian Academy of Sciences” Bengaluru, “Indian National Science Academy” New Delhi and “The National Academy of Sciences” Allahabad. Nearly 150 participants across the district participated in this programme, which was very unique in its own way as it had participants from Biochemistry, Biotechnology, Microbiology, Botany, Human Genetics and other disciplines related to life sciences.

The most awaited day after a dedicated team work was inaugurated by lighting kuthuvilakku by eminent personalities viz., Prof.R.M.Pitchappan, convener of the lecture workshop and Director of Research at Chettinad Academy of Research and Education; Prof.Paturu Kondaiah, Chairman, Molecular Reproduction Development and Genetics (MRDG), Indian Institute of Science (IISc) and Dr.P.R.Muthuswamy, Principal, Dr.NGPASC.

Dr.Thavamani D.Palaniswamy, Secretary, Dr.NGPASC, Coimbatore delivered the presidential address during which she emphasized the need for inventions in science for eradication of various emerging diseases. In his felicitation address, Dr.P.R.Muthuswamy, Principal of the college pointed out the influence of science especially genomic technologies in all fields, and highlighted that the science and technology should be integrated in large scale for the betterment of the society. The inaugural address was delivered by Prof. R.M.Pitchappan, where he mentioned that the objective of science academies is to motivate students to pursue research, and also explained various student, scholar and teacher centric fellowship/training opportunities offered by science academies.

The technical session-1 started with a thought provoking lecture by Prof.R.M.Pitchappan, on the topic “DNA technology, a powerful tool to study Biology” where he gave an overview on various applications of molecular biology techniques starting from the study of human population mapping, migration to microbial diversity. The session-2 was energetically started by Prof.Paturu Kondaiah, on the topic “Brain Tumor Genomics”. The technical sessions went interestingly with discussions on the role of cancer genes (oncogenes) in the tumor genesis and progression.

The technical session-3 was handled by Prof.P.R.Padma, on the topic “Gene transfer techniques” where she discussed various techniques employed to transfer genetic materials different size starting from simple electroporation to gene gun. The technical session-4 was chaired by Prof.Paturu Kondaiah on the interesting topic “Genomics of Oral sub-mucous fibrosis” where he detailed how genetics is a predisposing factor in the genesis of a premalignant condition in the oral cavity. The most challenging and final technical session of the day one went blissfully by Prof.P.R.Padma on the topic “Applications of Transgenics”, where she touched upon the generation, purpose, utilization and implications of transgenics. The most awaited interaction session with the pool of resource persons went on interestingly by the interactions and deliberations made by the participants.

The second day was energetically started with hands on training session of DNA technologies where participants were in real time wet their hands in DNA extraction, purification, setting up of PCR and finally electrophoresed the amplicons. “General introduction to DNA bar-coding” was the main theme of Dr.R.Sathishkumar and during his technical session he gave an elaborate insight in to the DNA bar-coding. Having introduced the concept, Dr.R.Sathishkumar continued to the last session of the day and discussed on the applications of DNA bar-coding in authentication of commercial herbal products. He also motivated the young minds to pursue research by getting inspiration from role models.

The third day and session-8 was enthusiastically started by Prof.K.Veluthambi on the topic “New lessons on RNA silencing in plants”. During his technical sessions, he elaborated on gene targeting, challenges in traditional gene targeting techniques, positive and negative selection based gene targeting strategy. The 9<sup>th</sup> session of the lecture series gave the attendants an in-depth insight on the next generation sequencing technologies (NGS) by Dr.G.Arunkumar. After a lunch break, Prof.K.Veluthambi gave a prospective insight in to gene editing technologies that is being implemented various model platforms. The eleventh lecture of the series was handled by Dr.G.Arunkumar where he broadened the scope and applications of NGS in many contexts especially in mapping human migration that happened thousands of years ago. The last lecture of this three day session was given by the convener of lecture workshop, where Prof.R.M.Pitchappan elaborated on Tuberculosis susceptibility screening using whole genome, functional genome and PEPSCAN approaches.

The three day lecture workshop concluded with valedictory session to valedict the resource persons and participants who have patiently and enthusiastically participated in the continuous knowledge gaining and update sessions. The participants are going to take a lot more information gathered to their institutions and will share among their peers and faculty in their places and we are sure that this Science Academies Lecture Workshop on the topic “DNA Technologies in Revisiting Biology” really fulfilled its purpose.

Respected Chairman,

Sub: Submission of application for approval to conduct Lecture Workshop-Reg.

Greetings. On behalf of our department, I would like to co-ordinate the organization of science academies sponsored lecture workshop on "DNA Technologies in Revisiting Biology" from 27<sup>th</sup>-29<sup>th</sup> July 2017 at our Institution. Prof.RM.Pitchappan has consented to convene the proposed event and guide us in the successful completion. In this regard, I am submitting the completed application to your esteemed office. Please kindly do the needful.

Thanking You,

Yours faithfully,

Sub: Lecture Workshop in "DNA Technologies in Revisiting Biology" at Dr NGP Arts and Science College, Coimbatore during 27-29 July 2017.

Dear Dr Balasubramanian,

This has reference to the letter forwarding a proposal and/budget for organizing a three-day Lecture Workshop at Dr NGP Arts and Science College, Coimbatore. The Joint Science Education Panel of the three Academies will be happy to sponsor and support the Lecture Workshop. We note that Prof. R.M. Pitchappan (Chettinad Academy of Research & Education, Kelampakkam) will be the Workshop Convener and that you will be the Workshop Co-ordinator.

(a) Your budget of Rs.173000/- for 150 participants has been approved by the Science Education Panel.

(b) Please note that only the names of Convener and Coordinator of the Workshop should be included in brochure/invitation etc. Names of members of the management, organizing committees, patrons etc should be strictly avoided.

(c) Please ensure that the expenditure on individual items does not exceed the sanctioned BUDGET HEAD. If the actual expenditure exceeds the sanctioned budget, THE HOST INSTITUTION SHOULD TAKE CARE OF THE DIFFERENCE.

(d) Lecture Workshops are sponsored and supported by the three National Science Academies – IASc, INSA and NASI. The names of INDIAN ACADEMY OF SCIENCES (BENGALURU), INDIAN NATIONAL SCIENCE ACADEMY (NEW DELHI) and THE NATIONAL ACADEMY OF SCIENCES, INDIA (ALLAHABAD) should therefore be mentioned in all publicity material such as programme sheet, invitation cards, etc.

(e) It may be noted that no formal certificates should be issued to participants. A letter of attendance signed by Coordinator may be issued to those who need it.

(f) The Workshop should be called Science Academies' Lecture Workshop in "DNA Technologies in Revisiting Biology".

(g) You should send us three copies of the printed programme cards once it is printed.

(h) We can advance money by electronic transfer on a specific request

## Report on Seminar on “Recent Tools in Web Designing”

### Preamble:

This report displays the “Recent Tools in Web Designing “involves many specific domains and skills, The processes involved in designing a website are getting easier by the years, with the development of better software and tools to help the designer. Technological advancement has played a vital role with many companies now looking for ways to provide their customers with software solutions. Therefore, there is a need for these companies to have well-designed websites optimized for their customers.

### Description about the program:

- Introduction about Web development tools such as Npm, Type Script, Code kit, Web storm, HTML Boilerplate, Angular JS. The old vs new way of building websites.
- Recent Tools in Web Designing is one of the hottest professions Gone are the days when web designers have to struggle with writing long lines of code, almost like a writer trying to give their best dissertation writing service just because they are trying to create a website. That has changed now. Today, with the numerous web design tools available, you can more easily actualise your exciting and unique design ideas without stress. With tools giving you the right foundation to communicate the ideas you have, making your work easier.
- Mr. S. Sathis Kumar Founder, Yellow Tree Academy, gave an Overview on Recent Tools in Web Designing He describes about the following five valuable properties:
- **The main Objective or Designing Web Site is** providing quality content on your website, regularly adding new information, establishing trust, marketing your site on other websites and social media.
- Gone are the days when web designers have to struggle with writing long lines of code, almost like a writer trying to give their best dissertation writing service just because they are trying to create a website.
- He explained that today, with the numerous web design tools available, you can more easily actualize your exciting and unique design ideas without stress.
- With tools giving you the right foundation to communicate the ideas you have, making your work easier.
- Although there are a lot of design options available for web designers, He explained the best web design tools

An Institution of Koval Medical Center Research & Educational Trust

About the Institution  
Dr. N.G.P. Arts and Science College, an Institution of Koval Medical Center Research and Educational Trust (KMCRET) It was established in 1997 and is governed by Dr. Nalla G. Palaniswami, Chairman and Dr. Thavamani D. Palaniswami, Secretary. The institution is committed to build a congenial atmosphere in which co-existence is essential to create an intellectual academic community. The college also provides quality education in par with the global standards by continually improving the infrastructure facilities, educational practices and performances of faculties and students. The college has been recognized by the Government of Tamil Nadu, Affiliated to Bharathiar University, Coimbatore and is Re-accredited with 'A' grade by National Assessment and Accreditation Council (NAAC) in the year 2016. The college has been recognised under 2(f) & 12B of UGC Act. University Grants Commission, New Delhi has conferred Autonomous status for the college, from the academic year 2015-16. The college provides free education to meritorious students in sports, academics, poor and down-trodden.

About the Department  
The Post Graduate and Research Department of Corporate Secretaryship was established in 1999 with the objective of preparing the students in enhancing professional skills to suit the expectation of Corporate Sectors. The Department offers Under Graduate, Post Graduate and Research Programmes. The courses provide exposure in the areas of Corporate Governance, Capital Market Regulations, Mutual Funds, Institution-Industry Interaction, CEO Meets, Mock Meetings, Industrial Visit, Off-Campus Training etc., to bridge the gap between theory and practice.

Theme of the Seminar  
"Remonetisation", means "restoring to the status of legal tender". Demonetisation is followed by remonetisation to replace the old discontinued currency with new currency in the economy. The country went through a massive economic overhaul called demonetisation. While the citizens braved and co-operated with the government's bold move, now is the time to put things back together again. What people are witnessing today is a new economy and they are its soldiers. The drastic digitalization over the past few years has indeed affected almost every sphere of people's lives. One of the most recent effects has been the move towards a cashless economy in India. Starting with the "Note Ban" from November 2016, due to a sudden withdrawal of the currencies of Rs.500 and Rs.1000 denominations from the economy overnight, the Indian economy becomes cashless. In other words, least paper transactions will be involved, substituted by more digital transactions with the help of internet banking, digital wallets, Point-of-Sale machines, credit and debit cards, etc. A cashless economy will allow less tension of tacking a wallet full of notes along with people, which is not at all safe in the world full of anti-socials. People can rather use mobile as a one-stop solution for all kinds of transactions such as bill payments, fees payments, funds transfer, recharge, etc.

- It will ensure a 'black-money free India' rather the so-called 'parallel economy' where people bypass the banks to gather money in their closets at home without coming under the purview of tax will suffer a setback.
- Crime rates have already started diminishing due to cash ban as most of the terrorist activities are funded with black money that has bore the brunt of this. In addition to this, other crimes such as burglary, extortion, bank robbery, etc. are also declining.
- One of the biggest advantages is the increase in the span of the income tax. Due to least involvement of cash, transactions have to be done through banks where proper KYC verifications will be done prior to banking transactions. Hence, it will be easier for the Government to monitor and mend the income tax evasion by the unscrupulous persons. This will, in turn, enhance the revenue received by the Government.

Above all, the cashless economy will lead to the most convenient and secure economy for all.

**Daily for papers**

- Demonetisation: Secretary, Chief, Regulator, etc.
- Financial institutions: how to handle demonetisation
- Regulatory bodies: Government
- Challenges & opportunities of demonetisation
- Impact of demonetisation on economy
- Financial inclusion: challenges and opportunities

### Report on “Smart Phone Servicing and Maintenance”

#### Description of the Event:

Department of Physics in coordination with Entrepreneurship Development Cell of Dr. N.G.P. Arts and Science College along with New Technology Mobile Service and Training Institute organized a two-day entrepreneurial skill development program on Smart phone servicing and maintenance on 19.07.2017 and 20.07.2017. The students have taken this as golden chance to explore the world of mechanics. The members from the workshop have also issued the tool kit to students. The workshop was held for two days. The tutors from the camp have taught many simple, easy, affordable techniques not only on smartphone but even on handsets.

#### Outcome of the Event:

- Students came to understand the working of smart phones.
- Students came to know, how to maintain and service smart phones.
- They can use this skill as a mode of their earning in future.

Respected Madam,

**Sub: Smartphone servicing course- requesting permission-Reg**

The Department of Physics of Dr.NGP Arts and Science College in collaboration with New Technology, Coimbatore is planning to conduct a Smartphone servicing course for two days in our campus dated on 18-7-2017 & 19-7-2017. The course would cover basics of mobile communication and electronics, hardware and software components, troubleshooting through schematic diagrams etc. This would give a hands-on training experience for the students. The course would cost Rs.400/- (including an individual tool kit and a certificate). Fifty seven students of I BSc Physics have shown interest in participating in the course. I kindly request your good self to give permission for the course.

Thanking You.

Yours Sincerely,  
  
(Dr.M.Ramya)

### Report:

#### Report

Department of Biotechnology of Dr. NGP Arts and Science College, Coimbatore conducted a one-day National Conference on "Bioprospecting – Indian Perspectives, Challenges and Opportunities" on December 28, 2017. The conference was sponsored by Koval Medical Center and Hospital, Coimbatore. This is the 10<sup>th</sup> subsequent conference conducted by the department in the current trends of biological field.

The session began with a welcome address by the Joint Secretary, Dr. M. Poongothai, Assistant Professor, followed by felicitation by Dr. P.R. Muthuswamy, principal, Dr. NGP Arts and Science College, Coimbatore. The key note of the talk was to enlighten the students on the research aspects of science and to inculcate in them to look at class room science into visionary projects in future by Dr. V. Gopal, Principal, College of Pharmacy, Mother Theresa Postgraduate and Research Institute of Health Science, Puduchery.

Eminent scientists from different parts of the country delivered scintillating talks on the concerned topics with their expertise. Dr. P.M. Ayyasamy, Associate Professor, Department of Microbiology, Periyar University, Salem with his diverse experience in environmental management highlighted on "Microbes and their Surface Active Metabolites: An Alternative Tool for Environmental Management." It was continued by Dr. Geetha, N. Associate Professor, University of Mysore, Mysuru, who threw light on the "Bioprospecting and structural elucidation of novel anti-diabetic metabolite from fungal assemblage using biotechnology tools".

The technical session was filled with valuable information and research prospects for the young budding scientists to develop research interest in them. There were various delegates from more than 10 different colleges and universities with 400 members, who actively participated in the conference. They sessions were made interactive and lively with discussion following the delivery of lectures by the resource persons. The research scholars and students felt that the topic chosen for the conference was very rare and unique. The day had broadened the spectrum of knowledge on biodiversity is what the students felt. Some of research scholars said, the conference rendered more information than a dozen books on bioprospecting as a challenge in today's scenario.

The technical sessions continued with Dr. Ranjith Kumavath, Associate Professor, Department of Genomic Science, School of Biological Science, Central University of Kerala on "Genomic and Metagenomics: Current opportunities and Challenges in Microbial Perspective". Further the session concluded with a thought provoking speech by Dr. P.K. Senthilkumar, Head, Department of Microbiology, Annamalai University, Chidambaram on "Diversity of Antibiotic Resistance and the Role of Bioprospecting Microbial Perspective".

The event had participants from various colleges and institutions who participated in oral research paper presentations which was a parallel session that took place on the same day. The session concluded with a formal vote of thanks delivered by Dr.V.Shanmugaraju, Head, Department of Biotechnology, Dr.N.G.P Arts and Science College, Coimbatore. The institution is looking forward for conducting several conferences each year for the benefit of the students and researchers to share the knowledge and exchange thoughts in the upcoming biotechnology fields.

### **Description of the event:**

Department of Biotechnology, Dr.N.G.P Arts and Science College, has organized a Workshop on Bioprospecting – Indian Perspectives, Challenges & Opportunities on 28.12.2017 at NGP Conference Center. The aim of the workshop was to make students understand about Bioprospecting – Indian Perspectives, Challenges & Opportunities. The Resource Persons had explained about the prominence of Bioprospecting in Indian Perspectives, the challenges of perspectives obtained by students and also the opportunities which created for the students in the field of Life Science as theoretically in this session.

### **Outcome of the Event:**

1. Students learned about the importance on Bioprospecting in Indian Perspectives
2. Students learned the procedure to resolve the challenges obtained in the process of Bioprospecting and adequate its usage.
3. Students have learned about to utilize the effective manner of Bioprospecting in Indian Perspectives, Challenges and Opportunities for their research purposes.

### **Description of the event:**

Department of Biotechnology, Dr.N.G.P Arts and Science College, has organized a Seminar on Career Opportunities in Bioinstrumentation Logistics on 13.12.2017 at Kambar Arangam. The aim of the workshop was to make students understand about the value of Public Speaking Skills. Ms.K.Bhuvaneshwari, Associate of Global Exports Team, VWR International LLC, Rathinam Techno Park, Coimbatore, has handled the session. Se had explained about the importance of Career Opportunities in Bioinstrumentation Logistics among the students as effectively in this session. Students become volunteers in this event and fulfilled their quest of Bioinstrumentation Logistics in this event.

### **Outcome of the Event:**

1. Students learned about the importance of Career Opportunities in Bioinstrumentation Logistics
2. Students learned the procedure about Bioinstrumentation Logistics.
3. Students have learned about to utilize the effective manner of Bioinstrumentation Logistics in their learning process.

### “Workshop on Basic Concept of Algebra”

#### Preamble:

This workshop introduces students to some basic mathematical ideas and tools which are at Algebra. A brief course in Linear Algebra familiarizes students with some basic techniques in matrix theory which are essential for analysing linear systems. The calculus of functions of one or more variables taught in this course are useful in modelling and analysing physical phenomena involving continuous change of variables or parameters and have applications across all branches of engineering. Dr.V.P.Ramesh Associate professor Department of Mathematics Central University Thiruvavur acted as a resource person.

#### ABOUT

My goal in life is to become an eminent Researcher and Teacher. I am a Mathematician interested in mathematics and theoretical computer science namely computing and complexity theory. I teach Algebra, Linear Algebra, Analysis, Differential Equations, Numerical Analysis, Algorithms, Logic and Applied Statistics. Establishing a research lab, named "Mathematics and Analytics Center of Excellence (MACoE)" (<https://sites.google.com/site/macoe1729>) where we conduct theoretical and experimental research towards making robust decision making tools with an aim to make in India. We also try to establish linkage with the industry. Institutionalize a community outreach initiative namely, nurture which aims to inculcate the habit of nurturing Mathematics at various levels. We conduct various workshops at the national level demonstrating a unique pedagogical learning ecosystem. (<https://sites.google.com/site/nurture1729>)

#### RESEARCH AREAS

Computational Algorithms, Scientific Computing, Data Mining, Mathematical modeling & Digital Media.

### Description about the program:

Algebra is an area of mathematics that uses symbols to represent numbers in formulas and equations. Understanding these symbols and how they work together and provide structure to equations allows mathematicians to more efficiently write formulas and solve math problems.

### Outcome of the Event:

Upon successful completion of the course, students will be able to:

- Effectively write abstract mathematical proofs in a clear and logical manner
- Locate and use theorems to solve problems in number theory and theory of polynomials over a field
- Demonstrate ability to think critically by interpreting theorems and relating results to problems in other mathematical disciplines
- Demonstrate ability to think critically by recognizing patterns and principles of algebra and relating them to the number system
- Work effectively with others to discuss homework problems put on the board. This will be assessed through class discussions.

## Report on “Workshop on Microprocessor and its applications”

### Description of the event:

The Department of Physics, Dr. N. G. P. Arts and Science College organized a workshop on the topic Microprocessor and its applications on 27.08.2017. The resource persons were Dr. K. Venkatachalam, Associate Professor, Department of Physics, Government Arts College, Coimbatore and Dr. R. Devaraj, Associate Professor, Department of Physics, Government Arts College, Coimbatore. The students got a golden chance to explore the world of electronics. The students were given hands on training to handle microprocessor kit 8085. The theoretical concept was also discussed, Students were able to run different programmes using the microprocessor kit during the practical session.

### Outcome of the Event:

- Students were able to understand the theory behind the working of microprocessors.
- Students were able to write programs for microprocessor using opcode.
- Students were able to run the program in the microprocessor kit 8085.

### Report on Seminar on “Data Science and Big Data”

#### Description of the event:

- Data Scientist is one of the hottest professions. The U.S. Bureau of Labor Statistics sees strong growth in the data science field and predicts the number of jobs will increase by about 28% through 2026.
- This Data Science and Big Data covers extensive Data Science training, combining online instructor-led classes and self-paced learning. The skills focused on in this field will help prepare for the role of a Data Scientist.
- Mr. N. Prasanth Senior Software Developer, Unique Technologies, gave a Overview on Data Science and Big Data
- He describes about the following five valuable properties:
- What is data science? What is big data? What do these terms mean and why is it important to find out? These are hot topics indeed, but are often misunderstood. Further, the industries involved don't have universally agreed upon definitions for both.
- These are extremely important fields and concepts that are becoming increasingly critical. The world has never collected or stored as much data, and as fast as it does today. In addition, the variety and volume of data is growing at an alarming rate.
- He explained about why should we care about data science and big data? Data is analogous to gold in many ways. It is extraordinarily valuable and has many uses, but you often have to pay for it in order to realize its value.

#### Outcome of the Event:

This seminar displays the about the data science and big data. Data is analogous to gold in many ways. It is extraordinarily valuable and has many uses, but we often have to pay for it in order to realize its value.

### Report on “Workshop on Basic Concept of Real analysis”

#### Preamble:

- Real analysis is the branch of mathematical analysis that studies the behavior of real numbers, sequences and series of real numbers, and real functions.
- Some particular properties of real-valued sequences and functions that real analysis studies include convergence, limits, continuity, smoothness, differentiability and integrability.
- Dr. D. Bharani Balan Associate Professor Department of Mathematics Central University Thiruvavur acted as a resource person.

#### Participant’s Profile:

A total of 99 Students from both Final year UG Mathematics and Mathematics CA were participated in the workshop

### Description about the program:

This workshop introduces students to the concepts of mathematics that are the building blocks of mathematical reasoning and mathematical proofs. Also covers the concepts such as logic, methods of proof, sets, functions, real number properties, sequences and series, limits and continuity and differentiation. Real analysis provides students with the basic concepts and approaches for internalizing and formulation of mathematical arguments.

### Outcome of the Event:

On successful completion of this workshop, participants will be able to:

- describe the fundamental properties of the real numbers that underpin the formal development of real analysis
- demonstrate an understanding of the theory of sequences and series, continuity, differentiation and integration
- demonstrate skills in constructing rigorous mathematical arguments
- apply the theory in the course to solve a variety of problems at an appropriate level of difficulty

### Report on Seminar on “Storage Virtualization”

#### Description of the event:

The virtual storage software intercepts input/output (I/O) requests from physical or virtual machines and sends those requests to the appropriate physical location of the storage devices that are part of the overall pool of storage in the virtualized environment. To the user, the various storage resources that make up the pool are unseen, so the virtual storage appears like a single physical drive, share or logical unit number (LUN) that can accept standard reads and writes.

- Mr. Deepak Rajashankar Storage Solutions Consultant, Hewlett Packard Enterprise Company, gave a Overview on Storage Virtualization
- He describes about the following five valuable properties:
- A single point of administration: all the storage administration occurs at the virtualization layer.
- Information life cycle management: it is possible to transparently relocate frequently accessed data to more expensive, high-performance storage and move less frequently accessed data to less expensive storage.
- He also explains the Improved efficiencies: reallocations of storage and shared free space across applications optimizing unused disk are the most expensive storage assets.
- Seamless data migrations: migrations often require application outages. With Storage Area Network (SAN) virtualization, the storage team can execute disk array swap-outs without impacting anyone else are elaborated.

#### Outcome of the Event:

This report displays the virtual storage, backend storage, volume capacity, and internal volume capacity data. Storage virtualization is the pooling of physical storage from multiple storage devices into what appears to be a single storage device -- or pool of available storage capacity -- that is managed from a central console. The technology relies on software to identify available storage capacity from physical devices and to then aggregate that capacity as a pool of storage that can be used by traditional architecture servers or in a virtual environment by virtual machines
