## AY 2020 – 21 Workshops/Seminars Conducted

The following are the total number of workshops and seminars conducted on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship and skills development during the academic year 2020-21

S No	Name of the workshop/ seminar	Number of Participants	Date From – To
<b>2020-21</b>			
<b>RESEARCH METHODOLOGY</b>			
1	Seminar on "Beauty of Complex Analysis"	48	01.11.2021
2	Seminar on "AI State Space Search and Charles Darwin"	99	21.10.2021
3	Webinar on "Future Batteries"	150	11.10.2021
4	Seminar on "X-ray Diffraction technique and its analysis"	185	11.10.2021
5	e-Workshop on "Phase Identification of Polycrystalline Materials using XRD data in Softwares"	165	25.09.2021
6	Seminar on "IoT and its Applications in Real World"	56	20.09.2021
7	Virtual Workshop on Art of Writing Research Article	80	30.08.2021
8	Webinar on "Recent Advances in Computational Chemistry- An Overview"	110	18.08.2021
9	Science Academies' Refresher Course in Differential Equations and its Applications	30	11.08.2021 to 26.08.2021
10	Webinar on Coconut- Wonder crop	90	08.06.2021
11	Webinar on "Python for Data Science"	149	07.06.2021
12	Webinar on Food A Companion –An anthropological perspective	80	07.06.2021
13	Seminar on "Evolution of Coronavirus and Genome Analysis of SARS-CoV-2"	150	07.06.2021

14	Webinar on Quantum dots: Introduction to their science and applications	150	05.06.2021
15	Seminar on Data Analytics using R Tool	75	05.06.2021
16	Webinar on "Data Analytics"	149	04.06.2021
17	Seminar on "Optimization of Small molecules for therapeutics in drug discovery"	200	04.06.2021
18	Seminar on Surface Treatments and Corrosion Performance of Metallic materials	80	03.06.2021
19	Seminar on Role of Fluorescence Probes in RT-PCR based disease diagnosis and the Chemistry behind COVID-19 Vaccines	200	02.06.2021
20	Webinar on Research in Social Sciences	50	01.06.2021
21	Seminar on IR & NMR Spectroscopy Tool for the prediction of Organic molecules	200	28.05.2021
22	Webinar on "Bio-Inspired Optimization Techniques and its Applications"	185	27.05.2021
23	Webinar on "Role of Mathematics in Emerging Technologies"	205	25.05.2021
24	Webinar on "Number Theory and its Applications"	193	24.05.2021
25	Workshop on Big Data Analytics in Clinical Research (BDACR-21)	350	18.03.2021 & 19.03.2021
26	Webinar on Introduction to Molecular Modeling	91	12.03.2021
27	Webinar on SPSS Tools for Social Needs	108	20.02.2021
28	Webinar on "Deep Learning"	112	06.02.2021
29	Two Days Science Academies' Virtual Lecture Workshop on Current Trends in Chemical Biology and Drug Discovery	150	20.01.2021 to 21.01.2021
30	e- Workshop on " Introduction to ORIGIN and Basic Plotting"	42	26.12.2020
31	Webinar on Research Paper Writing	140	11.11.2020
32	Webinar on Business Intelligence in Data Analytics	100	10.11.2020
33	Webinar on " One dimensional nanomaterials for photocatalytic application"	50	10.11.2020
34	Webinar on Block Chain Technology	194	05.10.2020
35	Webinar on IoT with Android Applications	100	25.09.2020
36	Webinar on Project Design and Development	87	12.09.2020

## Report on “Beauty of Complex Analysis”

### Preamble:

The objective of this lecture is to provide some basic concepts of complex analysis. The contents are designed in such a way that it will give foundation of mathematics at a level and depth appropriate for someone aspiring to going competitive examinations.

### Participant’s Profile:

A total of 50 Students from both UG Mathematics were participated in the lecture.

### Description about the program:

Dr. P. Duraisamy had delivered a talk on beauty of Complex Analysis. He has taken about the number system, which it consists of natural, whole, integers, rational, irrational, real numbers and complex numbers. He told the History of Complex Numbers-extension of the concept of complex numbers is from that of real numbers, necessitated by the solution of algebraic equation. Euler’s equation, polar form of complex number, an example  $3+i4$  can be represented as  $(3,4)$ .

### Out Comes of the Event:

After completing this course, students knew about understand the main properties and examples of analytic functions;

- to compute and manipulate series expansions for analytic functions;
- how to use the major integral theorems;
- How to identify and classify zeroes and poles of functions and find their residues;
- the relationship between complex function theory and the theory of functions of a real variable.
- to calculate certain real improper and trigonometric integrals using complex analytic methods.

### Report on “AI: State Space Search and Charles Darwin”

#### Description of the event:

The Department of Physics along with Association of Physics “PANORAMA” has conducted a seminar on 21.10.2021. **Mr. Hindol Bhattacharya**, Senior research fellow (DST- INSPIRE), School of Education Technology, Jadavpur University Kolkata 700 032, Tamilnadu delivered an online seminar on the topic “**AI: State Space Search and Charles Darwin**”, via in Google meet.

#### Outcomes of the event:

- This seminar about the performance of the algorithms, design and its analysis, methodical search i.e DFS, BFIS, Hill climbing, Viral solution.
- To promote the research interest among the student community by delivering the seminar in recent existing field.

**Name of the Event:** Webinar

**Title:** Future Batteries

**Date:** 11.10.2021

#### Category:

Research Methodology	Intellectual Property Rights	Skill development	Entrepreneur development
✓			

#### Name and Designation (with Institution address) of Resource Person:

Dr.D.Lakshmi, CSIR- Research Fellow, Bharathiar University, addressed the latest technologies and the methodologies involved in batteries

#### Participant's Profile:

Around 150 students from both UG (B.Sc. Chemistry) and PG (M.Sc.Chemistry) were participated in the webinar.

### **Preamble:**

Li-ion batteries dominate today's rechargeable battery industry. Demand is growing quickly as they are adopted in electric vehicles and grid energy storage applications. However, wave of new improvements to today's conventional technologies are on the horizon and will eventually be adopted in most major end markets. New battery technology breakthrough is happening rapidly. Advanced new batteries are currently being developed, with some already on the market. The latest generations of grid scale storage batteries has a higher capacity, a higher efficiency, and are longer-lasting. The webinar was organized to educate the students of chemistry to know about the advancement in battery technology.

### **Description about the program:**

Dr.D.Lakshmi, highlighted the importance of Li ion batteries and its construction to develop more power source. The important points discussed by the guest speaker are highlighted as follows:

- In lithium-ion (Li-ion) batteries, energy storage and release is provided by the movement of lithium ions from the positive to the negative electrode back and forth via the electrolyte.
- In this technology, the positive electrode acts as the initial lithium source and the negative electrode as the host for lithium.
- Li-ion batteries display additional advantages such as very low self-discharge and very long lifetime and cycling performances, typically thousands of charging/discharging cycles.
- New generation of advanced Li-ion batteries is expected to be deployed before the first generation of solid-state batteries.
- They'll be ideal for use in applications such as Energy Storage Systems for renewables and transportation (marine, railways, aviation and off road mobility) where high energy, high power and safety is mandatory.

## Report on “X-ray Diffraction technique and its analysis”

### Description of the event:

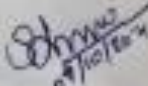

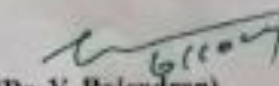

The Department of Physics along with Association of Physics “PANORAMA” has conducted a seminar on 11.10.2021. **Dr. P. Rajasekar** Assistant Professor, Department of Chemistry, School of Advanced Sciences, Vellore Institute of Technology, Tamilnadu delivered an online seminar on the topic “**X-ray Diffraction technique and its analysis**”, via in Google meet.

### Outcomes of the event:

- This seminar about the basics of X-ray diffraction techniques, basic law like Mosely's law and phase mixture of the materials.
- To promote the research interest among the student community by delivering the seminar in recent existing field.

## Report on “Phase Identification of Polycrystalline Materials using XRD data in Softwares”

### Description of the event:

The Department of Physics along with Association of Physics “PANORAMA”, IIC (Institution’s Innovation Council) conducted an e- Workshop on 25.09.2021. **Dr. K. Saravana Kumar**, Assistant Professor, Department of Physics, Sri S. Ramasamy Naidu Memorial College, Tamilnadu, delivered a talk on the topic entitled “Phase Identification of Polycrystalline Materials using XRD data in Softwares” through google meet. Dr. C. Selvakumar, Head, Department of Physics, introduced the chief guest and vote of thanks by Dr. K. Girija. The resource person discussed various softwares like VESTA and MATCH for phase identification using XRD data. The participants from various colleges, our UG and PG students joined the e-Workshop.

### Outcomes of the event:

- Students were able to understand the concepts of crystallography.
- Students had exposure to the various softwares available for phase identification.
- Students got to understand the softwares VESTA and MATCH in detail.

## Report on “IoT and its Applications in Real World”

### Preamble:

The Internet of Things (IoT) describes the network of physical objects—“things”—that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet.

### Participant’s Profile:

A total of 54 Students from both Final year UG (B.Sc. Mathematics) and PG (M.Sc. Mathematics) were participated in this lecture..

### Resource person Profile:

#### Department Of Information Science & Engineering

##### Overview

**Dr. P Vijayakarthish**  
Professor & HOD

Welcome to the Department of Information Science and Engineering at Sir M Visvesvaraya Institute of Technology, Bengaluru. We started our journey in the year 1999 with an intake of 60 students. Over the last 20 years, we have grown our expertise and competence in the core field of Information Science and Engineering.

We have a strong undergraduate program in Information Science and Engineering and having approved Research Centre by Visvesvaraya Technological University(VTU), Belagavi. At present, the department has 5 Ph.D. Research scholars. Our department hosts several National Level Conferences, Workshop, Seminars, Guest Lectures, Alumni Lectures, Faculty Development Programme (FDP), Student Development Programmes (SDP), Hackathons periodically.

The main focus of our curriculum is to impart technical knowledge and by using Innovative Teaching Learning methodologies. We motivate our students to do innovative projects and find a solution to the problems in the real world.

Our Undergraduate students are encouraged to undertake various Technical projects and internships in leading IT Industries and also in Central Government organizations like HAL, BHEL, IITs, etc.. Our department maintains active research groups for carrying out collaborative and interdisciplinary research. We have received Industrial funding for research and we are providing consultancy services.

Our department has a strong Alumni Network and our Department Alumni are working all around the globe. Our Alumni regularly visit the Department and deliver Alumni Lecture to our students. Our students are placed in good companies like Infosys, TCS, Amazon, Accenture, CTS, Robert BOSCH, Wipro, Tech Mahindra, IBM, Cisco, and Societe Generale. More than 10 Percentage of students who are passing out every year are doing their Masters in foreign Universities.

### **Description about the program:**

The Guest covered several important topics on IOT including

- What is IoT or the ‘Internet of Things’?
- the active use of IoT which can actually make a city ‘smart’
- IoT applications in Smart Homes, Smart City, Self-driven Cars, IoT Retail Shops, Farming, Wearables etc.
- Smart Grids and Industrial Internet.

### **Outcome of the Event:**

The students learnt the following:

- What is Internet of Things
- State of the Art of IoT
- Challenges and Limitations of IoT
- Business Perspective of IoT
- Future of IoT
- Data Center Impact on IoT
- Research Directions in IoT

<b>Event Description:</b>		
<p>The Workshop is conducted on the topic of "Art of Writing Research Article" through Google meet on 30.08.2021. She Started Simple meaning of research the creation of new knowledge and use of existing knowledge in a new and creative way so as to generate new concepts, methodologies and understandings the Sound conceptual understanding of various research methods, research instruments, tools and techniques is an essential prerequisite for conducting empirical research." she point out various techniques of conducting a research. She explained what a research design is and discussed its subdivisions in the form of Descriptive, Exploratory and Experimental Research Designs. The whole 'Research Process' was discussed along with its elements like definition of the problem. Development of the approach to the problem and then formulation of a Research Design. She explained the ingredients of each research design with explicit details regarding collection of primary or secondary data. Framing a Questionnaire and selection of a sample. She also explained the concept of Literature review which is one of the most vital parts of the research Endeavour. She clearly conveyed to the students on how to write the format that must be followed in citing a book, journal, article, reports. Is very informative secession the very useful and all the students were benefited.</p>

## Report on

### “Webinar on Recent Advances in Computational Chemistry- An Overview”

#### Description of the event:

A Webinar on “Recent Advances in Computational Chemistry- An Overview” was organized by Department of Chemistry to help students to understand the importance of computational chemistry in the current research scenario to benefit M.Sc. and B.Sc. final year students.

- **Dr.S.Balachandar**, highlighted the importance of computational chemistry in determining the structure functional relationship
- He was clearly enlightened the research in theoretical and computational chemistry combines concepts from classical, quantum, and statistical mechanics with high performance computational methods to study molecular/biomolecular properties and reactions
- He explained the quantum/statistical formalisms to serve as a foundation to interpret and to extend experimental data.
- The session was very effective to the students.

#### Outcomes of the event:

- Students were motivated towards emerging research areas in theoretical and computational chemistry
- Students were understanding the computational models to describe electron transfer reactions in biology and organic molecules
- Students got the skills about theoretical and computational technology.

**Computational Methods**

***Electronic structure methods***      ***Dynamic methods***

**Electronic structure methods**

- ❖ Treat the nuclei as stationary particles surrounded by moving electrons.
- ❖ Approximation is reasonable since the electrons move faster than nuclei.
- ❖ Focus on the electrons.

### Preamble:

Dr. N.G.P Arts and Science College, Coimbatore is organizing a Science Academics Refresher Course in Differential Equations and its Applications (**in online mode**) during August 11-26, 2021 sponsored by Indian National Science Academy, Bengaluru, National Academy of Sciences, New Delhi and National Academy of Sciences, Prayagraj. This course is aimed to provide advancements in the field of differential equations to young faculty members who wish to work on differential equations. A series of lectures from experts will give the necessary directions on the latest developments in this field.

The Science Academies have been supporting two/three-day lecture workshops and fifteen-day refresher courses on topics of current interest throughout the country. All the programmes conducted by the Joint Science Education Panel of the Academies are fully supported by the Department of Science and Technology, Govt. DST has undertaken a series of activities to mark 75 years of India's Independence (Azadi Ka Amrut Mahotsav). The Mahotsav is a series of S&T programmes and events to be organised to commemorate the 75th anniversary of India's Independence. The curtain raiser activities began from 12 March, 75 weeks prior to 15 August 2022. The lecture workshops/refresher courses are part of the series in these programmes. The Academy will also organize periodic lectures by eminent scientists. These programs will be adequately expanded in the celebration of the 75 years of Indian Independence.

### Participant's Profile:

### **Description about the program:**

This series covered the following topics

Mathematical Methods, Non-linear ordinary and partial differential equations, Application of differential equations, Fractional differential equations and its applications, Dynamical Systems and Integral transforms with their applications, Numerical solution of partial differential equations in Fluid mechanics, Computational fluid dynamics in advanced manufacturing and high-speed compressible fluid flow, turbulent fluid flow

### **Outcomes of the Event:**

After completing this course, the participants will be able to understand the concept of

- Mathematical Methods, Non-linear ordinary and partial differential equations
- Application of differential equations, Fractional differential equations and its applications
- Dynamical Systems and Integral transforms with their applications, Numerical solution of partial differential equations in Fluid mechanics
- Computational fluid dynamics in advanced manufacturing and high-speed compressible fluid flow, turbulent fluid flow

## INFORMATION AND ANNOUNCEMENTS

### Science Academies Refresher Course in Differential Equations and its Applications

11<sup>th</sup> -26<sup>th</sup> August 2021

Sponsored by

Organized by

**Dr. N. G. P. Arts and Science College, Coimbatore 641 048, Tamil Nadu**

Dr. N. G. P. Arts and Science College, Coimbatore is organizing a Science Academies Refresher Course in Differential Equations and its Applications (**in online mode**) during August 11-26, 2021 sponsored by Indian National Science Academy, New Delhi, Indian Academy of Sciences, Bengaluru, and The National Academy of Sciences, Prayagraj. This course is aimed to provide advancements in the field of differential equations to young faculty members who wish to work on differential equations. A series of lectures from experts will give the necessary directions on the latest developments in this field.

Applications are invited from faculty members and teachers with experience in teaching undergraduate and postgraduate courses in Mathematics. A maximum of 30 participants will be selected based on merit. Once selected the participant should produce the NOC from their head of the institution for participating in the course. The registration link is given below. Interested candidates should attach a brief statement (between 250 and 500 words) describing the reason for their interest in this course.

**Topics to be covered:**

Mathematical Methods, Non-linear ordinary and partial differential equations, Application of differential equations, Fractional differential equations and its applications, Dynamical Systems and Integral transforms with their applications, Numerical solution of partial differential equations in Fluid mechanics, Computational fluid dynamics in advanced manufacturing and high speed compressible fluid flow, Turbulent fluid flow.

### A note on Science Academics Initiatives for 75 years of India's Independence

The Science Academies have been supporting two/ three-day lecture workshops and fifteen-day refresher courses on topics of current interest throughout the country. All the programmes conducted by the Joint Science Education Panel of the Academies are fully supported by the Department of Science and Technology, Govt. DST has undertaken a series of activities to mark 75 years of India's Independence (Azadi Ka Amrit Mahotsav). The Mahotsav is a series of S&T programmes and events to be organised to commemorate the 75th anniversary of India's Independence. The curtain raiser activities began from 12 March, 75 weeks prior to 15 August 2022. The lecture workshops/refresher courses are part of the series in these programmes. The Academy will also organize periodic lectures by eminent scientists. These programs will be adequately expanded in the celebration of the 75 years of Indian Independence.

3. Express  $r_1, r_2, \dots, r_{n-1}, s$  in terms of  $x_1, x_2, \dots, x_n$  :

$$r_i = \frac{x_i}{x_n}, i = 1, \dots, n-1, \quad x_n = e^s$$
$$\therefore u(x_1, x_2, \dots, x_n) = x_n^\alpha \phi\left(\frac{x_1}{x_n}, \frac{x_2}{x_n}, \dots, \frac{x_{n-1}}{x_n}\right)$$

$u$  is a homogeneous function of degree  $\alpha$

**Exercise:**

$$xu_x + yu_y + zu_z = u$$

with initial condition

$$u(x, y, 0) = \phi(x, y)$$

But  $U$  is the solution of the differential equation so

$$\left(\frac{\partial U}{\partial t} - \frac{\partial^2 U}{\partial x^2}\right)_{i,j} = 0.$$

Therefore the principal part of the local truncation error is

$$\left(\frac{1}{2}k \frac{\partial^2 U}{\partial t^2} - \frac{1}{12}h^2 \frac{\partial^4 U}{\partial x^4}\right)_{i,j}$$

Hence

$$T_{i,j} = O(k) + O(h^2).$$

When  $k = rh^2$ ,  $0 < r \leq \frac{1}{2}$ ,  $T_{i,j}$  is  $O(k)$  or  $O(h^2)$ , as one would expect by eqns (1.8) and (1.10).

## Report on “Evolution of Corona virus and Genome Analysis of SARS-CoV-2”

### Description of the event:

A Seminar on “Evolution of Corona virus and Genome Analysis of SARS-CoV-2” was organized by Department of Chemistry to help students to understand the importance of Corona virus and Genome Analysis to benefit M.Sc and B.Sc. final year students.

- Dr. Prasanth Manohar has given the importance of corona virus and its mutation.
- He was clearly enlightened about the Genome analysis of SARS-CoV-2.
- And also he described about the different types vaccine for virus.
- After his session students were interacted with speaker.
- The session was very useful to the students.

### Outcomes of the event:

- Students were motivated towards emerging research areas in the Corona virus
- All the participants were comprehending construction of the genome analysis
- Students were understanding the corona virus symptoms and causes
- Students got the skills about how to prevent the SARS-CoV-2.

## Report on “Webinar on Quantum dots: Introduction to their science and applications”

### Preamble:

A Webinar on “Quantum dots: Introduction to their science and applications” was organized by Chemistry to help students to understand the importance and applications of Quantum dots to benefit I & II M.Sc and III B.Sc. students.

### Description about the program:

- **Dr. Parthiban Ramasamy**, delivered a lecture of the basic science behind quantum dots.
- He was addressed the importance of quantum dots in the field of electronics (TV boards) and other applications.
- The session was very effect to the students.

### Outcome

- Students are motivated towards emerging research areas in the smart materials.
- Students understood the types and applications of various levels of quantum dots.
- Students were got ideas about quantum dots in the development of nanoscience and technology

### **“Seminar on Data Analytics using R Tool”**

#### **Description of the event:**

The session dealt with the innovative topic “**Data Analytics using R Tool**”.

The seminar gave an insight of the importance of Data Analysis using R Tool and also its applications in many other sectors. The lecture has instilled a lot of information about Data Analysis that seemed unconquerable.

The speech ended with an interactive session and students were enabled to clarify their doubts and queries about various careers. This session was very beneficial to the aspiring students and received good feedback by all.

#### **Outcome of the Event:**

- To understand the technology behind Data Analysis using R tool
- To understand the data analysis tools.
- To apply Data Analysis in different fields.

## “Seminar on Optimization of Small molecules for therapeutics in drug discovery”

### Preamble:

A Seminar on “Optimization of Small molecules for therapeutics in drug discovery” was organized by Chemistry & Physics to help students to understand the importance of small molecules and therapeutics in drug delivery to benefit M.Sc and B.Sc. final year students.

**Dr. K. N.Vennila**, Senior Research Associate, Department of Chemistry, GRI, Gandhigram were the guest speaker.

### Description about the program:

- **Dr. K. N. Vennila** spoke on the importance of drug discovery by optimization of small molecules.
- She was clearly enlightened about relation between small molecules and drug delivery.
- The session was very effect to the students.

### Outcome

- Students are motivated towards emerging research areas in the small molecules
- All the participants were comprehending construction of the drug delivery
- Students were understanding the how to characterize the small molecule in drug discovery
- Students were got ideas about small molecule the development of drug designing.

Dear Professor,

Sub: Guest Speaker- Guest Lecture- Invitation-Reg.  
Greetings from Dr. N.G.P. Arts and Science College.

DRNGPASC is committed and marching ahead in imparting disciplined quality higher education. The college holds great foresight with the visionary Management Dr. Nalla. G. Palaniyandam as Chairman, Dr. Thavamani D. Palaniyandam as Secretary, with the dedicated team of faculty fraternity steered by Team Leader / Principal Prof. Dr. V. Rajendran.

The College has been conferred autonomous status by University Grants Commission, New Delhi and accredited by NAAC with "A" Grade (2<sup>nd</sup> Cycle) during the year 2015-16. The science departments of our institutions are recognized under DBT-STAR Scheme and DBT Cluster Institution. In addition, Dr. NGPASC is recognized as a member of National Rural Entrepreneurship Mission by Mahatma Gandhi National Council of Rural Education, MoE, and GoI.

The Institution has made constant achievement in National Institutional Ranking Framework (NIRF) of MHRD by securing 85<sup>th</sup>, 67<sup>th</sup>, 91<sup>st</sup> and 44<sup>th</sup> rank respectively in the year 2020, 2019, 2018 and 2017. The Institution has secured Rank Band-B within top 50 and 100 institutions in ARIIA 2020 and 2019 respectively and three-star rating by MHRD's Institution Innovation Council (IIC) for the year 2019.

The institution offers 31 UG, 14 PG and 12 Research programmes. To extend knowledge in new emerging areas, the Department of Chemistry and Physics organize Guest Lectures regularly. In this regard, we are honored to invite you as a speaker for the Guest Lecture organized by the Department of Chemistry and Physics of our college on 4<sup>th</sup> June 2021 between 11.00 a.m. and 12.00 noon.

Thank you in advance for your consideration, and we very much look forward to hear from you.

Thanking you,

Yours sincerely,

Prof. Dr. V. RAJENDRAN

### **“Surface Treatments and Corrosion Performance of Metallic materials”**

#### **Description of the Event:**

- **Dr. A. Srinivasan**, spoke on the Introduction about the Corrosion and the various types and corrosion occurring process.
- He was clearly delivered about the surface coating technology and different inhibitors for the corrosion process.
- The session was very effect to the students and the faculty.

#### **Outcomes of the event:**

- Students were motivated towards emerging research areas in the corrosion of materials
- All the participants were eagerly participated to know about corrosion process
- Students were understanding the principles and inhibition about the corrosion
- Students got the skills about corrosion inhibition process of various materials

### Preamble:

A Guest Lecture on “Role of Fluorescence Probes in RT-PCR based disease diagnosis and the Chemistry behind COVID-19 Vaccines” was organized by Chemistry & Physics to help students to understand the importance of Fluorescence Probes in RT-PCR to benefit M.Sc and B.Sc. final year students.

### Description about the program:

- **Dr. A. Selva Sharma**, spoke on the importance of fluorescence probes to diagnosis the disease.
- He was clearly enlightened about importance of COVID-19 Vaccines.
- The session was very effect to the students.

## Webinar on “IR & NMR Spectroscopy Tool for the prediction of Organic molecules”

### Description of the Event:

A Guest Lecture on “IR & NMR Spectroscopy Tool for the prediction of Organic molecules” was organized by Department of Chemistry to help students to understand the Importance and applications of spectroscopy to benefit M.Sc. and B.Sc. final year students.

- **Dr. M. Rajkumar** spoke on the basics and principles involving in IR and NMR Spectroscopy.
- He was clearly enlightened about the functional group and structural identification of some of the inorganic, organic molecules.
- The session was very effect to the students and the faculty.

### Outcomes of the event:

- Students were motivated towards emerging research areas in the spectroscopy
- All the participants were able to comprehend construction of the IR and NMR
- Students were able to understand the principles and applications of Spectra
- Students got the skills about IR and NMR to elucidate the structure of compounds.

### Description about the program:

The following topics were discussed during the period.

- Introduction of Optimization Techniques
- Bio-Inspired Optimization Techniques and its Applications

### Outcome of the Event:

After completing this series, the participants able to

- Basic concepts of optimization problems
- Solving Optimization Problems
- Use the Optimization Techniques in real world problems

## Photographs:

The screenshot shows a Google Meet session with a presentation slide titled "EXAMPLES OF OPTIMIZATION PROBLEMS". The slide is divided into two sections: "In finance" and "In control engineering".

**In finance:**

- In what proportions to invest in 500 stocks?
- To maximize return.
- To minimize risk.
- No more than 1/5 of your money in any one stock.
- Transactions costs < \$70.
- Return rate > 2%.

**In control engineering:**

- How to drive an autonomous vehicle from A to B?
- To minimize fuel consumption.
- To minimize travel time.
- Distance to closest obstacle > 2 meters.
- Speed < 40 miles/hr.
- Path needs to be smooth (no sudden changes in direction).

The Meet interface shows a grid of participants on the right, including Prakasham P, SRUTHI.R 192MA..., and others. The bottom toolbar shows options like "Raise hand", "Turn on captions", and "Prakasham P is presenting".

Dr. P. Prakasham, Vellore Institute of Technology, Vellore delivered the topic on Bio-Inspired Optimization Techniques and its Applications on 27/05/2021

## “Role of Mathematics in Emerging Technologies”

### Preamble:

This lecture provides new developments in all areas of mathematics and their applications. Dr. H.P. Rani, Associate Professor, National Institute of Technology, Warangal was acted as a resource person.

### Participant's Profile:

A total of 205 Students were participated in the Seminar.

### Resource person Profile:

#### Dr. H.P. RANI

**Associate Professor**

**Department of Mathematics**

**National Institute of Technology, Warangal - 506004,  
Telangana, INDIA**

e-mail: [hprani@nitw.ac.in](mailto:hprani@nitw.ac.in)

Mobile: 9908143247

**Interests:** Nonlinear dynamics, Finite difference methods, Finite volume methods, Computational Fluid Dynamics, Instability and vortex analysis, Heat and Mass Transfer problems.

#### ACADEMIC PROFILE

**Ph.D.** (Computational Fluid Dynamics): July 1996 – May 2001  
 Department of Mathematics, Anna University, Chennai, India.

*Title: "Natural Convective flow over a Vertical Cylinder."*

#### PROFESSIONAL EXPERIENCE

##### • Teaching

27<sup>th</sup> March 2016 – Till date: **Associate Professor**, Department of Mathematics, NIT Warangal.

Jan 2005 – 26 March 2016: **Assistant Professor**, Department of Mathematics, NIT Warangal.

Sep. 2006 – Aug. 2007: **Research Professor**, CFD lab, Dept of Mechanical Engineering, Kyung Hee University, Korea.

##### • Post Doc

May 2006–Aug.2006: **Research Assistant**, Vortex Dynamics and Bio-Medical Fluid Mechanics Lab, Institute of Applied Mechanics, National Taiwan University, Taiwan

Jan. 2006–Apr. 2006: **Post Doctorate**, Division of Medical Engineering Research, National Health Research Institutes, Taiwan.

Feb.2003–Dec.2005: **Post Doctorate**, Scientific Computing and Cardiovascular Simulation Lab, Dept. Eng. Sci., and Ocean Eng, National Taiwan University, Taiwan.

### Description about the program:

The following topics were discussed during the period.

- Role of Mathematics in Emerging Technologies
- How to use mathematics in Engineering fields

### Outcome of the Event:

At the end of the course students should be able to:

- explain whether their results make sense in the context of the problem
- explain the importance of their findings
- justify the degree of accuracy of their results where appropriate
- Suggest improvements to the method when necessary.

## “Webinar on Number Theory and its Applications”

### Preamble:

This lecture provides an interaction between participants and resource persons in the field of number theory. Dr. B. R. Shankar, Professor National Institute of Technology, Karnataka

### Participant’s Profile:

A total of 193 Students were participated in the Seminar.

### Resource person Profile:

Dr. B R Shankar did his M.Sc in Mathematics at Mysore University (1986) and completed his Ph.D. at The Indian Institute of Science, Bangalore in 1991. Soon after Ph. D, for two years he worked as Senior Project Officer, in the Project: “Foundation of Mathematics in Indian Tradition”, at IIT Chennai. After that, for a year he worked as a Lecturer in the Dept. of PG Studies in Mathematics, MES College of Arts, Commerce and Science, Malleshwaram, Bangalore. From 1994 – 1997 he was the Head of the Department of Mathematics, SJC Institute of Technology, Chickaballapur, Karnataka. From 1997 to 1999 he worked as Part Time Lecturer at The Govt. Polytechnic, K.R. Pet, Karnataka. In the year 2000 he joined as Lecturer in the Department of Mathematical and Computational Sciences, KREC, Surathkal, which is now renamed as The National Institute of Technology Karnataka. Associate Professor in July 2010, Professor in May 2018 and Head of the Department from August 17, 2017 to August 16, 2019. Under his guidance six students have completed their Ph. D. and six more are working towards their Ph. D. His areas of interest are **Algebra and Number Theory**, with applications to Cryptography. He has about 15 publications in International Journals and about 20 in National and International Conferences.

He has delivered invited talks at various national and international workshops/conferences, including INSPIRE and NURTURANCE programs for school children to popularize the study of basic sciences.

### Description about the program:

The following topics were discussed during the period.

- How to use number theory in real life
- To understand about Algebraic Number systems

### Outcomes of the event:

Upon successful completion of this we, a student will be able to:

- Define and interpret the concepts of divisibility, congruence, greatest common divisor, prime, and prime-factorization,
- Apply the Law of Quadratic Reciprocity and other methods to classify numbers as primitive roots, quadratic residues, and quadratic non-residues,
- Formulate and prove conjectures about numeric patterns, and
- Produce rigorous arguments (proofs) centered on the material of number theory, most notably in the use of Mathematical Induction and/or the Well Ordering Principal in the proof of theorems.

National Workshop On Big Data Analytics In Clinical Research (Bdacr-21)

**Organized by**

**DEPARTMENT OF CS WITH COGNITIVE SYSTEMS**  
**CLINICAL LAB TECHNOLOGY &**  
**COMPUTER TECHNOLOGY**

#### **About the Webinar:**

- The workshop intended to focus on the enormous volumes of data collected across the clinical trials process, offers pharma and biotech an opportunity to harness the information in these big data sets to improve clinical trial design, patient recruitment, site selection, monitoring insights and overall decision making.
- **Prof. Dr.Shashank Joshi** delivered the keynote address on the topic “Tools and Applications of Bigdata Analytics using clinical research”. He explained about what is clinical research, bigdata analytics methods, trends in health science and different form of huge clinical trial data for variety of applications that can be analyzed and predicted using bigdata algorithms. The overall session was more informative and productive.
- The keynote address delivered on the topic “Overview of drug discovery and medical device regulation with reference to AI” by **Dr.Kalyan kumar, HCL Technologies, Chennai**. He started the lecture from the base on the introduction of drug discovery, how AI helps in designing various complex chemical compounds for drug discovery and different form of clinical trial data analyzed using bigdata techniques. He insisted the students to take a project on conducting various clinical trials and analyze the data using bigdata analytics.
- The keynote speaker was **Dr.N.Kavitha, Jain-Deemed to be University, Bangalore** presented lecture on the topic entitled “Machine learning in Clinical Industry”. She stated that AI in healthcare has two branches physical and virtual. In physical branch several smart

wearable tangible devices are discovered and in virtual sector several predictive and prescriptive models are developing using AI techniques.

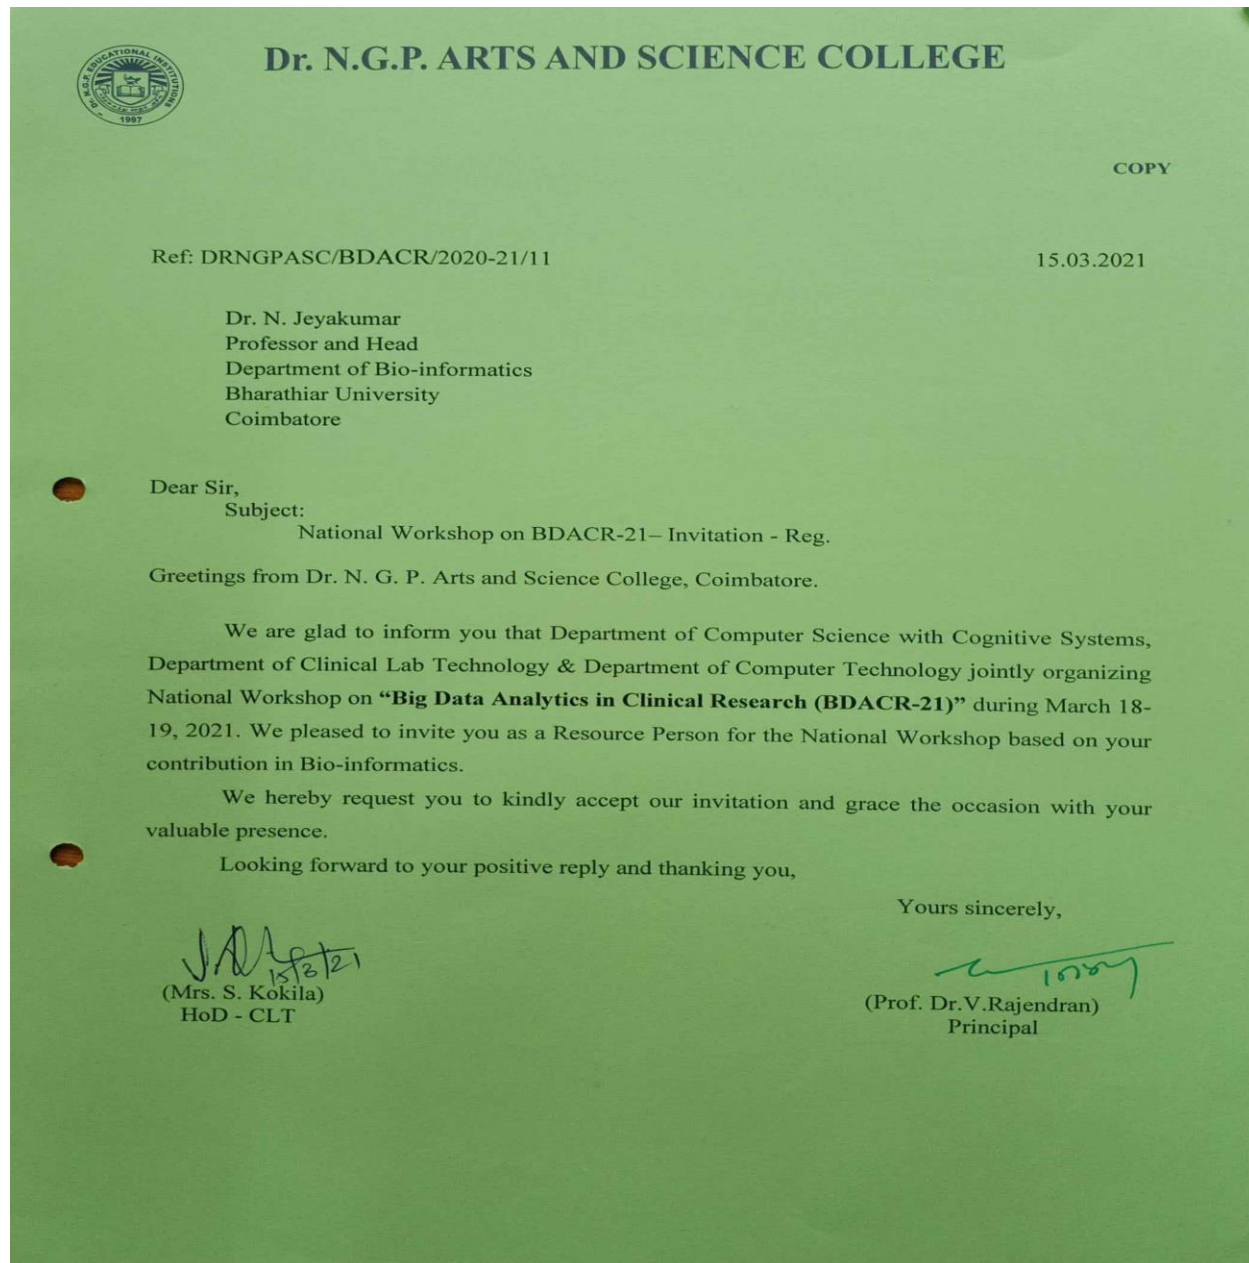

- The keynote address entitled “Artificial Intelligence and Applications” provided by **Dr.K. Saravanan, Anna University**, Tirunelveli. In this session detailed description of applications of artificial intelligence in healthcare domain was discussed. Some of the important applications are digital consultation, virtual nurses, medication management, drug creation, precision medicine, health care monitoring etc.
- **Prof. Dr. N.Jeyakumar, Bharathiar University**, Coimbatore delivered the session 5 on the topic “Bioinformatics and Bigdata analytics”. Dr.R.Senthil Kumar, Associate Professor, Dr.NGPASC presented the chief guest introduction. During his keynote address he discussed about several forms of biological data such as proteomics, micro array, genomics, MGS, transcriptome, cytometry etc. He elaborated about the bio-informatics and researchers to focus on integration of multiple biological data to find hidden patterns.
- Dr.K.Rajathi, Associate Professor, Dr.NGPASC delivered the chief guest introduction of **Dr.Syed Ibrahim, VIT University**, Chennai. He delivered keynote address on the topic “Role of Bigdata analytics in detection and tracking of infectious disease outbreaks”. He discussed about new emergence research area called information epidemiology and elaborated about the different types of disease outbreak.

### Outcomes of the Workshop:

- Learnt about the clinical research, bigdata analytics methods, trends in health science and different form of huge clinical trial data for variety of applications
- Understood about several forms of biological data such as proteomics, micro array, genomics, MGS, transcriptome, cytometry etc
- Gained knowledge in Role of Bigdata analytics in detection and tracking of infectious disease outbreaks

### “Webinar on Introduction to Molecular Modeling”

#### Description of the event:

A Webinar on “Introduction to Molecular Modeling” was organized by Department of Chemistry to help students to understand the importance of molecular modeling in the current research scenario to benefit M.Sc. and B.Sc. final year students.

- **Dr. R. Vijay Solomon**, highlighted the importance of molecular modeling in determining the structure functional relationship.
- He was clearly enlightened the Molecular modeling is used to simulate the molecular behavior in chemical or biological systems.
- He explained basics about theoretical methods and computational techniques used to mimic and study the structure and behaviour of molecules.
- The session was very effective to the students.

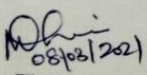

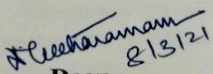

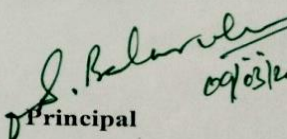

#### Outcomes of the event:

- Students were motivated towards emerging research areas in Molecular modeling.
- Students understood the representation of three-dimensional structures of molecules and associated physico-chemical properties.
- Students got the skills on the development of theoretical and computational methodologies, to model and study the behaviour of molecules.

## Photographs

Dr. R. Vijay Solomon, addressing the students about the computational chemistry through  
 Google meet on 12.03.2021

The screenshot shows a Google Meet interface with a presentation titled 'chapter 15.ppt - Adobe Reader'. The presentation content is as follows:

Formula	Name	Structure	pKa values
H <sub>3</sub> PO <sub>4</sub>	Triphosphoric acid		pKa(1) = 2.1, pKa(2) = 7.2, pKa(3) = 12.3
H <sub>2</sub> PO <sub>4</sub> <sup>-</sup>	Diphosphoric acid		pKa(1) = 6.9, pKa(2) = 1.4, pKa(3) = 7.2, pKa(4) = 8.2
HPO <sub>4</sub> <sup>2-</sup>	Triphosphoric acid		pKa(1) = 8, pKa(2) = 9.0, pKa(3) = 4.0, pKa(4) = 4.1, pKa(5) = 8.3

The presentation is being viewed in a window titled 'chapter 15.ppt - Adobe Reader'. The Google Meet interface shows a calendar on the right for December 2021, with the 31st highlighted. The bottom status bar shows the time as 12:58 AM on 1/3/2022, with a temperature of 29°C and 'Mostly sunny' weather.

#### **Report on “Two Days Science Academies’ Virtual Lecture Workshop on Current Trends in Chemical Biology and Drug Discovery”**

**Nature of the Event:** Workshop

**Title of the Event:** “Two Days Science Academies’ Virtual Lecture Workshop on Current Trends in Chemical Biology and Drug Discovery”

**Category:**

Research Methodology	Intellectual Property Rights	Skill development	Entrepreneur development
✓			

**Date of the event:** January 20-21, 2021

**Name and Designation (with Institution address) of Resource Person:**

- 1) Prof. Dr. Pennathur Gautam, Professor (Retd.), Centre for Biotechnology, Anna University, Chennai.
- 2) Dr. V. Subramanian, Chief Scientist, Inorganic & Physical Chemistry Division, CSIR-Central Leather Research Institute, Chennai.
- 3) Prof. R. Ramaraj, Professor of Eminence & DAE Raja Ramanna Fellow, (Professor & Head (Retd.), Dept. of Physical Chemistry), School of Chemistry, Madurai Kamaraj University, Madurai.
- 4) Prof. Raghavan Varadarajan, Professor of Molecular Biophysics Unit, Indian Institute of Science, Bangalore.
- 5) Prof. Dr.V. Rajendran, Professor and Principal, Dr.N.G.P Arts and Science College, Coimbatore.

**Number of Participants:**

115 Research scholars & PG students (Including Host Institution Post graduate students) and 52 Faculty members participated in the workshop.

## “Two Days Science Academies’ Virtual Lecture Workshop on Current Trends in Chemical Biology and Drug Discovery”

### Description of the event:

- The lectures were delivered on the topics - Modeling Proton Transfer, Principles of Molecular Modelling, Nanoscience and Nanotechnology, An Interdisciplinary Subject, Protein stabilization through high-throughput mutagenesis, Design of a Thermo tolerant COVID-19 vaccine, Nano Herbal Particles for Biomedical Applications, Protein ligand interaction and drug discovery.
- Dr. Prof. R. Ramaraj, Professor of Eminence & DAE Raja Ramanna Fellow Professor & Head (Retd.), Dept. of Physical Chemistry, School of Chemistry, Madurai Kamaraj University, Madurai-625021 was the convener and Dr. Gowri, Professor and Head, Department of Biochemistry, Dr. N.G.P Arts and Science College, Coimbatore was the coordinator of the workshop.
- A total of 8 lectures were delivered by resource persons. About 167 participants (Teachers, research scholars and PG students) from various colleges participated in the workshop.

### Outcome of the event

- The participants got aware of the research frontiers in the chemical biology and drug discovery
- The participants got an insight on the different interdisciplinary areas through the workshop
- The participants were able to understand the concepts of drug discovery and applications
- The participants were able to choose a research topic for the major projects in future

### **“e- Workshop on Introduction to ORIGIN and Basic Plotting”**

#### **Description of the event:**

The Department of Physics conducted a “e- Workshop on Introduction to ORIGIN and Basic Plotting” on 26.12.2020 through google meet. Dr. C. Selvakumar, Head, Department of Physics, welcomed the gathering and Dr. K. Girija, Assistant Professor introduced the resource person to the participants. The resource person was Dr. A. Venkata Ravindra, Assistant Professor, Department of Physics and Nanotechnology, Faculty of Engineering and Technology, SRM Institute of Science and Technology (SRMIST), Tamilnadu. ORIGIN software used to plot graphs for various spectroscopic techniques was discussed by the Dr. Ravindra stepwise. Students were able to understand how graphs can be plotted having the raw data. The training in ORIGIN software was useful to the participants.

#### **Outcomes of the event:**

- Students were able to understand type of graphs plotted using ORIGIN software.
- Students had exposure to the usage of various tool bars in the software.
- Students clarified their doubts regarding different ways of presenting the graph.

Approval is requested to conduct an e-Workshop on 26.12.2020 from 11.00 a.m. to 12 p.m. The resource person is **Dr. A. Venkata Ravindra**, Assistant Professor, Department of Physics and Nanotechnology, Faculty of Engineering and Technology, SRM Institute of Science and Technology (SRMIST), Tamilnadu. The e-Workshop is on the topic “**Introduction to ORIGIN and Basic Plotting**” through Google meet, for the benefit of our students.

Permission is also requested to provide certificate to the students participating the workshop.

**Types of Research**

- Research is divided into two general categories:
  - Basic research** is developing and increasing your scientific knowledge, and
  - Applied research** is an effort by using basic research for solving problems or developing new processes, products, or techniques.
- Research consists of three **steps**:
  - Pose a question,
  - collect data to answer the question, and
  - present your answer to the question

**The Most Important Part of Your Paper:  
The Introduction**

- The 1/3 – 2/3 Rule from a reviewer's perspective:
  - 1/3 time to read your introduction and make a decision
  - Remaining 2/3 time to find evidence for the decision
- A good introduction with a good motivation is half of your success! (from springer)**
- What to cover in the introduction
  - The research problem
  - The motivation of your research on the research problem
  - The claim of your contribution
  - A summary of your evidence to support your claim
  - The significance of your contribution
  - An outline of the rest of the paper.

### **“Webinar on One Dimensional Nanomaterials for Photocatalytic Application”**

#### **Description of the event:**

A Guest Lecture on “One Dimensional Nanomaterials for Photocatalytic Application” was organized by Department of Physics to help students to understand various materials used in the field of photocatalysis and different methods of synthesis to benefit M.Sc. and B.Sc. final year students.

- **Dr. D. Ranjith Kumar**, delivered lecture on various materials used in the field of photocatalysis and different methods of synthesis
- He was clearly enlightened synthesis and applications Photocatalytic materials.
- He explained the role of Photocatalytic materials in the development of nanoscience and technology
- The session was very effective to the students.

#### **Outcomes of the event:**

- Students were motivated towards emerging research areas in the Photocatalytic applications.
- All the participants comprehended one dimensional material for photocatalysis.
- Students understood the types and applications of photocatalytic materials.
- Students got the skills about Photocatalytic applications in the development of nanoscience and technology

Webinar 10.11.2020 (2020-11-09 at 22:43 GMT-8)

**Summary**

- An effective approach to obtain the VA uniform assembly of core shell based ZnO NR arrays with controlled shell wall thickness is presented.
- Optical absorption properties of metal sulphide -ZnO based heterostructures results the expanded absorbance towards visible region with improved defect states.
- Shell controlled heterostructures shows the enhanced visible photocatalytic property.
- Further insight into the work function are needed to understand the charge transfer mechanism between the ZnO and Metal sulphide based heterostructural arrays.

### **“Webinar on Block Chain Technology”**

#### **Preamble:**

A Block Chain is a tamper-evident, shared digital ledger that records transactions in a public or private peer-to-peer network. The Block Chain acts as a single source of truth, and members in a Block Chain network can view only those transactions that are relevant to them. The technique is intended to timestamp digital documents so that it's not possible to backdate them or temper them. The purpose of Block Chain is to solve the double records problem without the need of a central server. The Block Chain is used for the secure transfer of items like money, property, contracts, etc. without requiring a third-party intermediary like bank or government. Once a data is recorded inside a Block Chain, it is very difficult to change it.

#### **Description about the event:**

- Dr. Vanitha addressed about the Block Chain
- She explained the architecture of Block Chain and how the transaction works.
- She stated the need of Block Chain, and its variants.
- She also outlined the real-time use cases of Block Chain and its most popular applications.

#### **Outcome of the event:**

- Students understood how block chain systems (mainly Bitcoin and Ethereum) work
- All the participants learnt to securely interact with the networked transaction environment
- Students know to Design, build, and deploy smart contracts and distributed applications
- All the participants exposed towards integrating ideas from block chain technology into their own projects

### “Webinar on IoT with Android Applications”

#### Description of the event:

A Webinar on the topic IoT with Android Applications was organized by the department of Computer science on 25.09.2020 for the final year Undergraduate students. The resource person was Mr. G. Palanivelrajan, Senior Project Engineer, Pantech Solutions, Coimbatore.

- Resource person has discussed the application development using IoT and Android.
- The session was informative and students had an interactive session.

#### Outcomes of the event:

- Students were motivated towards emerging concepts in IoT
- A live demo on using the IoT devices have made the session interesting
- Students gained knowledge about the use of IoT with Android applications

### “Webinar on Project Design and Development”

#### Preamble:

A project design is a strategic organization of ideas, materials and processes for the purpose of achieving a goal. Project design is an early phase of the project where a project's key features, structure, criteria for success, and major deliverables are all planned out. The aim is to develop one or more designs that can be used to achieve the desired project goals. Mr.M.Sabarinathan, Executive Manager, Gateway Software Solutions felicitated the students.

#### Description about the event:

- Mr. M. Sabarinathan addressed how to plan a project design.
- He also discussed on various stages in developing a project.
- He explained the important phases of Software Development Life Cycle(SDLC)
- He has demonstrated many sample projects were UML diagram and other tools that support in design and analysis phase were displayed.

#### Outcome of the event:

- Students understood the need for undergoing project design using CASE tools.
- All the participants were exposed to various tactics to be followed while developing projects.
- Students identified the prototyping model and the different scenarios were each tool can be utilized.
- All the participants joined some free online courses related SDLC methodologies.

The image shows two screenshots of a Google Meet session. The presenter is Balaji Devarajan. The first slide, titled "Critical Vs Creative thinking", features a brain diagram with a green checkmark on the left (labeled "CRITICAL THINKING is for Science & Math") and a red X on the right (labeled "CREATIVE THINKING is for Arts & Humanities"). The second slide, titled "Balancing Left and Right brain", lists benefits of integrating both hemispheres: "An increase in overall mental health", "Enhancing cognitive performance", and "Better memory & intellectual functioning". It also states, "There are many techniques to achieve this balance". The meeting details on the right show 41 and then 42 participants.

### **“Webinar on OPPORTUNITIES FOR ENTREPRENEURSHIP”**

#### **Description of the Event:**

Mr. Narendra Kumar offered to enlighten the students on an interesting topic like opportunities for entrepreneurship in order to motivate the students. His main objective of the meeting was that he wanted to inculcate the thought in the minds of the students that entrepreneurship is not a dream. It is possible and can be made feasible if there is a willingness to work towards the goal.

He shared the success stories of several entrepreneurs who were able to come up in life after a long struggle. The planning strategy needs to be very strong and well decided. The funding is another aspect which is very difficult for most of the startups and hence they conclude that it is near to impossible to start a career as an entrepreneur without any financial assistance. However, there are various government fundings available which can be made use of for the development of skills. The government and several other NGO are readily available to help in the development of the projects or startups.

The students were highly enthusiastic in participation in the lecture and they noted down the contact details of the guest speaker so that they can interact with them at a later stage in life whenever they need any hand holding support. The student minds were instilled with the thought that there are ample opportunities for every individual if they want to start their career as entrepreneur. We need to tap the resources at the right time.

#### **Outcomes of the Event:**

- The students had not realized that the number of opportunities is ample for entrepreneurs. Thing big was the take home message for the students.
- We may not be a great entrepreneur today, however, in the long run, in the days to come; there is every possibility for them to develop into entrepreneur starting from simple to big

## “Webinar on GOOD STRATEGIES FOR PLANNING, WORKING AND VICTORY”

### Description of the Event:

Mr. Pradeep Ramkumar, the Managing Director of GK Brands agreed to deliver a lecture for the students on entrepreneurship and how to develop the minds of the young people to turn into future entrepreneurs. The talk highlights on good strategies and planning for any victory. He said that there was no success ever seen without the involvement of the individual and also that the people need to be focused.

Irrespective of the age, the individual needs to have positive vibrations and think positive so that victory will be the only target. The individuals stressed on the point that for any planning of the work, it is important to gather the spirit of planning. Be it the smallest work, it needs good planning for it to be done successfully. The work needs to be concentrated with full spirit and strategy has to be sketched out. The goals and objectives need to be placed in the forefront so that the vision and mission of any project can be met easily. This talk was an eye opener for all the students

### Outcomes of the Event:

- The outcome of the program was very overwhelming as the students made up their minds that entrepreneurship is all within themselves. They can develop their career as entrepreneurs in the near future provided they are guided with a mastermind.
- Handholding support is what the entrepreneur seeks in the beginning of the program. Eventually, they are felt lost and as they start working, they have a positive thought that they can achieve their goals.

Dear Sir,

Sub: Guest Speaker- Guest Lecture- Invitation-Reg.

Greetings from Dr. N.G.P. Arts and Science College.

DRNGPASC is committed and marching ahead in imparting disciplined quality higher education. The college holds great foresight with the visionary Management Dr. Nalla. G. Palaniswami as Chairman, Dr. Thavamani D Palaniswami as Secretary, with the dedicated team of faculty fraternity steered by Team Leader / Principal Prof. Dr. V. Rajendran.

The College has been conferred autonomous status by University Grants Commission, New Delhi and accredited by NAAC with "A" Grade (2<sup>nd</sup> Cycle) during the year 2015-16. The science departments of our institutions are recognized under DBT-STAR Scheme and DBT Cluster Institution. In addition, Dr. NGPASC is recognized as a member of National Rural Entrepreneurship Mission by Mahatma Gandhi National Council of Rural Education, MoE, and GoI.

The Institution has made constant achievement in National Institutional Ranking Framework (NIRF) of MHRD by securing 85<sup>th</sup>, 67<sup>th</sup>, 91<sup>st</sup> and 44<sup>th</sup> rank respectively in the year 2020, 2019, 2018 and 2017. The Institution has secured Rank B and-B within top 50 and 100 institutions in ARIIA 2020 and 2019 respectively and three-star rating by MHRD's Institution Innovation Council (IIC) for the year 2019.

The institution offers 31 UG, 14 PG and 12 Research programmes. To bestow knowledge in new emerging areas, IIPC organizes Guest Lecture regularly. In this regard, we are honored to invite you as a speaker for the Guest Lecture organized by the IIPC of our college on 10<sup>th</sup> June 2021.

Thank you in advance for your consideration, and we very much look forward to hear from you.

Thanking you,

Yours sincerely,

**Prof. Dr. V. RAJENDRAN**

## “Webinar on ENTREPRENEUR MINDSET AND SKILLS”

### Description of the Event:

Ms. Rajani Raman is a dietician who tried to relate that mind and food are very closely interlinked. She addressed that saying that you are what you eat. This clearly indicated that the food is what makes us think in different dimensions. Healthy food is very essential for the body and good metabolism and betterment of the life. However, in today’s world most of the people are known to skill their meals thinking they are doing a great job by working even during their eating hours. There cannot be a greater irony than this is what was stated by the speaker. She addressed the gathering by indicating the importance of a balanced meal. Every meal need not be rich, but it is very essential to have a balanced meal.

A good meal leads to healthy mind and this motivates the individuals to eat good food. The skills which are developed by the individuals must be important since it helps for an overall development of the individuals. The way the students think is what leads them to become better individuals and also to be more skillful is what she stressed.

Ms. Ranjini set examples of many individuals who were able to work and think effectively after a good meal and how the mind works when served with balanced diet. Hence, she concluded the talk by insisting the students that daily 3 good meals can keep us healthy and keep the doctor away. Good food is medicine for a healthy life. She gave a quote saying that eat like a king in the morning and eat like a prince in the afternoon and finally eat like a beggar at night so that you can remain healthy all your life.

### Outcomes of the Event:

- The students found the session to be an eye opener since it has elaborate discussion of food for thought. The mind is considered to work much better and function at a better frequency with food was the conclusion.
- There were many students who never felt the need for breakfast who rushed out of their houses each morning either to work or earn. It was a great learning to all of them since the guest stressed on the point that food is the most vital component for any life on earth for better quality of life.

### **“Webinar on PASSION AND SELF CONFIDENCE”**

#### **Description of the event:**

Ms. Arthi Raghuram is a highly challenging, enthusiastic young lady who hails from an ordinary family and developed a passion for business which later became a stepping stone of success for her as her career in entrepreneurship. She loves to talk to people and teach them how to make this as a career.

Ms.Arthi spent long hours in explaining the students about how important to have self confidence in oneself before venturing into any kind of deal. In the daily life also, even as a student, it is very essential to maintain self confidence in oneself so that there is more vibrant energy in the work we do. She emphasized that working in any field without passion will not yield great benefit and it is highly essential to be motivated by oneself. Getting motivated from external sources may not help the students in the long run. She also suggested reading good books and listening to motivational talks very often to keep the enthusiasm in high spirits which is very important for any individual.

The students were thrilled by the talk which was delivered and indeed interacted with the guest for a long time getting to know more about the ups and downs in the career path which may not be always rosy as she stated. To fall and rise again is the challenge of entrepreneurs is what she said.

#### **Outcomes of the event:**

- The outcome of the webinar was that some of the students from lower social economic backgrounds understood that money has nothing to do with turning oneself into entrepreneur. It is the hard work and passion which we develop in order to reach higher.
- The students understood that entrepreneurship need not always be a steady and take it for granted. There may be downfalls which we need to manage and keep up the tempo to great heights at all times. The path of entrepreneurship is never smooth but at last it helps to reach heights in life was the lesson.

## “Webinar on Fueling Entrepreneurship Journey”

### Description about the program:

The Department of Master of Hospital Administration organised a lecture on 08/06/2021 Mrs.K.N.Priya, Assistant Professor of Sri Ramachandra Institute of Higher Education and Research gave a wonderful speech on Fueling Entrepreneurship Journey at 10 am. Dr.V.Uma, Head of the Department welcomed the entire crowd in this online session. Mrs.K.N.Priya emphasized the series of entrepreneur’s autonomous, innovative and improvised actions throughout the entrepreneurial process will consist in the entrepreneurial journey. This journey will be viewed as a combination of volitional and emergent process of transforming potentiality in to actuality in the minds of students.

The entrepreneurial process of new business creation starts when a business opportunity is discovered or created by nascent entrepreneurs. The series of entrepreneurs' autonomous, innovative, and improvised actions throughout the entrepreneurial process will consist the entrepreneurial journey. A Webinar on Fueling Entrepreneurship Journey has been organized on 08/06/2021.

### Outcome of the Event:

Enable the student to explore and discover their potential for entrepreneurship as a career choice and to find other ways to earn an income.

### “Webinar on ETHICS AND MYTHS IN STARTUPS”

#### Description of the event:

A webinar on “Ethics and Myths in Startups” was organized by the Entrepreneur Development Cell (EDC) on 7<sup>th</sup> June 2021 (Monday) at 2.00 p.m. through Google meet, Mr .V. Bharathi, Managing Director Sree Guru Garments, Gobi was the invited spokesperson, a well experienced person in Textile business. He started his presentation by telling his alma matters and his career. He motivated the students by telling a realistic story on Mind set and Ethics. His presentation was mainly based on Business Ethics and Myth. He explained the uses and benefits of Promotion and he gave ideas about commitments and business plan and he added that how an entrepreneur has to behave in business sectors.

He also stated the real life experience with business. His quotes were “Comparison makes the best Business man” and “A Great Success is Starting”. And he explained about the “Comfort zone”. He mentioned the concepts of making changes in business plan for that he told about Mr. Rangaraj Pande’s speech as an example and explained the value for efforts and money.

According to him he said “The main motive of the Business man is to earn money, but anybody can earn money even a small person can earn money and the richest person can earn money but the thing always depends on the value of the Ethics they follow”. At last he left the session for the students’ questions and interaction, many asked and they got clarified.

#### Outcomes of the event:

- The young entrepreneur has enlightened the students that at a young age people can become successful entrepreneurs and take up successful career in future.
- The talk delivered was so interesting that the students requested for a visit to the site and the guest readily agreed to entertain the students to his site in the near future.

### **Webinar on INTRODUCTION TO BUSINESS MODELS”**

#### **Description of the event:**

A webinar on “Introduction to Business Models” was organized by Entrepreneur Development Cell (EDC) on 5th June 2021 at 2:00 p.m. through Google Meet, Mr. N. Charath Chandar, Co Founder Max CADD – Coimbatore was the spokesperson.

He talked about the importance of entrepreneurship and its necessity, the ways to overcome risks relevant to the present phenomenon. He mainly focused on the Business Models and its Blocks. Besides, he stated that Why do we need to start our own business? and what are the consequences have to be managed in different contexts.

Accordingly he gave a detailed explanation and definition on the traits of businessman and entrepreneur. Then, he discussed how to conceptualize and to find the problems and solutions. In view of this, he stated more real life cases like; Netflix and Blockbuster, Swiggy & Zomato, Truck Taxi, etc. Finally answered the questions were asked by the students. The students got good exposure on this topic and they gave good feedback at the end of the session.

#### **Outcomes of the event:**

- The students gathered an insight into the business model and how to develop a model. It was interesting for the students as it was a hands on experience session where lot of mental exercises were done by the participants.
- The participants learned the importance of a business model before it was implemented.

### “Webinar on SUCCESSFUL CAREER AFTER COLLEGE”

#### Description of the event:

Mr. Challiyal was an enthusiastic speaker who came to highlight the gathering on an interesting topic. He said, you just graduated from college and are now facing the ultimate dilemma: What's next? Well, rest assured as you are not alone; almost 80% of fresh graduates are confused about what to do after graduation. The decision you make after graduating college is crucial for both your career and your growth. There are a variety of options available on what to do after graduation. So, it's important for you to do your research. At this time, you might be wondering if you should take a job or go for higher studies or go all in and be self-employed and create your own startup. It is absolutely normal to have such kind of questions, and, therefore, it's time to do some introspection. To help you with that, we are here to enlighten you on the different paths available after you complete your graduation. The event was getting more interesting as the students were thrilled to dream about their future on the basis of how they are going to meet their daily bread and butter in the days to come.

#### Outcomes of the event:

- The students suddenly saw a ray of hope at the end of their graduation.
- They were sure that each one could take up entrepreneurship as a career in future and not left jobless.
- It is better to be a job provider than a job seeker.

### “Webinar on “Job roles and Skill requirement in Food Industry””

#### Description of the event:

Our department has organized a webinar on ‘Job roles and skill requirement in food industry’ by Prabhu Gandhi Kumar, Founder &CEO, TABP Snack and Beverages, Coimbatore, a Resource Person for Undergraduate and Post Graduate students of Food Science and Nutrition.

- The speaker explained about the importance of physio-chemical parameters to be assessed in beverages
- He taught about the importance of Food license, Cost and labeling technique

#### Resource person Profile:

#### THE VISIONARY, SMART, FRUGAL ENTREPRENEUR

**PRABHU GANDHIKUMAR - FOUNDER & CEO, TABP SNACKS AND BEVERAGES**

If “Small Is The New Big”, then who better than Prabhu Gandhikumar can be an epitome of this. It takes courage, decisiveness, commitment and a rock-solid plan, yet remaining nimble. This squarely sums up Prabhu Gandhikumar, the smart frugal entrepreneur and founder of TABP Snacks and Beverages.

Prabhu’s B.E in Mechanical Engineering from PSG College of Technology, Coimbatore, took him beyond the shores of India to Greater Atlanta area where he held various positions ranging from Program Manager to Portfolio Manager to Windows Deployment Manager to Retail Consultant in organizations like Tata Consultancy Services and The Home Depot. Prabhu’s stint in the USA helped him hone his skills in Capital allocation, Negotiation, Operations Management, Retail, Customer Relationship Management (CRM), Team Building and business development. Returning to India in 2012, Prabhu founded Neocast, a foundry to produce metal castings. However, Prabhu’s interest in the legacy business of foundries soon started dwindling. Food processing caught his attention and in particular fruit juices seemed like an interesting market.

It wasn’t as if there weren’t enough fruit juice makers. Scanning the market, Prabhu was quick to spot the gap – Rs. 10 MRP product for 200 ml. That was the magic figure. With a clear blueprint for what he wants to achieve, Prabhu gave wings to TABP Snacks and Beverages in 2015. After all the groundwork in 2015, the first batch of products rolled out in March 2016 and was an instant hit among the target segment – those at the bottom of the pyramid.

A well thought out distributor strategy has now made TABP stand out in many parts of South India. “The distributors who joined us in 2016 haven’t left us. That is our big strength. We have also been able to give good quality products and maintain it. We keep getting repeat orders,” quips Prabhu Gandhikumar.

With the beverages and snacks business running like a well-oiled engine, Prabhu has now set his eyes on the growing segment of nutrition-conscious and healthy eaters with a range of products. It is a matter of time before TABP’s portfolio will have something for everybody

### **Webinar on “Sustainable Living with Technology”**

#### **Description of the event:**

Department of Biotechnology 6y under IIPC Elite Talk - Bioface conducted a Virtual Invited Lecture on Sustainable Living with technology on May 05, 2021. The event began with a formal welcome beginning of presenting a welcome note by the students followed by the guest introduction. The audiences were UG and PG Students of Department of Biotechnology.

In the venture to achieve the requisite, the Dept .of Biotechnology conducted a Virtual Invited Lecture on An Insight into Cancer — A Riveting Disease on .31/05/2021 (Monday) through the way of Google Meet (<https://meet.google.com/uat-fklih-fbp>). The lecture was delivered by Mr. Naveen Ganesan, Serial Entrepreneur, Innovator, Technologist, Influencer. The program was inaugurated in the absence of the Principal, Dr.V.Rajendran Dr. N.G.P. Arts and Science College, Coimbatore. They motivated the students to take a precautionary measure for cancer.

The purpose of this virtual lecture is to create awareness among the students on Technology has been the driving force of civilization as we know. Earlier, technologies used to be small in scale, responsive to local skills and needs. These evolved slowly over a long period of time and catered to the local needs. Today, the technologies have grown in scale with high production rates, consuming large quantities of energy and resources, requiring large capital and highly-skilled manpower. The high production rate, consuming large quantities of natural resources has been damaging the ecosystem by indiscriminate extraction and the resulting environmental degradation. It is clear that present mode of production is unsustainable and damaging to the society. For example, ill effects of pesticides and fertilizers used in agriculture, have now become the concern of all. Hence, there is need to consider alternative ways of meeting our needs without damaging our ecosystems. Finally he motivated the student participants and concluded successfully with active participation of students from Department of Biotechnology. Valediction function was end of the event.

### “Seminar on Transition from Industry 4.0 to Industry 5.0”

#### Description about the program:

The Description of Industry 4.0 is to interconnect machines, processes and systems for maximum performance optimization. Industry 5.0 takes such efficiency and productivity a step further. It's about refining the collaborative interactions between humans and machines. However, a word of caution is that a proliferation of buzz words, such as Industry 4.0+, Industry 4.5 and even Industry 6.0 and Industry 7.0 in a not-too-distant future, this should be addressed to the students.

#### Outcome of the event:

- This seminar will create spark and encourage further on the topic
- It will augment an in depth discussion to step forward to owe a industry in future
- This program will motivate the students to start their entrepreneurial debut

## “WEBINAR ON FINANCIAL DISCIPLINE FOR ENTREPRENEURIAL SUCCESS”

### Description of the event:

Dr. S. Jeyakumar started the session as the role of entrepreneur was an emotional ride filled with ups and downs, joys and disappointments. He covers the financial guide lines for entrepreneur as having the right mindset, avoid using personal accounts as corporate accounts, develop the high selling skill, take inventory with right quantity, query the expenses, diversify the income and create a well defined structure.

➤ He also insists about the start up details, availing loan facilities from various financial institutions and more successful case studies.

➤ He highlighted the struggles faced by the entrepreneurs in the pandemic situation and guided us to overcome from this situation.

➤ The session was very interactive and the resource person cleared the doubts raised by the participants of the session.

## Report on “Finding a New Venture”

### Description of the event:

Guest Lecture on **Elite Talk – VANIGHA VALAGHAM** on the topic “**Finding a new Venture**”, was organized by Department of Commerce Banking and Insurance , Finance Professional Accounting and Accounting & Taxation on 30.04.2021 through Google meet . to help students to understand the The term startup refers to a company in the first stages of operations. Startups are founded by one or more entrepreneurs who want to develop a product or service for which they believe there is demand. These companies generally start with high costs and limited revenue, which is why they look for capital from a variety of sources such as venture capitalists..He point out the Startups come with high risk as failure is very possible but they can also be very unique places to work with great benefits, a focus on innovation, and great opportunities to learn. At the end of the secession, he clarified the queries asked by the students. It's very informative secession the secession was very useful and all the students were benefited.

### Outcome of the Event:

- Students can understand the function of the Business in the successful, commercial application of innovations
- Explore entrepreneurial leadership and management style and confirm an entrepreneurial business idea
- Understanding the stages of the entrepreneurial process and the resources needed for the successful development of entrepreneurial ventures

## Report on “Webinar on Strategies for Attaining placement in IT Sectors”

### Preamble:

Due to this unprecedented COVID-19 pandemic, students are experiencing various sudden changes in the placement and recruitment process scenario. In particular, the colleges are physically closed for more than 6 months, institutes and the companies are joining hands to conduct virtual placement drives and students are finding it difficult to easily adapt these changes. On account of this, Dr. M. Kannan, Assistant Professor, Department of Computer Science and Application from SCSVMV University, Kancheepuram has been invited to give a seminar on strategies for attaining placement in IT sectors.

### Description of the event:

- Dr. M. Kannan started the session with impact of pandemic in this current situation and on job opportunities like work from home.
- He also discussed about the basics of getting trained for interview process like aptitude, technical and group discussions.
- He has also highlighted on top ranking companies and their requirements.
- Advised students to get more focused on updated programming languages like python, R Programming, JQuery, React JS etc.,
- Finally, given some tips on performing well in face to face discussions and on body language.

### Outcomes of the event:

- All the participants were exposed to various strategies to be followed for attaining placement in IT Sectors.
- Students were able to identify the top-ranking companies and their job requirements.
- Students were motivated to build good attitude and behavior towards attending face to face interviews.
- Students were exposed on latest technologies and their demand in job market.

## “Seminar on “Draft a Business Plan”

### Preamble:

A business plan is a written description of your business's future. That's all there is to it--a document that describes what you plan to do and how you plan to do it. If you jot down a paragraph on the back of an envelope describing your business strategy, you've written a plan, or at least the germ of a plan..Aguest lecture on has been organized on 05.03.2021Mr.R.Chairman Selvam Proprietor Sei Athiram Areca Leaf Product Coimbatore as a resource person.

### Description of the Event:

A business plan is a written document that describes in detail how a business—usually a startup—defines its objectives and how it is to go about achieving its goals. A business plan lays out a written roadmap for the firm from marketing, financial, and operational standpoints

### Outcome of the Event

The students will get to know the following through this seminar

- A new sales target
- A customer retention objective
- An efficiency target

## “SELF-MADE TAMIL NADU - ENTREPRENEURSHIP RALLY”

### Description of the Event:

The Dr. NGP Arts and Science College, Coimbatore in collaboration with Business Connect International, Coimbatore organized for the rally on entrepreneurship named as Self made Tamil Nadu which would assist people to make things on their own and not to buy from outside. Most of the indigenous products will be made in India and sold within the country. The name of the rally depicts the objective of the rally.

It says self made India which clearly indicates that how to make India a self sustainable country is the motto of the program. Around 150 students participated in this program and gave a very positive feedback that continuously such program s are needed for brainstorming the young generation. Some of the students indeed wanted another continuation of the first session as phase 2 which could not be done at the same time.

### .Outcomes of the Event:

- The target of the program was achieved as it tried to inculcate the interest of entrepreneurship in the students.
- Several staff also took part and made an impact in their lives as they have taken up entrepreneurship as their career.
- The students were thrilled with this rally and wanted more in the forthcoming months since they were free to think and act in terms of entrepreneurship.

## Report on “Future Applications and Tools in Business Analytics”

### Description of the event:

This lecture was delivered by Mr.B.Baktha Kumar, Managing director, Phonex IT services, Chennai. The speaker gave advice to study SQL. He quoted the NoSQL with python language to excel analytics field and discussed about history of data storage in ancient days. He discussed about robotic process automation (RPA) and chatbot (is an artificial intelligence (AI) software). He encouraged the students to learn the programming languages. It was an interactive session where students asked doubts. We got an opportunity to gain knowledge on business innovation and also to clear their doubts by an expert. At the end of the session the student's queries were clarified.

### Outcomes of the event:

**By the end of the seminar, the students will be able to**

- Gain the importance of studying SQL.
- Motivated towards the learning of NoSQL with python language to excel analytics field and also about robotic process automation (RPA) and chat bot (is artificial intelligence (AI) software).
- Encouraged to learn the programming languages and will get an opportunity to gain knowledge on business innovation.

## **WORKSHOP ON “RURAL ENTREPRENEURSHIP DEVELOPMENT”**

### **Description of the Event:**

Dr. NGP Arts and Science College in association with Mahatma Gandhi National Council for Rural Education (MGNCRE) workshop was conducted on 14.10.2020. This workshop was purely based on the entrepreneurial needs of the students and hand holding support for the beginners. The council targeted on the village or rural population which was not aware of the EDC program and did not know about the various facilities provided by the cell for the villagers. Any private agency is welcome to join the MGNRE in order to conduct any sort of program for the upliftment of the rural population. The objective of the workshop was to bridge the gap between the EDC and the rural public who were not aware of the facts as to how the Govt. would enable and provide support to the people to probe into the Entrepreneurship concept rather than look for the job seeking aspects. The motto of this workshop was that, the people should learn to become job providers than job seekers such that more and more job opportunities can be provided at the national level which would strike a balance between the people and also develop a very healthy economy.

### **Outcomes of the Event:**

- The workshop was a 1 day program which gained excellent attention from students of various faculty
- More than 90 students turned up for the program that showed keen interest in how to bring up their career in the path of entrepreneurship.
- Objective of the program was met as they inculcated the thought of job providers than job seekers in the entire nation.
- This workshop was attended by more than 10 staff also who shared a positive feedback as this is the first of its kind workshop

### **“Webinar on DEEKSHARAMBH STUDENT INDUCTION PROGRAM 2020-21”**

#### **Description of the Event:**

The Government of India initiative on fresher’s program called Deeksharambh Student Induction Program was planned during the academic year 2020-21 from 25.08.2020 to 08.09.2020. The program was targeted by making the students aware of the different dimensions of the college and also to bridge the gap between the higher secondary school and the college or university. All the freshers were the participants of the program who belong to various faculties. It was a 2 weeks’ long program where the students were made to know about the different dimensions in which the college or university functions and the various activities involved. This would enable the students to get acclimatized to the various facilities and amenities that are provided by the institution. The students get introduced to the working of the institution, the hierarchy and the various aspects of the college. The courses and the curriculum are also introduced to the students such that they can decide as to which subject to choose for their higher education, what languages, which elective papers to choose etc.

The students are introducing to all the department staff and other staff who they would come across in the forthcoming semesters. This makes life easy for the students and more comfortable for them. This initiative by the Government of India has been successful across the country and at our institution there was tremendous interest shown by staff and students. More than 1500 students participated in this 15-days long program and there were many staff involved. However, from the EDC more than 11 staff contributed to this program.

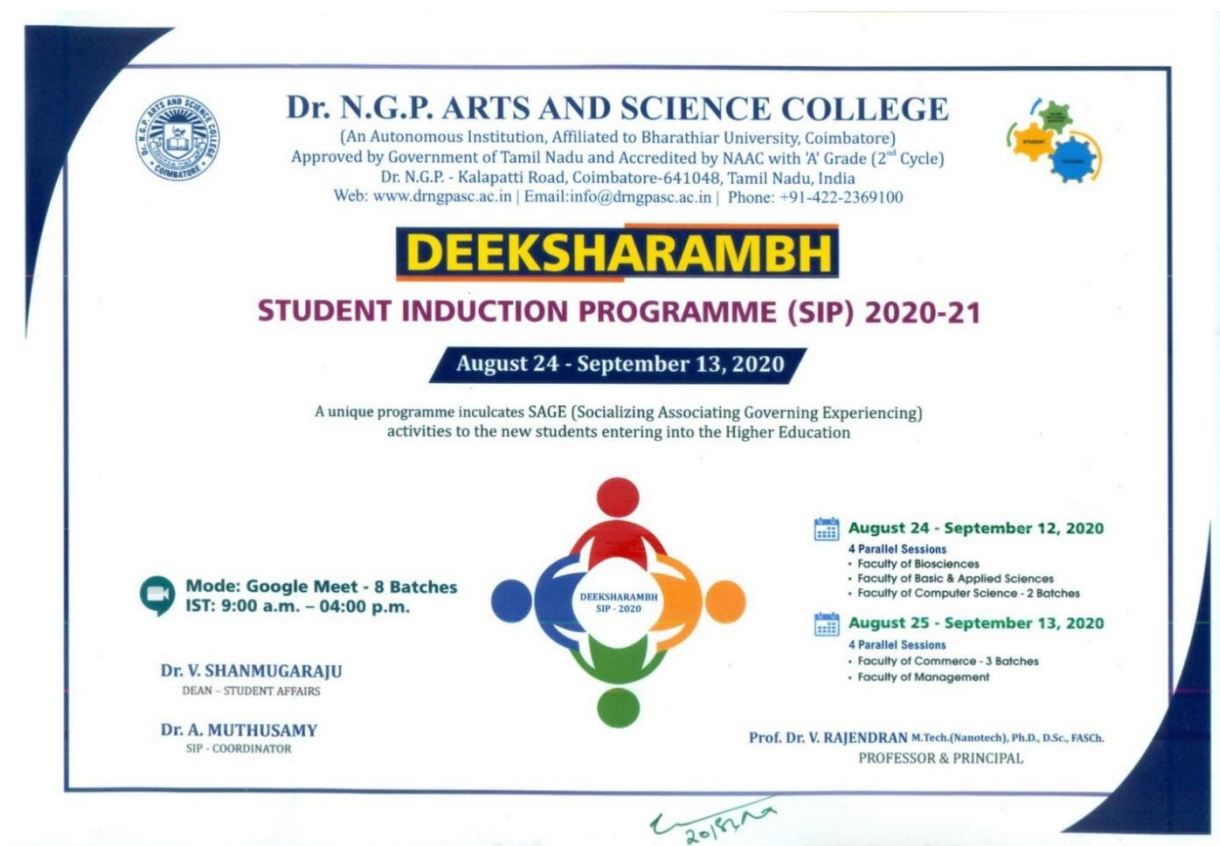

#### **Outcomes of the Event:**

- The outcome of this Deeksharambh Program was to educate the students on the different dimensions and various amenities available for the students.
- More than 1500 students participated and 11 staff made the program successful for the students by introducing the EDC concepts to the students.

**DEEKSHARAMBH**  
**STUDENT INDUCTION PROGRAMME (SIP) 2020-21**  
**August 24 - September 13, 2020**

A unique programme inculcates SAGE (Socializing Associating Governing Experiencing) activities to the new students entering into the Higher Education

**Mode: Google Meet - 8 Batches**  
**IST: 9:00 a.m. – 04:00 p.m.**

**Dr. V. SHANMUGARAJU**  
 DEAN - STUDENT AFFAIRS

**Dr. A. MUTHUSAMY**  
 SIP - COORDINATOR

**DEEKSHARAMBH SIP - 2020**

**August 24 - September 12, 2020**  
 4 Parallel Sessions  
 • Faculty of Biosciences  
 • Faculty of Basic & Applied Sciences  
 • Faculty of Computer Science - 2 Batches

**August 25 - September 13, 2020**  
 4 Parallel Sessions  
 • Faculty of Commerce - 3 Batches  
 • Faculty of Management

**Prof. Dr. V. RAJENDRAN** M.Tech.(Nanotech), Ph.D., D.Sc., FASCH.  
 PROFESSOR & PRINCIPAL

*20/8/20*

### Outcome from Beneficiaries/ Students:

- The students developed an idea about the different activities which are carried out in the college campus.
- The students gathered skills as to how to develop an entrepreneur skill in future.
- The elaborate program on Student Induction developed confidence in the students.

### “Webinar on Supramolecular Devices”

#### Description of the event:

A Guest Lecture on “Supramolecular Devices” was organized by Department of Chemistry to help students to understand the Synthesis, Importance and applications of Supramolecular Devices to benefit M.Sc. and B.Sc. final year students.

- **Dr. K. Balasubramani**, delivered lecture on importance and the types of the Supramolecular Devices
- He was clearly enlightened synthesis and applications Supramolecular Devices.
- He explained the role of supramolecular chemistry in the development of nanoscience and technology
- The session was very effective to the students.

#### Outcomes of the event:

- Students were motivated towards emerging research areas in the supramolecular chemistry
- All the participants were comprehending construction of the supramolecular devices
- Students were understanding the types and applications of supramolecular devices
- Students got the skills about supramolecular chemistry in the development of nanoscience and technology

Dr.K.Balasubramani, addressing the students about the supramolecular devices through google meet on 15.12.2021

The screenshot shows a Google Meet interface with a presentation slide titled "1) Molecular photonic devices :". The slide contains two diagrams illustrating the process of dimer naphthalene formation and its emission. The first diagram shows naphthalene molecules and guest molecules, with text stating "Dimer naphthalene formation results in stronger emission" and "Inclusion of a guest inside the cavity of a cyclodextrin induces light emission". The second diagram shows a crown ether molecule with a potassium ion (K<sup>+</sup>) inside, with text stating "(Photon-induced Electron Transfer).", "Quenching", "Photo-Induced Electron Transfer", and "Light emission upon the binding of a potassium ion to a crown ether". The Meet interface shows Dr. Balasubramani Kasthuri as the presenter, and a list of participants on the right.

The screenshot shows a Google Meet interface with a presentation slide titled "SWITCHING DEVICES". The slide contains text explaining that an electrical switch is used for regulating electron flow (current), and that certain supramolecules mimic this electric switch, known as Molecular Switches. It lists two types of molecular switches: "1) photoregulated molecular switch" and "2) chemically controlled molecular switch". The Meet interface shows Dr. Balasubramani Kasthuri as the presenter, and a list of participants on the right.

### Description about the program:

Resource Person: Dr. M. Vivck Prabu, Assistant Professor, Department of Mathematics, Kongunadu Arts and Science College, Coimbatore.

His lecture was about Python. He clearly explained who invented the Python and even its uses. We also came to know that Python also involves mathematics in it, in which he also told that Python is a boon for mathematics students as it is very comfortable for them to understand.

He also briefly explained about different types of standard data that Python consists and other math module functions that are being used in the Python to formulate a Program.

Finally he encouraged us to practice Python Programming and gave a clear concept about what Python is and made us understand it in a very easy way.

He has cleared the doubts regarding the complex number system and provided several applications of complex plane and explained opportunities available in the society for mathematical science students.

### Outcome of the Event:

The students have learnt the fundamental concepts of python programming.

- Learnt on the python tools
- Understood the various data types, variables and modules in python
- Practiced in writing python scripts by making use of control structures.
- The students have hands on experience in handling the programs with the help of functions and how they have created
- Learnt the creation of interface design using the python programming languages.

## “Workshop on Phytopharmacology”

### Preamble:

Antioxidants are of great importance in terms of reducing oxidative stress that is thought to cause damage to biological molecules. Several studies have described the antioxidant properties of medicinal plants rich in phenolic compounds. A workshop on Workshop on Phytopharmacology has been organized on 22.10.2021 & 23.10.2021. Dr. Dhana Rangesh Kumar V, Assistant Professor and Dr. D. Pradeepa Assistant Professor, Department of Biochemistry, of our college served as a Resource Person.

### Description about the program:

- Biozenith Association of Department of Biochemistry under DBT Star College Scheme conducted an Interdepartmental Workshop on **Workshop on Phytopharmacology** on 22.10.2021 & 23.10.2021.
- The workshop was organised by Dr.V.Dhana Rangesh Kumar, Assistant Professor and Dr. D. Pradeepa Assistant Professor, Department of Biochemistry, Dr. N. G. P. Arts and Science College. It was very beneficial for the students to learn more about the basic of Free radicals scavenging.
- The students of Faculty of Biosciences were tremendously participated in this workshop.
- The session was very much informative and made lively to the students. The workshop was an important aspect to be known and learnt on the topic Free Radical Scavenging Assay.

### OUTCOME

- Students are all came know about workshop in Phytopharmacology.
- Explain to our students how to do free radical scavenging.
- The workshop was an important aspect to be known and learnt on the topic Free Radical Scavenging Assay.

### Objective:

- The main purpose of the workshop is to understand the complexity of herbal drug extraction, isolation and analysis and find out the appropriate and scientific solution for the same.
- The workshop helps the faculty to train their students to understand the science of plant constituents and develop technology for isolation of commercially important phytoconstituents.
- This will further help the Herbal/Ayurvedic Industry to grow faster and gain more recognition worldwide.
- This workshop will help to orient Pharmacognosy more towards technology and relevant to industry.

### **“Machine Learning and AI Demystified”**

Department of Computer Science with Data Analytics conducted a webinar Session on the topic Machine Learning and AI Demystified on 25th September, 2021. Mr. Prashanth. R, (Sr. Data Engineer) from Gerald Technologies, New York was the honorary guest lecturer. Students from I ,II & III UG and II PG of CS with DA department participated in the session. The lecture was coordinated by Prof. Dr. Sountharaj A. C, who introduced the guest followed by welcome speech from a fellow student. The lecture was interesting from the very beginning, the students found it highly comprehensible.

Mr. Prashanth’s amiable approach with the students and triggered them to be more interactive. His thorough demonstration on each point with real time examples was well appreciated. The session ended with a steaming query session and followed by vote of thanks.

The overall takeaway from the guest lecture was very inspiring and motivated the students to learn more about AI and its abundant horizon.

#### **Outcome of the Event**

- The students can be able to understand the importance and usage of Machine Learning in today’s world
- They can understand the implementation of Real time examples
- They can analyze the results of each programming Techniques learned

**FEEDBACK OF THE PROGRAMME**

The session was very useful.  
 It was neatly explained. The idea of usage  
 of whole flour and brown rice was very innovative.  
 This session helped us in knowing the mechanism  
 of Pasta making machine and to prepare healthy  
 Pasta with shapes which we prefer. Overall the  
 session was excellent

No remarks so far

It was wonderful session.

Other than suggestions, as a student who really already wanted to go for group exams, this lecture actually weighed with a lot of needed informations. Thanks to the respective organisers!

### “Webinar on Challenges in Interviews”

#### Description of the event:

- The alumni were Ms. R Katrina a passed student of 2020 batch. She enlightened on the challenges in interview. The session was fully on how to face and handle themselves during an interview.
- It was a fun and interactive session where many questions were out and the right solution were given for each and every doubts.
- The biggest challenge during interviews and the ways the face them were all disused and clarified. Interviewers will approach this problem in one of two ways. They might ask you to reflect on what you think are the most challenging aspects of the job.
- . One of the reasons for these tough, strange or unexpected questions, experts say, is to gauge the job candidate's critical thinking and reasoning skills.

### “Webinar on Green Computing 5G Cellular Networks”

#### Description about the program:

In this seminar, a brief survey on green 5G cellular networks, and exploration of some research issues and challenges of the enabling techniques for green broadband wireless networks. The trend of achieving green power in cellular networks is driving network operators and standardization authorities to work together to reduce carbon footprint of their products in order to bring eco-friendly 5G green radio cellular base stations. An overview on 5G wireless system architecture and the corresponding new protocol stacks. Next, hybrid multiple access schemes, such as combining orthogonal (OFDMA) and non-orthogonal (CDMA) approaches, aiming at improving the both capacity and coverage performances simultaneously are discussed. Since base stations consume the maximum portion of the total energy in current cellular systems, we explore important renewable energy techniques for green base stations; it will provide a comprehensive survey on how to generate renewable energy, such as solar, wind and fuel cells, for green base stations in 5G green cellular networks.

#### Outcome of the event:

- In this webinar, the speaker suggested applying AI to cellular networks which creates the initial intelligence among the students about emerging aspects of 5G cellular networks, including radio resource management, mobility management, and general management and orchestration, and service provisioning management.
- Following such intelligence, we argued it is still essential to bring more AI functionalities to 5G cellular networks by envisioning several prospective opportunities and listing some potential challenges.
- Finally, it will be useful to students on how to obtain greener 5G cellular networks and the thrilling effectiveness of AI.
- The seminar created awareness about the 5G cellular networks will successfully enter the central stage of a digitalized world.

### “Seminar on Network Data Analytics”

Department of Computer Science with Data Analytics invited the guest Lecture and organized a Guest Lecture on the topic “Network Data Analysis” on 05.06.2021. The Guest Lecture was felicitated by our Head of the Department Ms. Mary Magdalene Jane. The program vividly provided an enlightenment on Network Data Analytics. They had a discussion on the Network Layers, and programming languages used to sequence, assemble, and analyze the structure and function of Networking. The session had ended with the clear perceptive about the Docking techniques and Types of Network Data.

### Outcome of the Event

- The students can be able to understand different Network Layers
- They can analyze the Network Traffic Data techniques in different platforms
- They can analyze the results of each data transition over Network Layers

### “Webinar on Improvement of Mental Health in COVID-19”

#### Description about the program:

The current article is a narrative review of the existing literature on mental health symptoms and interventions relevant to the COVID-19 pandemic. A search of the PubMed electronic database was undertaken using the search terms “novel coronavirus”, “COVID-19”, “nCoV”, “mental health”, “psychiatry”, “psychology”, “anxiety”, “depression” and “stress” in various permutations and combinations. A total of 47 citations were retrieved using this method. On reviewing the above citations, 19 articles were excluded: 3 because they were available only in the Chinese language, and 16 because they dealt with other aspects of the COVID-19 outbreak, such as drug therapy, animal models, public health and preventive measures, and organization of health care systems. A careful review of these 16 articles revealed no material relevant to mental health.

### Outcome of the event:

Further, there is a need to develop mental health interventions which are time-limited, culturally sensitive, and can be taught to healthcare workers and volunteers. Once developed, such interventions should be tested, so that information regarding effective therapeutic strategies can be widely disseminated among those working in this field.

## “Webinar on Errors and rectification in commercial communication”

### Description of the event:

- The secession was held by S.V.K Deepika Priya, she told about the errors and rectification in commercial communication.
- The biggest challenge during interviews and the ways the face them were all disused and clarified. Interviewers will approach this problem in one of two ways. They might ask you to reflect on what you think are the most challenging aspects of the job.
- One of the reasons for these tough, strange or unexpected questions, experts say, is to gauge the job candidate's critical thinking and reasoning skills.

### Description about the program:

The following topics were discussed during the period.

- Linear Algebra—Competitive Exam Point of View
- Discussed some example problems

### Outcome of the Event:

After completing this series, the students knew about

- the concept of dimension of a vector space
- Eigen values and eigenvectors of a linear transformation
- concepts of inner product on vector spaces
- Solving previous year question related to linear algebra

### Description about the program:

The following topics were discussed during the period.

- An Introduction to Graph Coloring
- Vertex and edge coloring

### Outcome of the Program:

After completing the webinar, the students

- Able to define the basic concepts of graphs, directed graphs, and weighted graphs
- Able to define the properties of bipartite graphs, particularly in trees
- Able to understand the concept of colorings and theory
- Able to understand Eulerian and Hamiltonian graphs
- Able to understand the concept of plane graph and theory

## Report on Workshop on “Webpage design in PHP”

Workshop on “Webpage Design” was conducted on "18-03-2021" for students from the department of Information Technology in Dr.N.G.P Arts and Science College.

### Description about the program:

- ✓ To know what Webpage design is in which students need not only have knowledge in design (typography, color theory) but also skills in developing a website (HTML, CSS, JavaScript).
- ✓ Web designers are also involved in interaction design when they code for animations and interactions using CSS and/or JavaScript.
- ✓ By learning this skill, they can design new webpage

### “Workshop on Insight of Python for Data Science”

#### Description of the event:

The session dealt with the innovative topic “Insight of Python for Data Science”. The seminar gave an insight of the importance of Data Science in using Python and also added knowledge of the subject and discussed about the importance of data Science in current Scenario. The lecture has instilled a lot of confidence to face challenges that seemed unconquerable.

The speech ended with an interactive session and students were enabled to clarify their doubts and queries about various careers. This session was very beneficial to the aspiring students.

#### Outcome of the Event:

- To understand the technology behind Data Science using Python
- To understand the data analysis tools.
- To apply Data Science in different fields.

### “Webinar on Features of Robotics Process Automation Tools”

#### Description of the event:

The session dealt with the innovative topic “**Features of Robotics Process Automation Tools**”.

The seminar gave an insight of the features of Robotics and also added knowledge of Process Automation Tools which was very informative to students. The lecture has instilled a lot of confidence to face challenges that seemed unconquerable.

The speech ended with an interactive session and students were enabled to clarify their doubts and queries about various careers. This session was very beneficial to the aspiring students and received good feedback by all.

#### .Outcome of the Event:

- To understand the technology behind Robotics
- To understand the Process Automation Tools.
- To apply Robotics in different fields.

**Date:** 13.03.2021

#### Preamble:

Since learning the different immune techniques are important for the students, Biozenith Association of Department of Biochemistry under DBT Star Scheme in association with OPRL Biosciences P.vt.Ltd organized an interdepartmental workshop on “Immunization of Animals and Immunodetection” at Dr. N. G. P. Arts Science College on 13.3.2021. The renowned Chief Guest, Mrs. ShanthiThirumaran, Production Manager, OPRL Biosciences Private Limited, Chennai served as a resource person.

#### Participant's Profile:

A total of 34 Students from both UG and PG Biosciences students were participated in the Workshop.

### Resource person Profile:

Mrs. ShanthiThirumaran, Production Manager, OPRL Biosciences Private Limited, Chennai served as a resource person. She is the key person in preparation of our Research and Teaching Kits and is expert in DNA, RNA & Protein analysis, Chromatography, Electrophoresis and PCR. Mrs. T. Shanthi is also carrying out our Animal and Plant Culture research works.

Oprl Biosciences Private Limited is engaged in manufacturing Laboratory Equipment's and Research Kits used for testing and analysis in the field of Life Science(s)- more particularly for DNA, RNA, Protein etc. These Equipment's, Kits finds applications in Bio-Tech Industries, Pharma Industries, Hospitals, Diagnostic Centers, Research Organizations, Central & State Government Universities, Government Research Institution, Collages, Institution etc.

### Description about the program:

The program started with a welcome address given by Ms. M. Priyadharshini of III B.Sc Biochemistry and followed by Inaugural address by Dr. S. Gowri, HOD and Professor, Department of Biochemistry. The workshop was felicitated by Prof. Dr. V. Rajendran, Principal, and Deans of various portfolio of Dr. N. G. P. Arts Science College. The renowned Chief Guest, Mrs. ShanthiThirumaran, Production Manager, OPRL Biosciences Private Limited, Chennai interacted with the aspirant and gave an inspirational speech about immunological techniques. Her speech expressed her thoughts on preparation of antigen and adjuvant mixture. She lucidly explained how to handle the animals for immunization. The speaker enlightened her view on estimation of antibody produced by SRID techniques and determination of antigen specific antibody by sandwich ELISA. Finally Valedictory Ceremony felicitated by Dr.S.S.Sudha, DBT Star Coordinator. C.Meena, II M.Sc Biochemistry delivered the gratitude note. As per the feedback, the workshop was lively and lucid presentation and felt glad for being a part of the same.

### Outcome of the event

The participants were learnt the preparation of antigen and adjuvant mixture

The students handled the animals for immunization

The students did the techniques of SRID and ELISA

Dear Madam,

Please find the below mentioned technique details along with instruments listed to perform the workshop on **Saturday (13-03-2021).**

**Workshop Topic: Immunization of animals & Immunodetection**  
**Duration: 1 day**

### Techniques to be covered :

1. Preparation of antigen and adjuvant mixture
2. Handling of animals for immunization
3. Estimation of antibody produced by SRID technique
4. Determination of antigen specific antibody by Sandwich ELISA

### Instruments and labwares list:

1. Weighing balance
2. Micro oven
3. Boiling tube
4. Beaker
5. Measuring cylinder
6. ELISA reader
7. Vortex
8. Pipettes & tips all range
9. Double hub needle

**NOTE: Preferably arrange all laboratory equipment as listed above to perform the techniques and to avoid time consumption**

### **“Webinar on Artificial Intelligence In Robotics”**

#### **Description of the event:**

The session dealt with the trending topic “Artificial Intelligence In Robotics”. AI gives robots a computer vision to navigate sense and calculate their reaction accordingly. Robots learn to perform their tasks from humans through machine learning which again a part of computer programming. Basic and important concepts were discussed. Training continued in such a way that they can have an idea of AI plays a vital role in today’s world. They have discussed on various job opportunities of Artificial Intelligence.

#### **Outcome of the Event:**

- To understand the technological trends in Artificial Intelligence
- To build Robots using AI
- To apply Artificial Intelligence in different fields.

### REPORT:

Under the DBT STAR College Scheme, Dept. of Biotechnology has organized an event on Hands on training – Stereomicroscopic Techniques on March 06, 2021 for the I B.Sc. Students. The event was formally inaugurated with a prayer song, welcome address by the students followed by an introduction of the demonstrator who was Dr. P. Arun, Associate Profesor, Dept of Biotechnology. The participants for the program were I B.Sc. Biotechnology students who were close to 65 in number.

The Department of Biotechnology conducted this event on Hands on training – Stereomicroscopic techniques under DBT Star College Scheme on 06/03/2021 (Saturday) at Dr. N.G.P. Arts and Science College, Coimbatore to create an awareness on the use of microscope and also to witness the biodiversity among the different plant and insect species. The students were asked to bring samples like pollen, grains, insects, fungi samples which they could view under the microscope to identify the structure and design. The students were enthusiastic since they gained a hands on experience on using the stereomicroscope. Dr. P. Arun involved all the students to experience the usage of microscope which turned the event very interesting for the students and turned to be a great motivation.

The students experienced the hands on training session for the full day and gave a positive feedback that they were thrilled to individually use the equipment under the guidance of the organizers and were highly thankful for having conducted the same.

### **Description of the Event:**

Department of Biotechnology, Dr.N.G.P Arts and Science College, Under DBT Star College has organized the hands on training in the Stereomicroscopic techniques on 06.03.2021 for the Biotechnology students. The aim of the workshop was to make students understand about the handling of the microscopic in correct positions and how to adjust them accurately. Dr. Arun. P, Associate professor & Dr. Radha Palani swamy, Assistant professor in Department of biotechnology has handled the session. They explained about the importance of Stereomicroscopic techniques for their research purposes.

### **Outcome of the Event:**

1. Students learned about the importance of Stereomicroscopic techniques
2. Students learned about the procedure to operate the Stereomicroscopes.
3. Students have learned about to use Stereomicroscopic techniques for their research purpose.

## Workshop on “Mushroom cultivation”

### Description of the event:

- The students of UG Microbiology and UG Biotechnology had undergone mushroom cultivation training at Tamil Nadu Agricultural University, Coimbatore, Tamil Nadu by the support of DBT Star College Scheme gained knowledge and trained how to cultivate mushroom.
- The trained students were given training and disseminated knowledge to the rest of the students of microbiology department and other department students
- The students of microbiology department who trained already on mushroom cultivation who were organized intradepartmental Mushroom cultivation training to the other than science department students such as physics, Costume design and fashion, commerce and computer science etc and disseminated their knowledge and trained them to cultivate mushroom under the DBT Star Scheme.

### Outcome of the Event:

- Students were trained to cultivate mushroom by using various substrate such as paddy straw, sugarcane waste, waste grass etc.
- In addition, they gained knowledge how to overcome the trouble shoot
- Through this training programe the students were triggered to become entrepreneur

Other Comments/suggestions:

The session was very useful and everyone was able to clearly understand how to grow mushroom. This should reach so many. So this workshop many be conducted on a large and this should go and reach so many so this should be extended.

## Report on “*In-vitro* Free Radical Scavenging Activity”

### Preamble:

Antioxidants are of great importance in terms of reducing oxidative stress that is thought to cause damage to biological molecules. Several studies have described the antioxidant properties of medicinal plants rich in phenolic compounds. A workshop on *In-vitro* Free Radical Scavenging Activity has been organized on 06.03.2021. Dr. Dhana Rangesh Kumar V, Assistant Professor and Dr. T. Indhumathi Professor, Department of Biochemistry, of our college served as a Resource Person.

### . Description about the program:

- Biozenith Association of Department of Biochemistry under DBT Star College Scheme conducted an Interdepartmental Workshop on **Free Radical Scavenging Assay** on 06.03.2021.
- The workshop was organised by Dr.T.Indhumathi, Professor and Dr.V.Dhana Rangesh Kumar, Assistant Professor, Department of Biochemistry, Dr. N. G. P. Arts and Science College

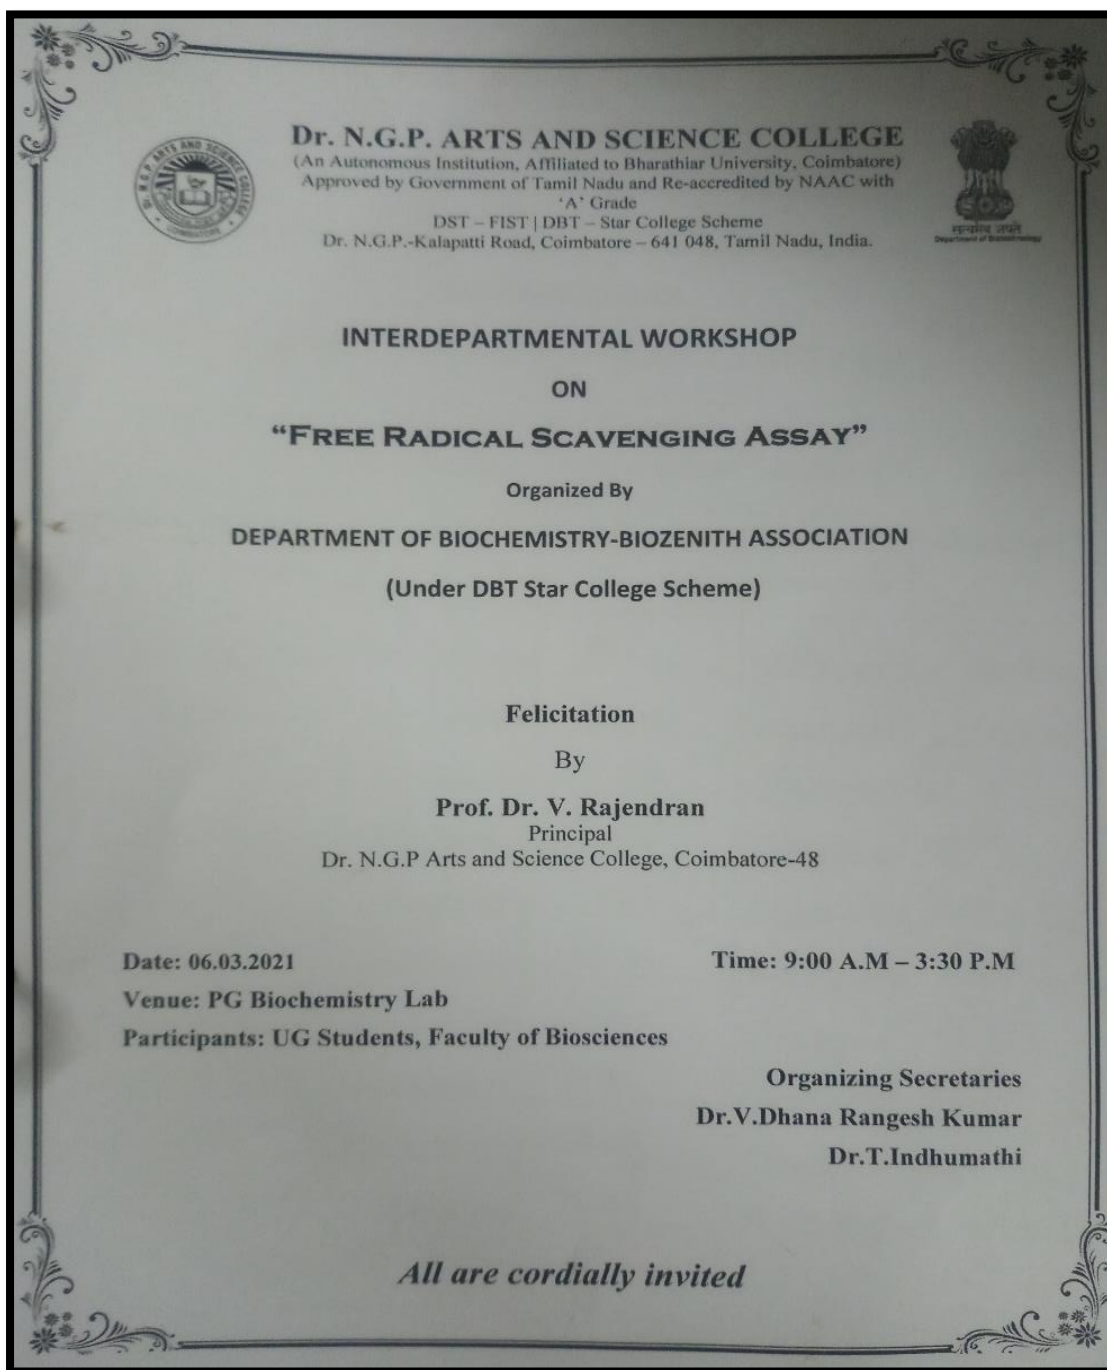

### OUTCOME

- It was very beneficial for the students to learn more about the basic of Free radicals scavenging.
- The students of Faculty of Biosciences were tremendously participated in this workshop.
- The session was very much informative and made lively to the students. The workshop was an important aspect to be known and learnt on the topic Free Radical Scavenging Assay.

### Feedback from Beneficiaries/ Students

Feedback from Sweetha.G (191BC056), II B.Sc Biochemistry

#### Mushroom Cultivation.

This Workshop is very Inspiring and I am really feeling delighted to be part of learning mushroom cultivation in this workshop. The hands on/practical side of this workshop was very Helpful in overcoming my doubts regarding Mushroom cultivation. I felt that I have gained a skill which I will consistently use throughout my life. Mushroom cultivation is a old practice which started some thousands of years ago. Mushroom has High content proteins and low levels of fat and carbohydrates. It also contain vitamins, minerals and polysaccharides. Hence, cultivation of mushroom is a good idea. We learnt about mushroom cultivation in our college headed by Dr. S. Kathiravan sir.

## Report on “Quantification of Phytochemicals”

### Preamble

This workshop was clearly focused on Phytochemicals which elaborated the presence of phytochemicals in the aqueous extracts of medicinal plants for quantitative screening methods

### Description about the program:

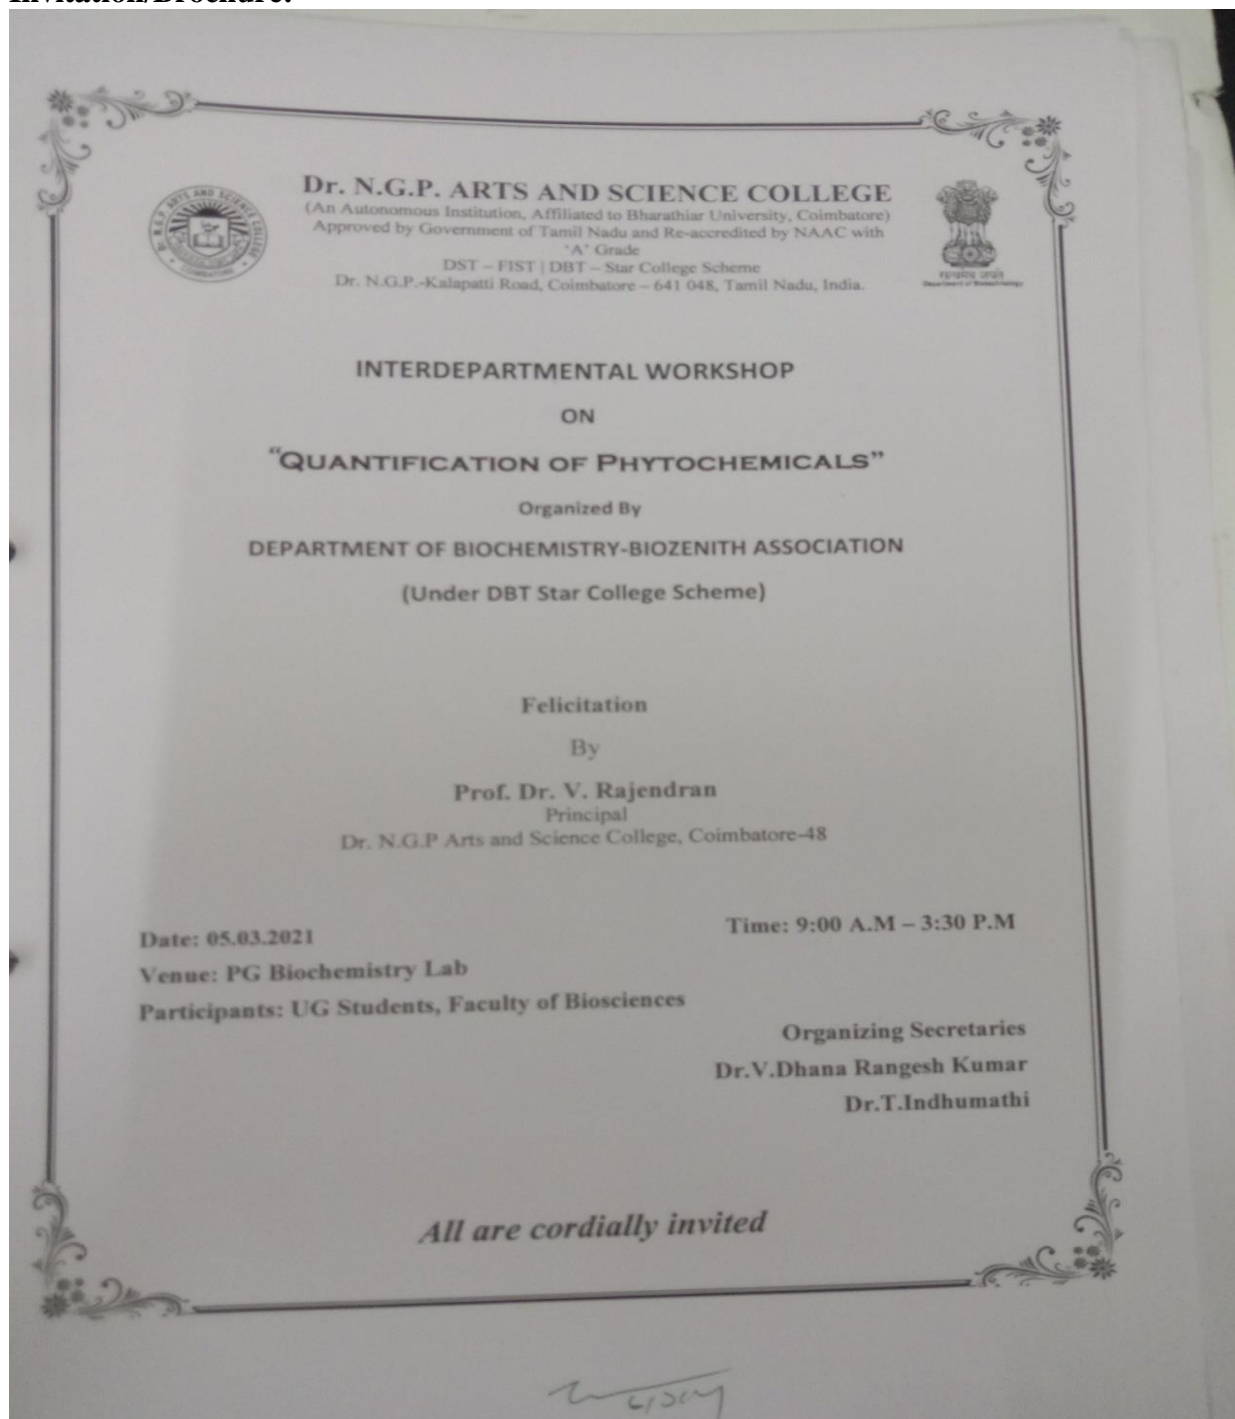

Interdepartmental Workshop on **Quantification of Phytochemicals** organized by Department of Biochemistry association with Biozenith Association under DBT Star College Scheme on 05.03.2021. The workshop was delivered by Dr.T.Indhumathi, Professor and Dr.V.Dhana Rangesh Kumar, Assistant Professor, Department of Biochemistry, Dr. N. G. P. Arts and Science College. The lecture was clearly focused on Phytochemicals which elaborated the presence of phytochemicals in the aqueous extracts of medicinal plants for quantitative screening methods.

### OUTCOME

Speakers discussed the quantitative analysis of Phytochemical that elucidated the important secondary metabolites such as alkaloids, phenolic compounds, flavonoids, saponins and tannins were tested in the sample extracts. The students, Department of Biochemistry were enormously participated in this session. The outcome of this workshop that the speakers concluded in the name of awareness of the presence of these active compounds may be responsible for the medicinal purposes of the plant.

## Report on “Intradepartmental Workshop on Polymerase Chain Reaction (PCR) Technique”

### Description of the Event:

The Biozenith Association of Department of Biochemistry under DBT Star College Scheme organized an intradepartmental workshop on ‘PCR Technique’ on 04.03.2021. Dr.M.Poongothai, Assistant Professor of Biotechnology and Dr. D. Pradeepa, Assistant Professor of Biochemistry served as resource persons for the workshop. The first session was lecture on PCR techniques wherein concept, methodology, types and applications of PCR was explained to the students. The session will include practical activities and demonstration of PCR reaction set-up. Following, the students were given hands-on training on steps involved in PCR technique. The participants cleared their doubts during the session. The workshop was informative, and the participants got benefited out of the workshop.

### Outcome of the Event:

- The participants acquired practical skill on the PCR
- Students understood the purpose of PCR
- Student can explain briefly how the PCR mechanism works

## Report on

### “Workshop on Vedic Mathematics for Competitive Examinations”

#### Description of the event:

Prof. S. Manimekalai, Dept. of Computer Technology, was invited for the workshop. 39 Students took participated in the workshop and were able to learn the shortcuts used in mathematics in order to have effective and easy calculation. Vedic math helps children remember formulae and tables in a much simpler manner and it is one of the fastest methods to learn calculation. Students asked various queries to the guest and got benefitted.

#### Objectives:

This helps to promote Indian mathematics to the graduates for their future career development. It also improves computation skills among students. Graduates will be able to learn the mathematical concepts in a easy way and it also develops their analytical thinking through vedic mathematics.

#### Outcome of the Event:

- Easy Way to Learn
- Helps in Cross-Checking
- Enhance Logical Thinking
- Improve Confidence
- More Systematic Way of Learning

### “Webinar on Physical Parameter Assessment of Food Product”

#### Description of the event:

Our Department has organized a Webinar on Physical Parameter Assessment of Food Product. Dr.C.Selvakumar, Associate Professor and Head, Department of Physics, Dr.N.G.P.Arts and Science College, Coimbatore acted as a Resource Person for Undergraduate and Post Graduate students of Food Science and Nutrition. The speaker explained about the assessment of physical parameters for the food products.

#### Outcomes of the event:

- Students can able to gain knowledge about the physical parameter assessment for the food products
- Students will be exposed to the various parameters that has to qualified during processing of foods
- Students will be gaining skill about assessing the physical parameters using instruments.

### **Workshop on “Nutrition for sports Person”**

#### **Description of the event:**

Our Department has organized a workshop on Nutrition for Sports Person by Ms.B.Sandhiya, Teaching Assistant, NIN. Students get to know about the Importance and Health Benefits of Cereals, Pulses, and Oil seeds, Nuts, Fruits and Vegetables.

Basic nutrition is important for growth, achieving good health and scholastic achievement, and providing energy. Sports nutrition enhances athletic performance by decreasing fatigue and the risk of disease and injury; it also enables athletes to optimize training and recover faster. Balancing energy intake with energy expenditure is crucial to prevent an energy deficit or excess. Energy deficits can cause short stature, delayed puberty, menstrual dysfunction, loss of muscle mass and increased susceptibility for fatigue, injury or illness. Energy excess can result in overweight and obesity.

#### **Outcomes of the event:**

- Students able to gain knowledge about the basic nutrition which is required for good health
- Students able to know about the healthy and nutritious food for athletic persons
- Students can able to gain knowledge about the balancing energy and energy deficits

## Outcome

- Making robots easier to train helps makes automation more accessible to a wider range
- range of industries in business where industrial robots are new, it's harder to find engineers and skilled human operators to train the robots.
- Students will be able to use this opportunity to learn new skill

## **Seminar on Creative Thinking”**

### **Preamble**

Creative thinking refers to using abilities and soft skills to come up with new solutions to problems. Creative thinking skills are techniques used to look at the issue from different and creative angles, using the right tools to assess it and develop a plan. It is a highly valued skill to have individually and one that businesses should always aspire to have among their ranks. It needs constant exercise to stay sharp. A Guest Lecture on Creative Thinking has been organized on 26.12.2020. Prof. C.P. Tamil Selvi, Sri Ranganathar Institute of Engineering and Technology served as the resource person.

### **Description about the event:**

- Prof. C.P. Tamil Selvi registered the importance of creative thinking
- She delivered the importance of brain storming technique in from a group of people ideas were thrown without interference.
- She addresses the students with the techniques of lateral thinking which involves looking in less obvious areas and lines of reasoning.
- In addition to that she delivered the ideas of mind mapping in which we connect ideas that we never imagined could be combined.

### **Outcomes of the event:**

- Students know how to relieve from stress.
- All the participants able to get well connected with community.
- They gained knowledge how to be a problem solver.
- Students got some exposure on being a positive thinker.

### Workshop on “Big Data Testing”

#### Description of the event:

Department of Computer Science with Data Analytics invited the guest Lecture and organized a Workshop on the topic “”Big Data Testing” on **24.12.2020**. The Guest Mr.D.Vengadesh, was felicitated by our Head of the Department Ms. Mary Magdalene Jane.

The program helps to understand the techniques in Big Data and Testing Environment through the Programming techniques. They demonstrate a discussion on different Testing Techniques and programming languages used to analyze the structure and function of big data and how it works .It ended with understandable perceptive about the different Big Data Tools like Pig,Hive,Scalaand Spark.

#### Outcome of the Event

- The students can be able to understand different Big Data Technologies
- They can understand the application of Big data in different platforms
- Students can able to test the files with the Hadoop Environment.

### **Webinar on “Theories of Coordination Compounds”**

#### **Description of the event:**

A Seminar on “Theories of Coordination Compounds” was organized by Department of Chemistry to help students to understand the importance of coordination complexes and applications of complexes to benefit M.Sc and B.Sc. final year students.

- Dr. R. Prabhakaran spoke on the importance of complexes and spectroscopic studies of complexes in coordination compounds.
- He was clearly enlightened about the basic theories of coordination complexes.
- The session was very knowledgeable to the students.

#### **Outcomes of the event:**

- Students were motivated towards emerging research areas in the coordination compounds
- All the participants were comprehending construction of the complexes
- Students were understanding the geometry and single crystal of coordination complexes
- Students got the skills about coordination chemistry.

## “Introduction to Internet of Things (IoT)”

### Preamble

IoT (Internet of Things) is an advanced automation and analytics system which exploits networking, sensing, big data, and artificial intelligence technology to deliver complete systems for a product or service. These systems allow greater transparency, control, and performance when applied to any industry or system. IoT systems have applications across industries through their unique flexibility and ability to be suitable in any environment. They enhance data collection, automation, operations, and much more through smart devices and powerful enabling technology. Dr. K.V. Eswaramoorthy, Indian Institute of Information Technology Design and Manufacturing (IIITDM) facilitated the students.

### Description about the event:

- Dr. K.V. Eswaramoorthy delivered contents on the overview of IoT, the hardware and software requirements of IoT.
- He also delivered the applications of IoT domains like environment, manufacturing, energy, healthcare, construction, education etc.
- He addressed the security concerns on IoT.

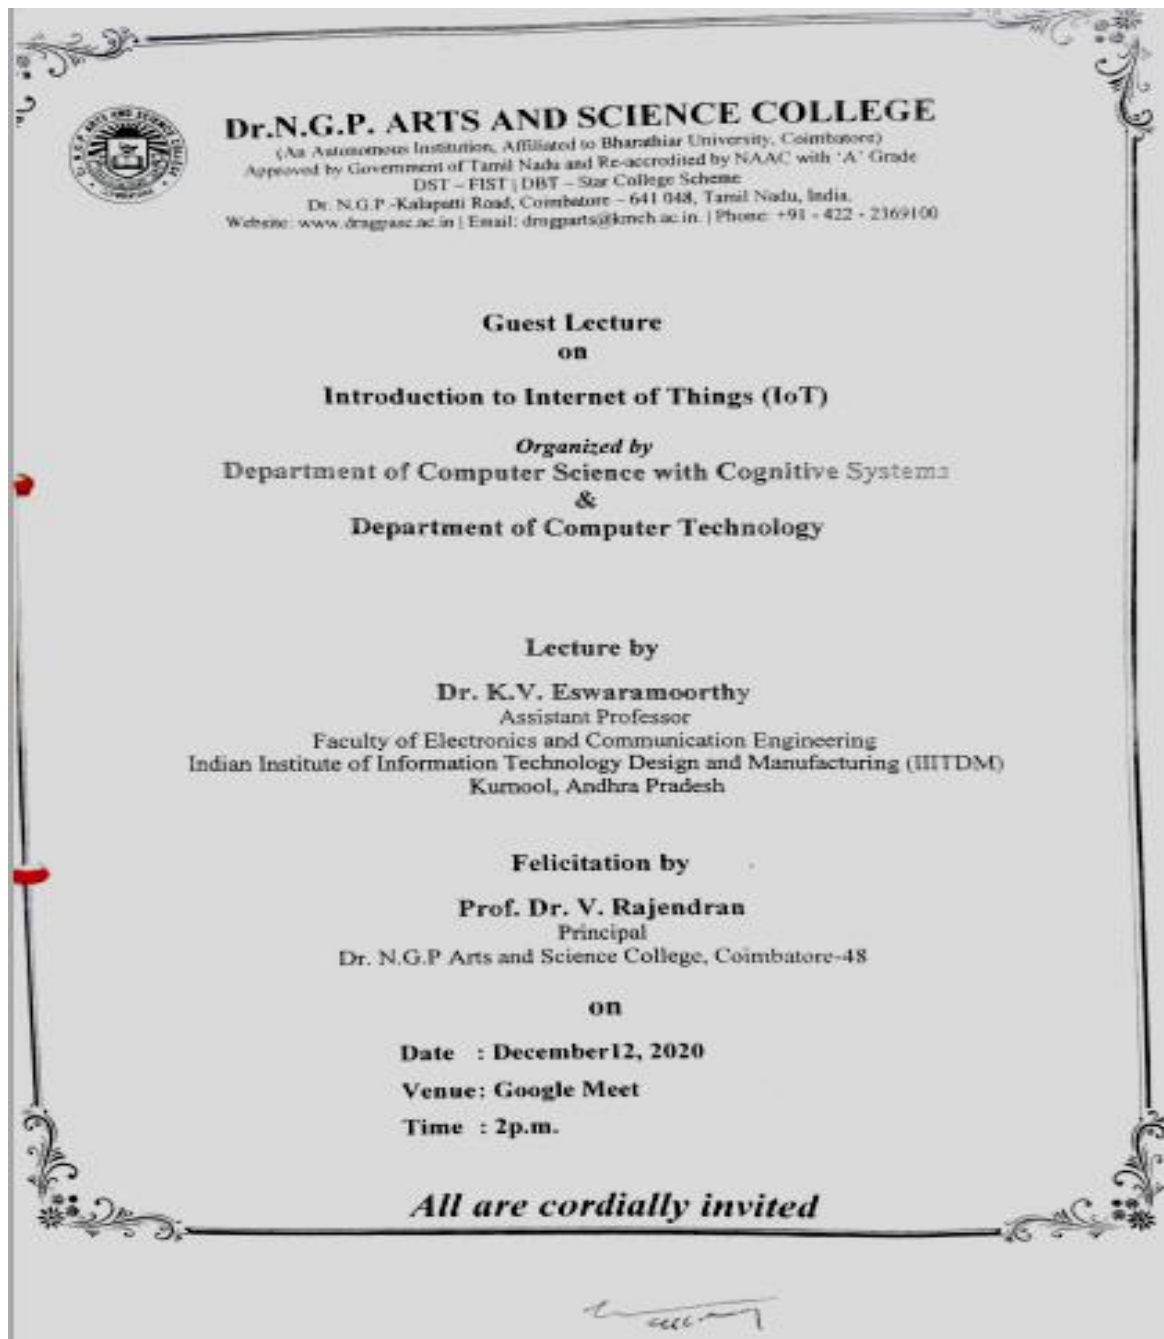

### Outcome of the Event:

- Students are capable of identifying various IOT devices like NodeMCU, Raspberry Pi, Arduino boards and the language that boot those boards.
- All the participants were exposed to various sensors and relevant components of IOT applications.
- Students got some idea on Industrial IOT applications through real case scenarios.
- Students were able to develop simple IOT application through tkinter card.

### **“Workshop on Programming Techniques”**

#### **Description of the event:**

- Department of Computer Science with Data Analytics invited the guest Lecture and organized a Workshop on the topic “Programming Techniques” on 11.12.2020. The Guest Mr. M Krishnakumar was felicitated by our Head of the Department Ms. Mary Magdalene Jane. The program intensely provided anhandlingthe Programming techniques. They demonstrate a discussion on different ProgrammingTechniques, and programming languages used to analyze the structure and function of coding and how it works . It ended with understandable perceptive about the techniques of coding using different programming Languages.

#### **Outcome of the Event**

- The students can be able to understand different Programming languages structure
- They can implement the programming techniques in different platforms
- They can analyze the results of the each programming Techniques learned

## Report on “Webinar on Positive Attitude”

### Preamble:

A positive attitude is a state of mind that allows you to envision and expect good things. It does not mean living in denial of the negative situations around us. This attitude allows us to stay optimistic. The benefits of a positive attitude include anticipating happiness, health, success, and opportunities. Prof. Thirukoshtiyur Manikandan addressed the audience.

### Description about the event:

- Prof. Thirukoshtiyur Manikandan addressed the gathering on the importance and the reasons for developing positive attitude.
- He briefed on the practices to develop positive attitude such as self-care, no-gossip, cracking jokes, real breaks, meditation, long-term focus, hearing music, etc.

### Outcome of the event:

- Students were awakened on boosting their self-confidence.
- All the participants were exposed to balance with the daily affairs of life.
- Students were mentored on managing with ups and downs in life.
- Students were given enough exposure to face the stress and depression that occur as a part of life.

### Report on “Role of Analytics in Software Testing”

Department of Computer Science with Data Analytics invited the guest Lecture and organized a Guest Lecture on the topic “Role of Analytics in Software Testing” on 01.12.2020. The Guest Lecture Mr.Rajamani Pichaiah was felicitated by our Head of the Department Ms. Mary Magdalene Jane.

The program vividly provided an enlightenment on the role of Analytics in software testing techniques. They clearly had a discussion on the Analytics sequencing methods, and programming languages used for Testing and analyzing the structure and function of Analytics. It ended with understandable perceptive about the techniques of Analytics Process using different Software testing platforms.

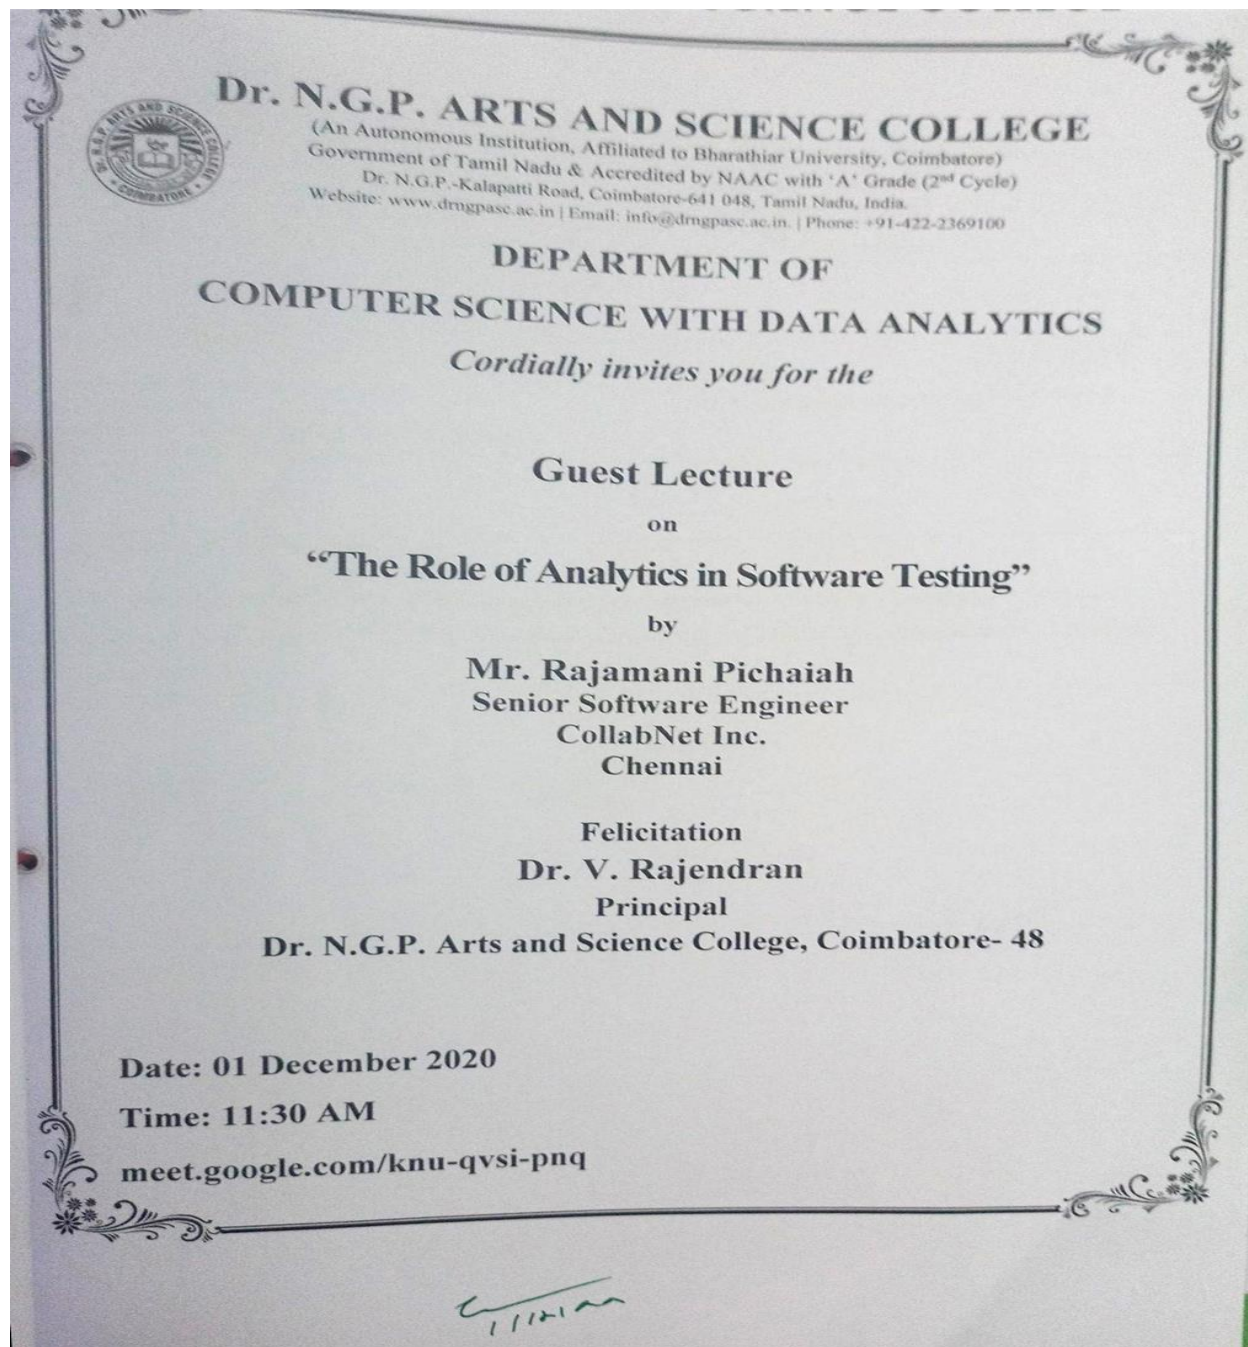

#### Outcome of the Event

- The students can be able to understand different testing platform’s structure
- They can implement the analytics techniques in different platforms
- They can analyze the results of each Strategy in software testing.

### Preamble:

Rare genetic diseases collectively impact a significant portion of the world's population. For many diseases there is limited information available, and clinicians can find difficulty in differentiating between clinically similar conditions. This leads to problems in genetic counseling and patient treatment. The biomedical market is affected because pharmaceutical and biotechnology industries do not see advantages in addressing rare disease treatments, or because the cost of the treatments is too high. By contrast, technological advances including DNA sequencing and analysis, together with computer-aided tools and online resources, are allowing a more thorough understanding of rare disorders. Here, this workshop discusses about Rare Diseases – Mendelian Inheritance, Genetic Diagnosis – Overview, Representative disorders, Types of variants, Databases involved, Standard Guidelines to ACMG Classification in facilitating diagnosis and, consequently, treatment of rare diseases. **Mrs. Deepa Saravanakumar** is a Clinical Scientist, Classification Team, CENTOGENE AG, Rostock, Germany served as a Resource Person.

### Resource person Profile:

**Mrs. Deepa Saravanakumar** is a Clinical Scientist, Classification Team, CENTOGENE AG, Rostock, Germany. She is expertise in Medical reporting on genetic diagnosis of rare diseases, Genetic variant classification, Analysis of genetic data associated with clinical conditions of patients, Assessment of the pertaining data with patient phenotype, Classification of genetic variants according to ACMG guidelines, Reporting variant relevant to the patient's clinical condition. She is also a Curator involved in Curation and interpretation of variants and cases according to in-house ,standard procedures, Development and optimization of the curation process, Maintaining data consistency, accuracy and quality, Master data management, data acquisition from database and literature. She is a Research Scientist in 'Bioquant', Centre for Quantitative Analysis of Molecular and Cellular Biosystems, Ruprecht-Karls University of Heidelberg, D-69120 Heidelberg from 2008 – 2011. She also served as a Project Assistant,

### **Description about the program:**

Department of Biochemistry under DBT star scheme organized webinar cum workshop on “Medical diagnosis of rare genetic disorders: transforming analytical information into actionable results” on 20.11.2020 at Dr. N. G. P. Arts and Science College. The renowned Chief Guest, Mrs. Deepa.S, Clinical Scientist, Classification Team, CENTOGENE AG, Rostock, Germany. The workshop began with welcoming by M.Kaviya, III B.Sc Biochemistry. She gave an enormous speech on medical diagnosis techniques. She explained lucidly the procedure of precise medical diagnosis of inherited diseases which transforms medical expertise and analytical knowledge into actionable results. It’s also being a life-long support for patients and partners - driven by the continuous improvement of diagnostic quality and therapeutic options for individual patients. She gave an eye opening session on medical diagnosis. At the end, the gratitude note was given by C.Meena, II M.Sc Biochemistry. The session was really helpful and enhanced the knowledge of diagnosis methods.

### **Outcome of the Program:**

- Availability and effectiveness of treatment and management approaches.
- Helps to know about medical diagnosis techniques
- Provides to assess the medical history , signs and symptoms to give the most accurate estimate of the patient’s prognosis.
