#### **Report of the Lecture:**

The endowment lecture on Recent Trends in Biological Sciences and Health care was organized by the department of Biotechnology on September 23<sup>rd</sup>, 2015. The speaker was an eminent personality and also an educator. He has been investigating into many domains related to education and community science. It took the shape of a student development program to inculcate the need of health care sciences in all domains. The function was graced by the presence of Dr. P. R. Muthuswamy, Principal, Dr. NGP Arts and Science College. The event was proceeded in the presence of the Head of the Department Dr. V. Shanmugaraju and other staff members and students. The student population consisted of both undergraduate and postgraduate students. The audience was thrilled by the topic since it was need of the hour topic. The speaker emphasized on the importance of basic needs for health care vitals irrespective of different walks of life. With the basics in healthcare, all the communities can attain good health and hygiene and can ward off several disorders and infections. The audience found the topic to be interesting and light hearted. Since it was of personal interest for each and every individual, all the students made the session interesting by asking lots of queries related to the topic. The session ended with a positive feedback for the students that they gathered knowledge would even share it among others. The session ended with a formal vote of thanks by Mrs. M. Shanmugavadivu.

Inauguration of Student Development Programme on "Recent Trends in Biological Sciences and Healthcare" by Dr. V. Ramakrishnan, Principal, Dr.N.G.P.College of Education on 23.09.2015.
