## OUT REACH PROGRAM EVENT REPORT ACADEMIC YEAR 2018-19

**DATE:** 13.06.2018

**DAY:** Wednesday

**PLACE:** A Block, Dr.N.G.P ASC

**TOPIC:** International Albinism Awareness Day 2018

**DESCRIPTION:**

Albinism is a genetic condition that affects people throughout the world, regardless of race, ethnicity or gender. Yet, tragically, people with albinism continue to suffer widespread discrimination, stigma and social exclusion. Very many, including children and women, are extremely vulnerable, isolated and subject to abuse and violence. Albinism Awareness Day (June 13) has been continues to hold enormous potential in furthering public education on the condition and raising awareness on persons with albinism and their human rights by our students. There has also been an unprecedented growth in civil society groups representing persons with albinism. The capacity of these groups is improving as well, in part because of the unprecedented mobilization of resources to support them.

**OBJECTIVE:**

The goal of the activity is to bring awareness to the social struggles that people with albinism face in their everyday lives. International days and weeks are occasions to educate the public on issues of concern, to mobilize political will and resources to address global problems, and to celebrate and reinforce achievements of humanity.

## OUT REACH PROGRAM EVENT REPORT

### ACADEMIC YEAR 2018-19

**DATE:** 16.07.2018

**DAY:** Monday

**PLACE:** Panchayat Union Primary School, PeriyaThadagam, Coimbatore – 641 108

**TOPIC:** Awareness on Save Water (swachhbharat )

#### **DESCRIPTION:**

Water has risen to the top of the Indian government's priority list — as I write this, Prime Minister Narendra Modi has devoted an entire episode of his monthly radio broadcast *Mann Ki Baat* to the issue.

Putting his bully pulpit to good use, Modi has called for a mass movement — like Swachh Bharat — to save water. Since the new government took office, it has created a water ministry by folding up two older ones, set itself a goal of delivering piped water to all households by 2024, created a water management index that ranks states and is set to roll out a whole host of measures to conserve water. The government machinery will certainly move now that Modi has put his weight behind it. since we our department of biochemistry has planned to create the awareness on save water from the childhood.

#### **OBJECTIVE:**

Our department envisions conservation and protection of energy resources for the future generation. Our Mother Earth nurtures and nourishes us in our daily life, hence it is our responsibility to preserve and conserve the same. This activity creates awareness on save water among primary children and also college students.

Blood groups are divided into four types i.e. A, B, AB and O. ABO blood group detection follows the agglutination method and then it goes for a machine recognition. The agglutination reaction means that occurred reaction between the antibody and the antigen, indicating the presence of the antigen

**EXTENSION PROGRAM REPORT**

**DATE:** 08.02.2019

**DAY:** Friday

**PLACE:** KARUPPARAYAMPALAYAM AND KAIKOLAMPALAYAM,

**TOPIC :** Awareness on Water Borne Diseases” – Door to Door Campaign

**DESCRIPTION:**

Extension activity was organized by Dr.N.G.P. Arts and Science College, Department of Microbiology under the DBT-STAR College Scheme to create “Awareness on Water Borne Diseases” – Door to Door Campaign at Karupparayampalayam and kaikolampalayam, Coimbatore. 64 II B.Sc., Microbiology students along with 4 staffs gave awareness on the above.

**OBJECTIVE:**

Water borne illness, often referred to as food poisoning, is generally caused by drinking food or beverages contaminated by bacteria, parasites or viruses. These organisms are passed in the feces of animals and infected people. Symptoms of food or water borne illness are gastrointestinal, for example diarrhea and stomach cramps. People can also get sick from swimming in contaminated water or from close contact with someone else who is ill. Certain groups are at increased risk of developing serious complications. These include: pregnant women, young children, seniors, anyone with an underlying medical condition, and anyone with a weakened immune system such as those on chemotherapy. The main objective of the awareness program is to inculcate these problems and guide the people to overcome these complications.

### Benefits of breastfeeding for the baby

- Breast milk is the best source for a baby's nutrition.
- Breast milk is produced by the mother using proteins and just after birth, the milk is very rich in nutrients and antibodies to protect the baby from various diseases.
- Breast milk has the right amount of fat, sugar, water, protein and all of the nutrients that a newborn baby needs to grow.
- Breast milk is easier to digest.
- Breastfeeding has also been shown to lower the risk of later health-related issues (symptoms).
- Exclusive breastfeeding for 6 months reduces infant mortality due to various childhood diseases such as diarrhea or pneumonia and helps for a positive memory during stress.

### Mothers benefit from breastfeeding

- Decreased risk of breast and ovarian cancers.
- Bond is strengthened between mother and child.
- Saves money.

- No electricity or fuel is consumed.
- Breastfeeding requires no packaging, and its production does not harm the environment.

### Issues/problems for breastfeeding mothers

Breastfeeding mother can eat a regular well-balanced diet with the following suggestions:

A healthy enough liquid is important. Because the mother during the first few days after delivery, her body needs fluid as well as food.

If mothers are allowed to eat a variety of healthy foods, they should not worry about food such as meats, beans, vegetables (especially leafy green vegetables), fruits, bread, cereals, and grains, milk, cheese, and eggs (gradually introduce) chicken, prawns, shrimp, and seafood and to remain healthy.

- Vegetarian mothers may require supplementary vitamin B12, vitamin D, iron, and calcium during lactation.

Our department has conducted an Outreach programme to the Veeriyampalayam village people on 20.09.2018. Our Commerce Banking and Insurance students gave Awareness on Pradhan Mantri Jeevan Jyoti Bima Yojana & Pradhan Mantri Suraksha Bima Yojana and gave a gist about Insurance and its types to the people. Six teams have been created among our III.B.Com, Banking and Insurance students and they explained about the insurance scheme.

**Pradhan Mantri Jeevan Jyoti Bima Yojana** is available to people between 18 and 50 years of age with bank accounts. It has an annual premium of ₹330. The GST is exempted on Pradhan Mantri Jeevan Jyoti Bima Yojana. The amount will be automatically debited from the account. In case of death due to any cause, the payment to the nominee will be ₹2 lakh. This scheme will be linked only to the bank accounts opened under the Pradhan Mantri Jan Dhan Yojana scheme. Most of these account had zero balance initially. The government aims to reduce the number of such zero balance accounts by using this and related schemes. Now all Bank account holders can avail this facility through their net-banking service facility or filling a form at the bank branch at any time of the year.
