He plays a very important role in implementing the rainwater harvesting scheme introduced by the late Chief Minister J. Jayalalithaa, all over Tamil Nadu, both in his capacity as a minister and out of his personal interest. He earned the applause of the middle class by announcing that building permits for houses less than 2500 square feet shall henceforth be issued online. He was instrumental in completing all the groundworks to bring water from Jolarpettai to Chennai via trains, during the acute water shortage of 2019. He took steps to ensure that the Panchayat and Panchayat Unions function from their own buildings. For further accelerating the development of Coimbatore region, he initiated the plans for phase 3 of the Pillur Joint Drinking Water Scheme, and for the construction of the unified bus stand at Vellaloor. He toured the entire state of Tamil Nadu to inspect the water bodies' repair and renovation schemes, launched by Chief Minister Edappadi Palaniswami and ensured the successful execution of the ambitious and crucial project. On behalf of the Chennai Metropolitan Water Supply and Sewerage Board, for the first time in India, he also set up sewage treatment plants at Kodungaiyur and Koyambedu, with an output of 45 million liters.

Milestone accomplishments

The following information is imaginary and is not reflective of any real life character. This is mainly intended to boost the image. In the midst of handling his responsibilities as a minister and as a senior leader and AIADMK party secretary, S. P. Velumani went to New Delhi, met the central ministers and submitted petitions seeking the payment of arrear dues that the center owed the ministry of municipal administration. S. P. Velumani continues to enjoy the goodwill of the people of Thondamuthur constituency, cutting across religion, caste and political affiliations. He negotiated amicably with the long-time encroachers of Coimbatore city lands, convinced them to relocate, and provided alternative housing options in other parts of the city. S. P. Velumani has an interesting campaign strategy.

RESOURCE PERSON PROFILE

Profile of Sumit Sharan, IPS, Commissioner of Police, Coimbatore

(Pic: Sumit Sharan, IPS, Inspector General of Police – State Crime Records Bureau)

Twenty years ago, when a young IPS officer marched straight out of the National Police Academy, the weighing scale read 68 kilograms. The difference today is a negligible 5 kilograms, with the extra weight not around the waist but from his biceps. Except for a few strands of grey hair, this slim sleuth of the '97 IPS batch, defies the 'Then & Now' contrast most photographs portray. No magic mantra for the high metabolic rate. "I just eat sensibly and work out regularly", reveals Sumit Sharan. Easier said than done in a police job that entails "meals at irregular hours and gallons of tea while on bandobust duty." The slim build and the regimental discipline probably runs in the genes. Sumit's father A.K.Sharan, a 1965 batch IPS officer retired as the first Director General of Police of the new State of Uttarakhand. And his mother Usha Saran ensured that what was tasty wasn't necessarily sinful.

Roughing it out in the hostel due to his father's routine transfers, Sumit became quite independent minded right from his early years at the Delhi Public School. So when most of his collegemates at Hansraj College, where he pursued an Economics Hons course and later a Masters in the subject at the Delhi School of Economics, either went abroad or took up lucrative corporate assignments, he was among four students who wrote the Civil Services Examination. All of them made the cut, with Sumit acing it with his third strike.

A maiden posting as the Additional Superintendent of Police – Srivilliputhur threw the young officer straight into action with the massive Kumbhabishekham. Putting an end to caste clashes and gang wars and detaining

dreaded rowdies under the Goondas Act was his priority as the Superintendent of Police in Tuticorin. A short stint as the Assistant Inspector

General at the State Police Headquarters was a prelude to his eventful seven year innings on deputation with the Central Bureau of Investigation (CBI). As the Deputy Inspector General of the biggest Anti Corruption Branch in Delhi, Sumit investigated a Land Scam in the Delhi Development Authority & Municipal Corporation. It was jocularly referred to as the Chole Bature scam as the kingpin had begun his career selling the delicacy. When the Common Wealth Games (CWG) Scam came under the CBI scanner, Sumit was the nodal officer. There were a slew of sensational trap cases, notably one revolving around Engineering Colleges and the All India Institute of Technical Education (AICTE).

On his repatriation to the Tamil Nadu cadre, Sumit held dual charge as the Deputy Inspector General and Commissioner of Police of Tirunelveli at the height of the Kudankulam agitation against the nuclear power plant. “I worked to allay the fears of the local people and soon enough the first plant went critical.” Agitations, it appears, followed him in his career. As the Deputy Inspector General of Villupuram, the Neyveli Lignite Corporation (NLC) workers were up in arms. “We ensured that power generation did not stop at all with sufficient security deployment.”

History was made when the first transgender Prithika Yashini was given the appointment order by Sumit, during his tenure as the Commissioner of Police of Salem. “The young Sub Inspector is now a star in the department.”

Profile of Dr.Nandhini Rangasamy

Dr.NandhiniRangasamy, Director, Cognizant Foundation

Nature has its inimical way of teaching us lessons for the future. We are challenged to rise to the occasion, and we will. It is heartening to note that Cognizant Foundation has continued its commendable work during the current year. The activities undertaken by it and the Cognizant Outreach team are truly worthy of appreciation. I wish Cognizant Foundation the best in carrying the work forward.

While it has caused untold misery to millions across the globe, the COVID-19 pandemic that broke towards the end of the year has had its positive outcomes as well. The three focus areas of the Foundation – Healthcare, Education and Livelihood – have witnessed changes which have never been experienced before. We have seen healthcare workers around us donning the mantle of care for humanity and rendering a level of service that all of us are grateful for. Education has opened up a wider choice for the learners and innovative ways of course delivery for the teachers. Small and big entrepreneurs and businesses are inventing everyday products and services to maintain the livelihood of employees, vendors and customers. The Cognizant Foundation team has played a very significant role in supporting the needs of all the three sectors.

I pray that humanity gains compassion, service, and love for fellow humans from this unexpected and unprecedented calamity. Nature has its inimical way of teaching us lessons for the future. We are challenged to rise to the occasion, and we will. Cognizant Foundation can and will play a significant role.”

OUTREACH / EXTENSION ACTIVITY - INTERNATIONAL YOGA DAY

CELEBRATIONS AS OUTREACH PROGRAM

DEPARTMENT OF BIOCHEMISTRY

BIOZENITH ASSOCIATION

DATE:21.06.2019

DAY: Friday

PLACE: College Campus

DESCRIPTION:

International Yoga Day was celebrated as outreach program in order give awareness on the health benefits of yoga to all the students in the college. Pamphlets about the awareness of yoga were issued for the students in the assembly. 57 Students along with 2 staffs gave awareness on the above.

OBJECTIVE:

The art of practicing yoga helps in controlling an individual's mind, body and soul. It brings together physical and mental disciplines to achieve a peaceful body and mind; it helps manage stress and anxiety and keeps you relaxing. It also helps in increasing flexibility, muscle strength and body tone. It improves respiration, energy and vitality. Practicing yoga might seem like just stretching, but it can do much more for your body from the way you feel, look and move. Yoga asanas build strength, flexibility and confidence. Regular practice of yoga can help lose weight, relieve stress, improve immunity and maintain a healthier lifestyle. Hence the aim of this outreach program was to create awareness about the health benefits of yoga for college students.

OUTCOME

Yoga has been beneficial in keeping the body and mind in sound health. A holistic approach, Yoga targets all the different systems of the body and mind. It is said that the asanas make the body strong and flexible, as health improves; the mind too is renewed with confidence. The practice of Pranayama regulates the purification of the internal system and the organs, acting as a superior and able supplement to asanas. The energy that is generated in the body through these physical practices is then channeled into meditation or Dhyan for stability, peace and calm.

OUTREACH / EXTENSION ACTIVITY- AWARENESS ON ORGAN DONATION DAY

ORGANIZED BY
DEPARTMENT OF BIOCHEMISTRY
BIOZENITH ASSOCIATION

DATE: 13.08.2019

PLACE: DR.N.G.P ARTS AND SCIENCE COLLEGE

DESCRIPTION: Awareness on organ donation day was organized in the campus

Organ transplantation gives thousands of children and adults each year a renewed chance at living full and active lives. However, the need for organs and tissue outweighs their availability. Committing to be an organ donor is a generous decision that can save the lives of up to eight individuals, and even more if a donor can give corneas and tissue. Almost anyone, regardless of age, race or gender, can become an organ and tissue donor, and there are no costs to the person's family or estate. To create awareness about organ donation among student community and faculty members, a competition was organized for students.

Students engaged in creating awareness on organ donation by displaying posters.

தண்ணீர்தட்டுப்பாடு

- தண்ணீர்தட்டுப்பாடு என்பது நீர்பற்றாக்குறை மற்றும் நீர் நெருக்கடி ஆகியவையாகும்.
- இதற்கு மனிதர்களே காரணம்.
- இதனால் குடிநீர்தட்டுப்பாடு ஏற்படுகிறது. மாசுபட்ட நீரை அருந்துவதால் மக்களுக்கு பலவேறு நோய்கள் ஏற்படுகின்றன.
- காடுகளில் நிலவும் கடுமையான வறட்சியின் காரணமாக அங்கு வாழும் விலங்குகள் இறக்கின்றன. அவை தண்ணீர் தேடி குடியிருப்பு பகுதிகளுக்கு வருவதால் மக்களின் அன்றாட வாழ்க்கை பாதிக்கப்படுகிறது.

நீர்பற்றாக்குறைக்கு முக்கிய காரணங்கள்

- நீரைவிணாக்குவது.
- மரங்களை மனிதர்களின் தேவைக்காக வெட்டுவது.
- ஏரிகுளங்களை மக்கள் ஆக்கிரமிப்பு செய்வது.
- ஆழ்துளை கிணறுகள் மூலம் நிலத்தடி நீரை உறுஞ்சுவது.
- நீரை மாசுபடுத்துவது.
- பருவநிலை மாற்றம் ஏற்பட்டு பருவமழை பொய்த்துபோவது.

Dr. N. G. P ARTS AND SCIENCE COLLEGE DEPARTMENT OF BIOTECHNOLOGY EXTENSION ACTIVITY REPORT

The extension activity was conducted by III BSc Biotechnology students from Dr. N. G. P Arts and Science College under DBT Star College Scheme. We visited Periyathadagam to provide awareness on Water Scarcity to Public. We also gathered many informations about the village. There we were received by the President of the village. The village is located at the foot of the hill. There were only around 100 families in the village. We were separated into six batches and we communicated with the village people. We were shocked to hear that there was no drinking water in that village. They were drinking bore water. Drinking water is provided in the intervals of 10 days. They also said that there were no scarcity of water, because they were provided with bore water regularly. We also gather the information that they were wasting the water in maximum level of washing the clothes. We distributed our pamphlets and also gave a lots of awareness to the village people about the Water Scarcity in the cities. They were awaken to what we said.

This extension activity gave us a chance in understanding village people's sufferings and opinions to rectify their problems. We extend our heartfelt thanks to our staff members to arrange such extension activity under DBT Star College Scheme.

The following are the tips given by our students:

1. Stop using plastic straws, even in restaurants. If a straw is a must, purchase a reusable stainless steel or glass straw
2. Purchase or make your own reusable produce bag and be sure to wash them often.
3. Give up gum. Gum is made of a synthetic rubber, aka plastic.
4. Buy boxes instead of bottles. Often, products like laundry detergent come in cardboard which is more easily recycled than plastic.
5. Purchase food, like cereal, pasta, and rice from bulk bins and fill a reusable bag or container. You save money and unnecessary packaging.
6. Reuse containers for storing leftovers or shopping in bulk.
7. Use a reusable bottle or mug for your beverages, even when ordering from a to-go shop
8. Bring your own container for take-out or your restaurant doggy-bag since many restaurants use polystyrene.
9. Use matches instead of disposable plastic lighters or invest in a refillable metal lighter.
10. Avoid buying frozen foods because their packaging is mostly plastic. Even those that appear to be cardboard are coated in a thin layer of plastic. Plus you'll be eating fewer processed foods.
11. Don't use plasticware at home and be sure to request restaurants do not pack them in your take-out box.
12. Ask your local grocer to take your plastic containers (for berries, tomatoes, etc.) back. If you shop at a farmers market they can refill it for you.
13. Use cloth diapers to reduce your baby's carbon footprint and save money.
14. Make fresh squeezed juice or eat fruit instead of buying juice in plastic bottles. It's healthier and better for the environment.
15. Make your own cleaning products that will be less toxic and eliminate the need for multiple plastic bottles of cleaner.

On 7th September the Department of B.Com (BA) visited to the Orphanage which named "universal peace foundation" that was located in Pathuvampalli. The trip was comprised of 55 members and accompanied by two staff members. We boarded a huge bus from our college to the destination and arrived at about 11.00 a.m. in the morning.

Our arrival were greeted by all of the little cute children and old age people and some of the volunteers. They looked so happy when they saw us. They cheered happily and welcomed us with opened arms. All of us were surprised with their respond. The event was started off with a short opening speech by the volunteers of the Orphanage. Then, we also gave the Groceries', snacks, and clothes.

After that, we played games with the little children there such as tug-of-war, gunny sack race and bobbing for apples race at the courtyard of the house. We had a lot of fun and the children enjoyed themselves very well. They seemed to have a nice time with us. Finally, we also gave Gifts to all the children and we saw a happy face from them. Soon, it was time to leave. Everyone had a great time and this event was very success and satisfaction.

extension activity on Health awareness -
Coronavirus

Feedback:

As a student, we went to a place called
Karkolapalayam to aware people about Covid-19
and usage of sanitizers. The people in the
village made us so comfortable to convey the
information in a right way. Earlier, the people
was unaware about Covid-19, without wearing
mask and sanitizer, later on they were keen
about what we said.
