Healthy Food to Lead Happy Life (05.03.2019)

1. Report

EVENT DESCRIPTION

Eating fruit and vegetables apparently boosts our happiness far more quickly than it improves human health. Suggested that an increased intake of vitamin B12, also present in fruits and vegetables, may boost a neurotransmitter in the brain.

OBJECTIVES

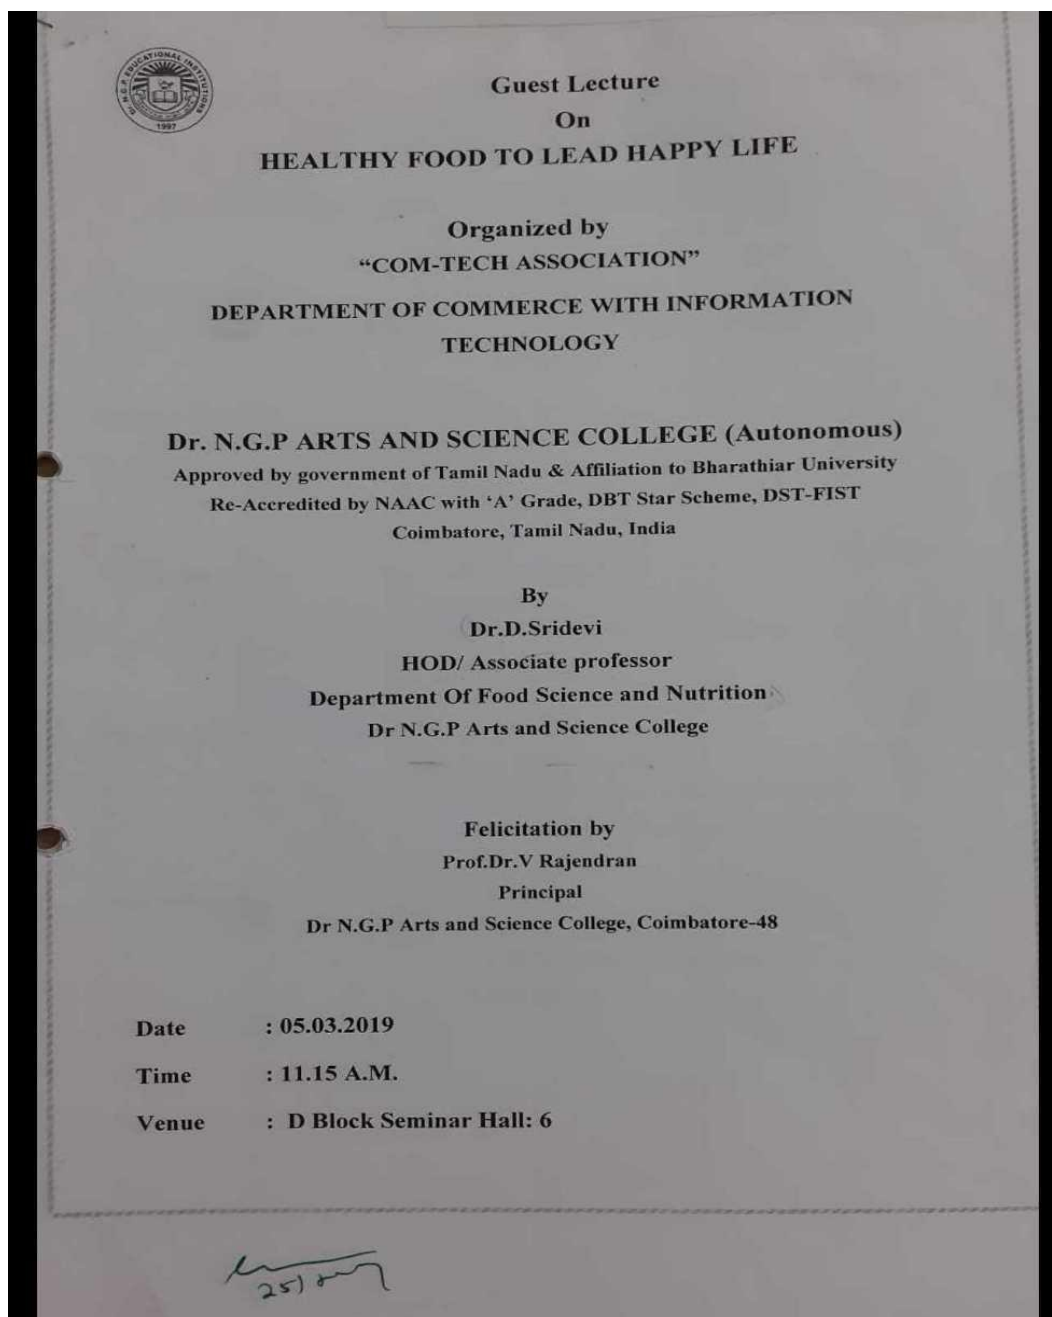

It is worth knowing to what extent our eating habits affect our happiness. One reason is that most people are concerned about their happiness and look for ways to increase it. Most determinants of happiness are beyond our control, but what we eat is largely in our own hands.

OUTCOMES

- Heart health.
- Reduced cancer risk.
- Better mood.
- Gut health.
- Memory.
- Weight loss.
- Diabetes.
- Bones and teeth

On the memorable day of 16.7.2018, the Department of Commerce with Professional Accounting conducted a special lecture on “the digital era in Indian Banking”. Modern banking in India was started in around the last decade of the 18th century. Since then many consumer friendly and convenient methods have been put out for civilians who proved advantageous for both the parties involved. The world has been constantly getting indulged in online practices which majority involve marketing, entertainment etc., out of which specifically stood out which was online banking. Since the IT field in India saw substantial growth in development in the last two decades.

The banking industry decided to play a major role by taking their services online. Online 1996, Industrial Credit and Investment Corporation of India was the first to use Electronic Banking services in branches. Its initiatives were followed by HDFC bank, Indus and bank and Citibank who started providing online banking facilities in 1999. Various facilities provided by banks across India include bill payments, seat bookings, fund transfer, account opening, investing, shopping etc. Banks all over the country brought further this digital wave where it focused on giving its customers easy accessibility in the comfort of their zones and from wherever they are with the help of a mobile phone and an internet connection.
