Skills like communication, teamwork, critical thinking, and flexibility have always been important for work and life. But they will be even more crucial for future generations. Rapid advances in technology are transforming the world of work, and by 2025 an estimated 83 million jobs around the globe will go unfilled due to lack of skills. We are also more connected than ever before, and complex global challenges such as climate change and health epidemics call for leaders and citizens who are able to collaborate with diverse groups to solve problems. Through this webinar, students motivated and got clear idea on the following:

- Importance of improving the life skills
- Aware of advances in new technology
- How to collaborate with the diverse group?

- Develop a reading habit. Vocabulary building is easiest when we encounter words in context.
- Use the dictionary and thesaurus. ...
- Play word games.
- Use flashcards.
- Subscribe to “word of the day” feeds.

3. Outcome

The webinar on “Skill Enhancement - A must for Post Pandemic Career and Life” was motivated the student’s community and created good impact on their communication skill. Through this webinar, they came to know their level of communication skill and where they are lacking. Students understood that success is depending on improving the communication skill and some of the following key ways to develop their communication skills:

- Develop a reading habit. Vocabulary building is easiest when we encounter words in context.
- Use the dictionary and thesaurus.
- Practice using new words in conversation.
- Subscribe to “word of the day” feeds.
- Use mnemonics.
