**Report:** Ms.V. Kavitha Head and Assistant Professor of Costume Design and Fashion, Dr. N. G. P. Arts and Science College, underwent her research work in Microbiology lab under the guidance of Dr.S. Sudha, Head, Department of Microbiology, Dr. N. G. P. Arts and Science College. She paid rupees 2, 000/- for carrying out her work. The research covers the following elements such as the performance of antimicrobial susceptibility testing by the clinical microbiology laboratory is important to confirm susceptibility to chosen empirical antimicrobial agents, or to detect resistance in individual bacterial isolates. The goals of testing are to detect possible drug resistance in common pathogens and to assure susceptibility to drugs of choice for particular infections. The most widely used testing methods include broth microdilution or rapid automated instrument methods that use commercially marketed materials and devices.

Dear Sir,

Sub: Request for Consultancy Services- Reg.

As a follow up of our earlier discussion, we are happy to learn that you have resources and expertise to conduct research surveys through center for research of your institution. We have many researchers of institutional buyers of our water purifiers. We are very much interested to do an extensive study on the consumer satisfaction expectation and also feedback on After Sales-Service in the southern parts of Tamil Nadu.

Hence we request you to offer your consultancy support to carry out the assignment. According to our terms, we are pleased to offer Rs. 1, 25,000/- as consultancy charges.

Thank you
