32. WORLD BREAST FEEDING WEEK

Breast milk **protects against allergies, sickness, and obesity**. It protects against diseases, like diabetes and cancer. It protects against infections, like ear infections. It is easily digested – no constipation, diarrhea or upset stomach. The day was celebrated by organizing two days webinar through Google meet platform in association with Center for Value Education. The objective is to inform, anchor, engage and galvanize action on breastfeeding and related issues.

World Breastfeeding Week is celebrated to encourage breastfeeding and improve the health of babies around the world. It is the best way to provide young infants with the essential nutrients required for growth and development. World Health Organisation says that breastmilk is the ideal food for infants. It is safe, clean, and acts as the babies' first vaccine, protecting them against many common childhood illnesses. Awareness Posters were shared in social media groups.

Department of Food and Nutrition has organized a two days webinar to create awareness on the importance of breastfeeding and to support breast feeding for a healthy life of the child. Dr.V.Roshini, Consultant Nutritionist / Dietician, Certified Diabetes Educator, Chennai, Delivered a session on “**Support Breastfeeding for a healthier planet**” on **03rd August 2021**. Mr.P.Krishnamoorthy, Registered Dietician, Venkateswara Hospital, Chennai, delivered a session on “**Rights to Protect, Promote, and Support Breastfeeding**” on **04th August 2021**.
