### OUT REACH PROGRAM ON AWARENESS OF FAMILY BUDGET

**DATE:** 21.09.2020

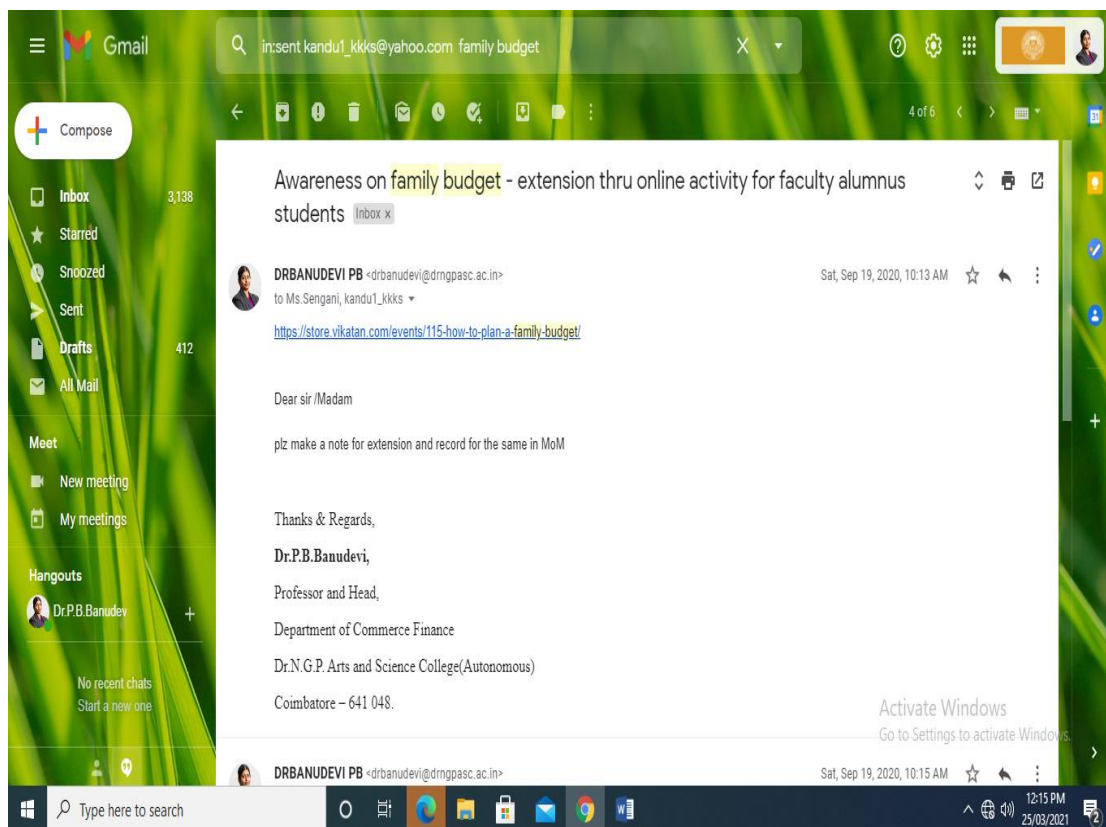

**MODE:** ZOOM MEET

Budgeting is simply balancing your expenses with your income. If they don't balance and you spend more than you make, you will have a problem. Many people don't realize that they spend more than they earn and slowly sink deeper into debt every year. The present study entitled “Awareness among housewives of Gurgaon regarding importance of family budgeting” was conducted with an aim to know the awareness among housewives regarding making & usefulness of family budget

The main objective of a family budget is to decide how a family income is to be spent, how it is to be used and divided among different kinds of goods, services and savings.

## OUTREACH PROGRAMME ON AWARENESS ON AROGYA SETU MOBILE APP

**DATE : 01.10.2021**

**PLACE : Veerampalayam Village**

Extension is an important Arogya Setu App activity which contributes to the enhancement of the status and public recognition of a profession and welfare of the society at large. Keeping this view in mind the II- M.Sc Computer Science students of Dr. N.G.P. Arts and Science College were divided into five groups for their extension activity. Group consisted of 02 students and the adopted village allocated to them was Veerampalayam Village Coimbatore, where they carried out a street campaign on October 01, 2021.

Situational awareness is prized in difficult situations as being aware of the environment around and the threats and opportunities. Governments around the world use contact-tracing as a means to improve their situational awareness to manage the Covid-19 pandemic. The Indian government's Arogya Setu App follows the same trajectory, but there have been legitimate concerns about whether it is privacy-friendly as has been claimed.

### PROCESS

The students formulated posters as part of the need analysis, based on which the students interacted with people, and its beneficiaries. As a result of the need assessment, the study team provides Awareness on Arogya Setu App. While it may be possible to argue that this allows in mapping hotspots, the key question is what is the value in knowing about where the infection has been passed on 2-3 weeks ago.

The more valuable information is, where the infected person is currently residing and then using that data to locate and quarantine the person, for which phone number is more than sufficient, which is collected by both. . When they had detailed discussion with the students of II M.Sc Computer science they also expressed the benefits and issue as very significant to be addressed in keeping view of the public places.

## INTERNATIONAL ANTI CORRUPTION DAY

**DATE:09.12.2020**

Corruption has become an inevitable issue nowadays. No region, community, or country is immune to it. It erodes trust, hampers economic development, and further exacerbates inequality, poverty, social division, and the environmental crisis. Therefore, to make people aware of the disadvantages of corruption, to spread awareness about it, and to maintain transparency, International Anti-Corruption Day is observed on 09<sup>th</sup> December every year.
