Balamurugan .K	KMCH

STUDENT'S CONTRIBUTION

Development of the hospitality industry in the country

Hospitality industry is nowadays considered to be one of the major industries in most of the countries of the world. This comprises operations of hotel, motels, resorts, guesthouse, rest house and recreation sports. In fact in many countries hospitality industry is the principle source of foreign exchange earnings.

Hospitality industry and tourism are closely related, one cannot thrive without the development of another.

Arrival of visitors and forex change earning: The Total arrival of foreign tourists in Bangladesh amounted 127,781 in this year. It may increase to 180,000 in this year . But this look like a drop in the ocean if that is compared with the other countries

Similarly foreign exchange earn buy Bangladesh amounted to us € 24.6 millions which also seems to be very little compared to the other countries of the world From the above, it appears that still Bangladesh is lagging far, far behind in tourism. Bangladesh must Endeavour to develop the tourism facility and attract the visitors. In this regard government should play a major role in the development of both tourism and hospitality industry.

COX'S BAZAR BEACH: Winter remains for three months in our country, where in western country else, it remains for six months when tourist rush in tropical countries. We are blessed with the longest beach in this world, if it is developed it can attract ONE MILLION tourist ever years. The BPC should take initiatives either to do themselves or invite foreign investors to do this, or collaboration with the government should also take approximate steps to develop the beach by providing the Modern facility for tourists, visitors and local people.

Conclusion: The development of tourism is directly linked with the dependent, upon the infrastructure, transport, economic and political environment etc... Which are the backbones of the National Growth? India should not stay behind reaping the benefit of tourism like the other countries of the world. A positive National Policy should be framed and implemented as early as possible in order to develop the tourism and hospitality industry in the country.
